GOLDWriter User's Guide

GOLDPoint Systems GOLDWriter® application allows you to create reports and gather data in an online, real-time environment. It has been designed so you can quickly select fields, calculate additional work fields based on user-defined selections, display complex totals and group calculations, and choose the application in which you want to view the report.

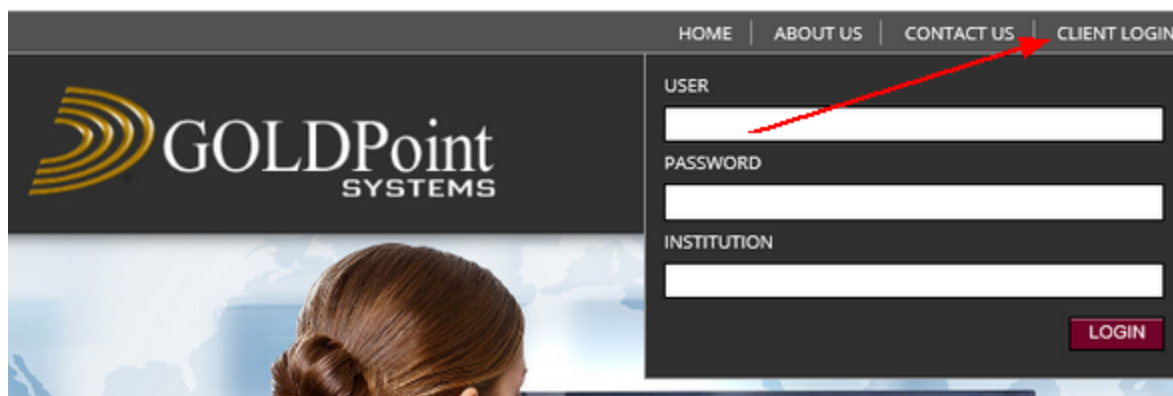

This program facilitates system and user-defined calculations, sorting, subtotaling, exporting results, and up to 4,000 bytes per row of information.

GOLDWriter is accessed in a Windows® environment. This environment provides a more user-friendly graphical user interface (GUI) format. GOLDWriter has [toolbars](#), [menus](#), and [keystrokes](#) that help you accomplish tasks quickly.

If you are unable to find the help you need from this user's guide, please [call your GOLDPoint Systems account specialist](#), and they'd be happy to help you.

You must have the current version of GOLDWriter. You can download the current version of GOLDWriter from GOLDPoint Systems's secure website, as explained in the steps below.

1. Access GOLDPoint Systems's website at www.goldpointsystems.com.
2. Log in with your user name, password, and institution number from the Client Login link (as shown below).

A screenshot of the GOLDPoint Systems website's client login page. The page features a dark header with navigation links: HOME, ABOUT US, CONTACT US, and CLIENT LOGIN. A red arrow points to the CLIENT LOGIN link. Below the navigation is the GOLDPoint SYSTEMS logo. The main content area contains a login form with three input fields labeled USER, PASSWORD, and INSTITUTION, and a red LOGIN button. The background of the page shows a woman's head and shoulders looking at a computer screen.

3. Once in the secure area, click the **Software Download** link.
4. Scroll down to the GOLDWriter® link and click it.
5. Follow the steps that appear on your screen to download the latest version of GOLDWriter.

[GOLDWriter Mnemonic Dictionary](#)

How to

Some of the most commonly asked questions about GOLDWriter® are answered in the following topics.

Set up security for GOLDWriter

Before you can use GOLDWriter, security must be set up for each employee that will be using GOLDWriter.

Note: Someone in your institution (probably a supervisor or officer) must have security to the Security > Setup screen in CIM GOLD in order to set up preferences and options for GOLDWriter.

To set up security:

1. Access the Security > Setup screen in CIM GOLD.
2. Select the Employees radio button, and then select the employee name from the list view. For more information about setting up security, see the [Security > Setup screen](#) in the Security in CIM GOLD manual.
3. Access the System tab.
4. Expand the PC Applications node, and select either the **Maintain** or **Inquire** radio buttons next to **GOLDWriter Access**, as shown below.
5. Click <Save Changes>.

The screenshot displays the 'Security > Setup Screen, System Tab in CIM GOLD'. On the left, there are radio buttons for 'Employees' (selected) and 'Tellers', and 'CIM GOLD Profiles' and 'System Profiles'. A 'Display Effective Security' checkbox is checked. Below is a search field and 'New', 'Delete', and 'Copy' buttons. A table lists employees with columns for 'User Name', 'Full Name', 'Emp #', and 'Enhancement'. On the right, the 'System' tab is active, showing a list of applications with radio buttons for 'None', 'Inquire', and 'Maintain'. The 'GOLDWriter Access' application is highlighted with a red box, and its 'Maintain' radio button is selected. A red arrow points from the 'GOLDWriter Access' row in the application list to the 'Maintain' radio button. A 'Save Changes' button is at the bottom right.

Security > Setup Screen, System Tab in CIM GOLD

That employee now has access to GOLDWriter. They can [log on](#) to GOLDWriter as they do any GOLDPoint Systems application.

Your institution's security officer must give each employee access necessary for file maintenance or inquiry to accomplish their tasks. File maintenance access allows employees to create, edit, and run reports in GOLDWriter. Inquiry access allows employees to run reports, but they cannot create new reports or edit existing reports.

Log on to GOLDWriter

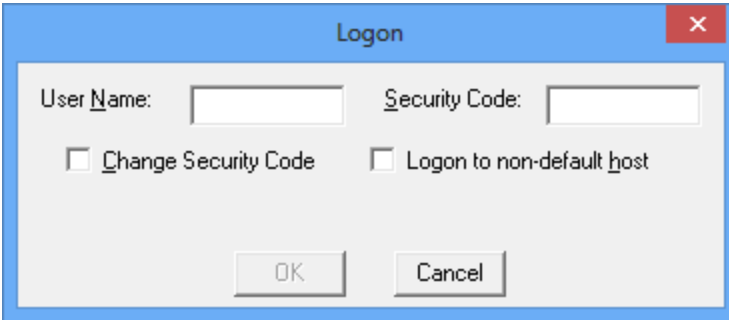

You must have a security code and the [proper security](#) access if you want to open and create reports using GOLDWriter®. The Logon function enables you to log on to the host by typing in your user name and security code.

GOLDWriter is a separate application from CIM GOLD.

Steps to log on to GOLDWriter stand alone

1. Click the GOLDWriter application logo on your desktop or from the Start menu. 

The Logon dialog box will be displayed, as shown below:

2. Enter your user name in the **User Name** field and your security code in the **Security Code** field.
3. Click <OK> or press <Enter>.

WARNING: If you enter an incorrect name or security code, the program will let you try again. After three incorrect tries, the program will automatically close.

If you are not able to log on, check with your security manager to see if your [security credentials](#) have been entered.

Change Security

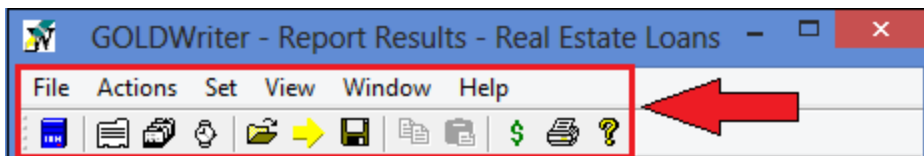

Steps to change your security code

1. On the Logon dialog, click the **Change Security Code** checkbox.
2. Type your user name in the **User Name** field and your current security code in the **Security Code** field, then press <ENTER> or click <OK>. The Change Security Code dialog will appear.
3. Type a new security code in the **New Security Code** field, type it again in the **Confirm New Code** field, then click <OK> or press <Enter>. Your security code has been changed.

Menus and Icons

At the top of the GOLDWriter screen are menus and icons that quickly allow you to access various functions within GOLDWriter. Each of these menus and functions are described in the [Menus](#) and [Toolbar Icons](#) section.

See the following example of the menus and icons at the top of the GOLDWriter screen.

Open the Report Catalog or Refresh the Current One

The Report Catalog displays all the reports that have been created on the host computer. It also displays all the reports that have been created and saved on the current computer in use.

Each row contains identifying information about a single report. The Catalog is divided into columns that can be dragged and dropped in any order. In addition, you can sort the Catalog list by any category by clicking on the heading at the top of the column. All reports will sort in alphabetical or numerical order according to the heading clicked on.

To open the Report Catalog, click the  icon on the toolbar, or select "Refresh" from the Actions menu, or press <F5>.

- To sort by any particular category, click on the heading at the top of that category. All reports will sort in alphabetical or numerical order according to the heading clicked on.
- To edit a report in the Report Wizard, highlight the report by clicking on it, and then select "Edit" from the Actions menu or double-click on any report, or press <Ctrl> + E.
- To run a report, highlight the report by clicking on it, and then select "Run" from the Actions menu or press <Ctrl> + R.
- To refresh the Report Catalog, click the  icon or press <F5>.
- To open the Report Catalog in a second window, select "New Window" from the Window menu.

The following is an example of the Report Catalog:

The icons in the Report Number column indicate whether the report is saved to the host () or just saved to your PC (). Saving a report just to your PC allows you to have a report that only you can run. This is especially helpful when creating reports for employee accounts.

Note: [GOLDPoint Systems has already created many reports](#) for you as examples for you to edit and use. They are PC reports and are assigned numbers 1000 through 1036.

Only reports saved to the host can run automatically in the [afterhours](#).

You can run any reports listed on this screen, as described in the [Actions Menu](#) topic.

To create a new report to be displayed in the Report Catalog, see the [Create a new report](#) topic.

Create a new report

There are four ways to create a new report:

1. Click the  icon on the toolbar to open the Report Wizard, which takes you step-by step to create a report.
2. Select "New" from the Actions menu.
3. Select a report in the Report Catalog, and then [copy and paste](#) it as a new report into the catalog.
4. Press <Ctrl> + N

Whatever method you use, Step 1 of the [Report Wizard](#) is displayed.

GOLDPoint Systems Reports

To help you get started with creating a report, GOLDPoint Systems has set up some reports for you. These reports are located in the PC section with the Category of "EXAMPLE." They are assigned report numbers 1000 through 1036. Examples included are for Loan, Deposit, and CIS reports.

Double-click one of these report setups in the [Catalog](#) list, and the [Report Wizard](#) will start, where you can make changes to these reports and save them with a new name.

The Report Wizard

The Report Wizard is used to create and edit GOLDWriter reports. Report Wizard automatically launches when you want to create a new report or edit an old report; or you can click the  icon to start Report Wizard. When Report Wizard opens, it takes you through a series of seven steps. The report number is automatically assigned by the system, and is displayed in the Report Catalog.

See the following steps for more information.

Note: [GOLDPoint Systems has already created many reports](#) for you as examples for you to edit and use. They are PC reports and are assigned numbers 1000 through 1036.

[Appendix A - Special Calculations](#)

[Appendix B - Special Loan Field Mnemonics](#)

[Appendix C - Report Examples](#)

The Report Wizard Step 1: Enter Basic Information

The first step of the [Report Wizard](#) is to enter basic information about the report. After clicking the Report Wizard icon, the Report Wizard Step 1 screen is displayed, as shown below.

The screenshot shows a window titled "Report Wizard Step 1: Enter Basic Information - Real Estate Loans with Flood Insurance". The window contains the following fields and controls:

- Title:** A text input field containing "Real Estate Loans with Flood Insurance Required".
- Category:** A drop-down menu.
- Master Record:** A drop-down menu containing "Loan Master LN".
- Account Number with:** A section containing three input fields: "From", "To", and "Report Description".
- Options:** A checkbox labeled "Work with mnemonics rather than field descriptions on all steps" which is currently unchecked.
- Buttons:** Two buttons labeled "GoTo" and "Next" are located at the bottom right of the window.

The following steps explain how to complete Step 1 of the Report Wizard.

1. In the **Title** field, type whatever name you want to give the report.

The title appears on the [Report Catalog](#) and should be explanatory if other users will use the report.

2. In the **Category** field, type the category, or choose a previously entered category from the drop-down list by clicking the down arrow.

The category is defined by your institution, and is used to group reports together by type of report, by master file, by department, etc. You can type anything you want (including nothing at all) for a report category. It also appears on the Report Catalog and can be very useful to your institution in separating departmental reports.

3. Choose a **Master Record** from the drop-down list by clicking the down arrow. After choosing a master record, new fields will appear just below the **Master Record** field. The fields that appear will be different according to the master record you choose.

The master record will also determine what other records can be used together on the report. The master or main record will be the fields you will base your criteria and selection on.

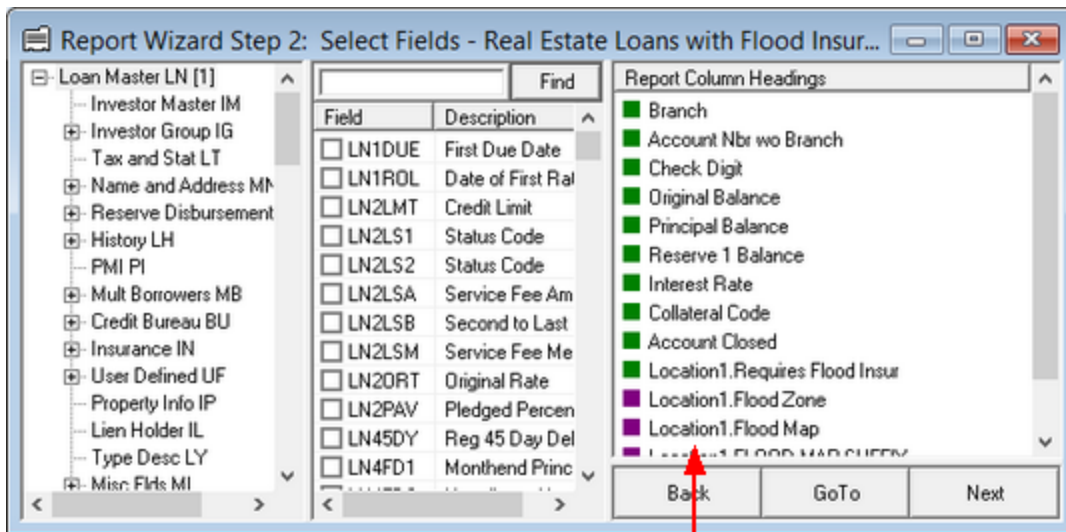

4. Enter the **Account Number From** and **To** information if you want to limit the extent of the report to a specific range of account numbers.

Tip for Loans: To place the branch portion of the account number into a separate column, use LNOFFC then LNACT6. (This will place the 4-digit office in one column and the 6-digit loan number in a separate column.) If you want to include the check digit, use LNCKDG; this would place the check digit in a separate column. Example of a loan number is 0014-512345-07.

 **Tip:** If you want to run a report against a small number of accounts as a test run, you would only need to enter a small range of account numbers in these fields. See [View How Much a Report Costs to Run](#) for more information about setting up test runs.

5. To the right of the **From** and **To** fields is the **Report Description** field. Enter any notes you would like to leave about the report (such as the purpose or when it should be processed) in this field. This information will only show in the Report Wizard.
6. If you would rather see mnemonics than field descriptions, check the **Work with mnemonics rather than field descriptions on all steps** box. If you check this box, mnemonics will be used in all subsequent steps of the Report Wizard. See the following example of mnemonics verses field descriptions:

When you have finished entering your information, click <Next> at the bottom-right of the screen. [Step 2 of Report Wizard will appear.](#)

The Report Wizard Step 2: Select Fields

Step 2 of the [Report Wizard](#) allows you to select the records and fields you want to see when you run the report. When a record or a field has a possibility of multiple occurrences, you can choose how many times a record or a field will repeat in each report line. The following steps explain how to complete Report Wizard Step 2, as shown below.

1. In the left pane, the master record you have chosen in [Report Wizard Step 1](#) will appear, with a tree structure of the other available records that can be combined below it. To see sub-records, click on the <+> sign to the left of the main records. Right-click on any of the records to select the number of occurrences of that record you would like to see in the report.

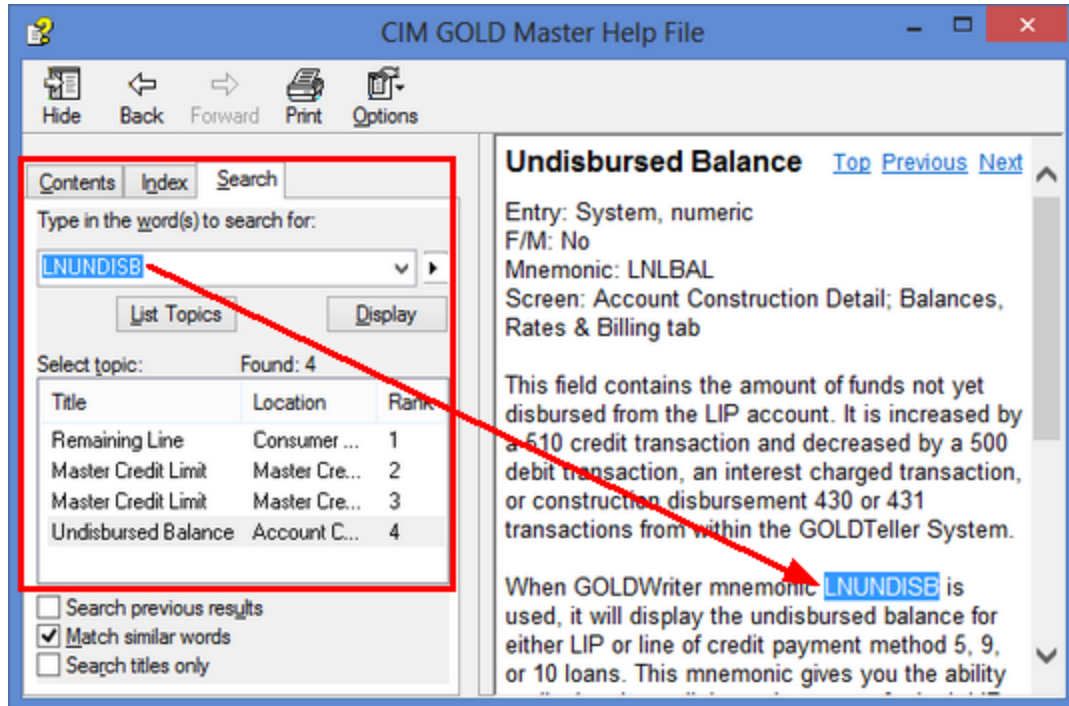

As you highlight any item in the tree structure, new database fields will appear in the center pane based on the record selected. You need to proceed through all three steps in the left pane if you want to use any fields in the Report Column Headings pane on the right.

2. To see a list of fields available for a record, click on the record. The center pane will fill with the fields available from this record.

 **Tip:** Most fields within CIM GOLD are tied to a mnemonic. If you don't know a mnemonic for a field, you can quickly find it by going to the CIM GOLD screen the field is on and use the <F1> field help. The field name and mnemonic are displayed at the top of the field help. You can also set your user preferences option to display the field mnemonic when you hover your cursor over a field. This is set in Options > User Preferences, **Enable Tool Tip Pop-up Help**. See the following example of the pop-up mnemonic next to a field:

Date Last Accrued	07/15/2010
Date Interest Paid To	07/1 LNDLAC

You can also search for the [mnemonic dictionary](#) in the CIM GOLD Master Help. To search for a mnemonic, select "Master Help Search" from the Help menu, then click the Search tab, and enter the mnemonic you want to search for in the provided field, as shown below. Click <Display> to see a list of places in CIM GOLD where that mnemonic is referenced.

- Place a check in the box to the left of each field name you want to appear on the report, or highlight it and press the space bar. If you cannot find a field, use the **Find** field at the top of the center pane. Enter any part of the field mnemonic or the description and the field will be highlighted. If it is the desired field, press the spacebar and the field will be added. The field name will now appear in the **Report Column Headings** box, with a colored square icon to the left of the field name. Number icons are green, date icons are blue, and text icons are purple.

When you click on any column heading in the **Report Column Headings** box, the source record and field will appear highlighted in the left and center panes.

When you are finished selecting all the fields you want to use on your report, click <Next> in the bottom-right corner of the screen. [Step 3 of Report Wizard will appear.](#)

Note: If you intend to use some fields in your calculations but do not want to see these fields displayed on the report, they must still be selected in this step. What is shown on the report will be defined in a later step in the Report Wizard.

The Report Wizard Step 3: Create Work Field Columns

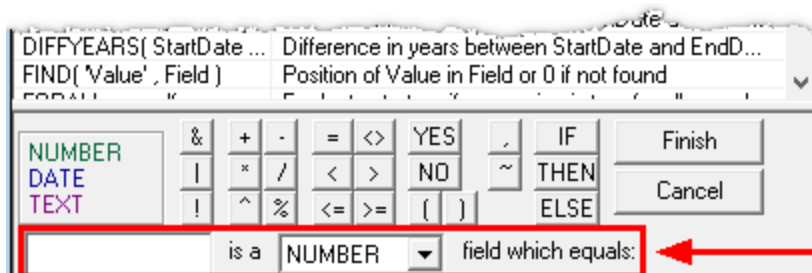

Step 3 of the [Report Wizard](#) allows you to create and edit additional work field or calculation columns on a report. Twenty pre-defined [functions](#) are available to use in your calculations or work fields. There are also 21 [operators](#) to perform arithmetic and comparisons, and three choices of what type of data the result will be. Work fields are needed when you want to use two or more mnemonics in creating a new calculation or when you want to edit the results of a single mnemonic. **Note:** If you don't need special calculations on the report, you can skip this step and proceed to the [next step](#). (Click the <Next> button or <GoTo> button at the bottom of the screen.)

See the following example of this screen:

The following steps explain how to complete Report Wizard Step 3.

1. To create a new column, click <New> in the bottom-middle pane.
An incomplete sentence will appear in the gray area below the functions. (See the following example.)

2. Complete the sentence by typing a name in the blank box, and then choosing a field type from the drop-down list. The name you choose will be the **column heading** on the report and the name of your calculated work field.
 - The name must begin with a letter.

- Spaces are allowed, but no punctuation is allowed.
- The name can be no longer than 20 characters.
- It cannot be the same name as one of the functions names (displayed in the Function column), nor the same as one of the field names already displayed in the Report Column Headings pane.

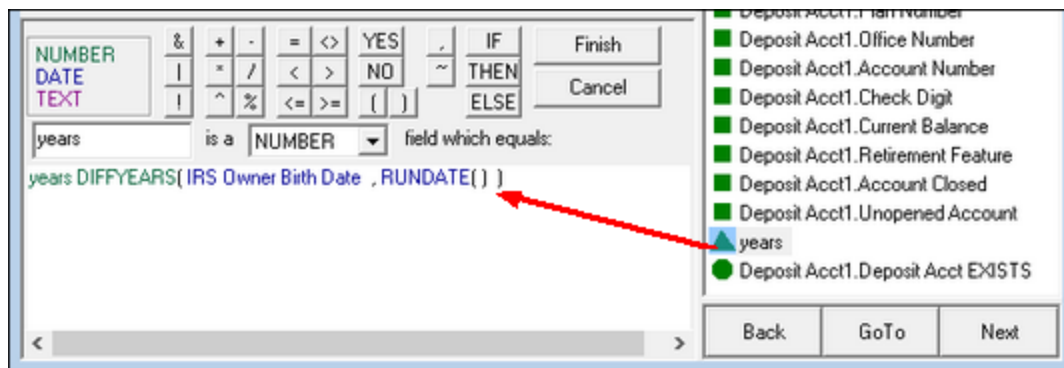

Examples of valid field names could be My Calculation, Avg Weighted Rate, Days Negative, etc.

Examples of invalid field names might be P/I Payment (no special characters (such as /, -, +, etc.) allowed), 1Field (must begin with a letter), ThisIsMyReallyLongField (longer than 20 characters), or Date (same name as one of the functions).

3. Enter the equation, (that will be used to create a workfield), in the open space at the bottom of the pane. You can create the equation using fields from the **Report Column Headings** box, the operator buttons, and the functions listed in the **Function** box.
 - To enter a field name, click on the field with the mouse. (You can also type the formula using the keyboard.)
 - To enter operators (e.g., =, +, -) click on the appropriate button. [Also see the Definition of all Operators section for definitions of all operators.](#)
 - To enter a function, double-click on the function name. Most functions contain parameters enclosed within parentheses. These parameters should be replaced with appropriate values or field names. The easiest way to do this is to double-click on the parameter to be replaced, and then click on any field in the **Report Column Headings** box to replace it. Functions without parameters must still be followed by parentheses. [To see a definition of all functions, see the Definition of all Functions section.](#)
4. After the equation is complete, click <Finish>.

The newly created work field column will appear in the list of fields in the **Report Column Headings** box. The new column will have a triangle icon ▲ to its left, instead of a square ■, to show that it is a work field column. This triangle will be colored to show what type of field is displayed. Number icons are green, date icons are blue, and text icons are purple. Also see the [Examples of How to Create a Work Field Column](#) section.

If you are viewing a report that has already been set up and want to see how a work field is calculated, double-click the work field under the Report Column Headings, and the calculation will be displayed in the box to the left, as shown below.

When you have created and edited the work field columns you want to see on your report, click <Next> in the bottom right corner of the screen. [Step 4 of Report Wizard will appear.](#)

[Appendix C - Report Examples](#)

Definition of all Operators

Steps [3](#), [4](#), and [6](#) of the [Report Wizard](#) offer several operators to be used in creating calculations. For your convenience the complete definitions of all the available operators are listed below.

(And)

The **And** operator has an expression to its left and to its right. It is a logical operator that resolves to either 1 or 0 (true or false). For it to resolve to 1, both the left and the right expression must be true. For example, if the following phrase is entered in the Step 4:Enter Row Selection Logic's Select If: data area

Current Balance > 0 & Interest Rate = 0

only non-zero balance accounts that have a zero interest rate will be selected. If either the balance is zero, or there is an interest rate, the account will not appear in the report.

(Or)

The **Or** operator has an expression to its left and to its right. It is a logical operator that resolves to either 1 or 0 (true or false). For it to resolve to 1, either the left or the right expression (or both) need to be true. For example, if the following phrase is entered in the Step 4:Enter Row Selection Logic's Select If: data area

Current Balance > 0 | Interest Rate = 0

any account that has a non-zero balance or has no interest rate will be selected. The only accounts that would be skipped are zero balance accounts that have an interest rate.

(Not)

The **Not** operator refers to the expression to its right. It changes a true expression to false and a false expression to true. Because it may sometimes be confusing to read, it is often a good idea to include the expression that is being changed in parentheses. You can almost always use the other logical functions in a different way to avoid using the **Not** operator. It is often difficult to understand because most people tend to think positively. The easiest way to understand the **Not** operator is to understand what it refers to and then do the opposite. For the following examples, assume the expression is being used to select data.

! (Current Balance = 0)
Would select all non-zero balance accounts.

! (Current Balance = 0 | Interest Rate = 0)
Would select all accounts with non-zero balances and rates.

! (Acct Closed = YES)
Would select all open accounts

(Equal to)

The **Equal** operator compares the expression to its left with the expression to its right. If they are equivalent, it resolves to 1 (true). If not equal, it resolves to 0 (false). There are three different types of fields: numeric, text, or date. You can only compare like types of fields together. Text fields are compared alphabetically. For example, the expression Current Balance = 0 will be true if the account balance is zero. The expression Product Code Descr = 'Super Checking' will be true if the account's product code description contains the text "Super Checking."

 (Not equal to)

The **Not Equal To** operator compares the expression to its left with the expression to its right and returns 1 (true) if they are different, or 0 (false) if they are the same. See = above for more information about comparisons.

Loan example: LNPBAL <> 5,000.00 would place loans with a principal balance not equal to 5,000.00 on the report.

 (Less than)

The **Less Than** operator compares the expression to its left with the expression to its right and returns 1 (true) if the left is less, or 0 (false) if the left is greater than or equal to the right. See = above for more information about comparisons.

Loan example: LNPBAL < 10,000.00 would place accounts with a principal balance less than 10,000.00 on the report.

 (Greater than)

The **Greater Than** operator compares the expression to its left with the expression to its right and returns 1 (true) if the left is greater than the right or 0 (false) if the left is less than or equal to the right. See = above for more information about comparisons.

Loan example: LNPBAL > 10,000.00 would place accounts with a principal balance greater than 10,000.00 on the report.

 (Less than or Equal to)

The **Less Than or Equal To** operator compares the expression to its left with the expression to its right and returns 1 (true) if the left is less than or equal to the right, or 0 (false) if the left is greater than the right. See = above for more information about comparisons.

Loan example: LNPBAL <= 5,000.00 would place accounts with a principal balance less than or equal to 5,000.00 on the report.

 (Greater than or Equal to)

The **Greater Than or Equal To** operator compares the expression to its left with the expression to its right and returns 1 (true) if the left is greater than or equal to the right, or 0 (false) if the left is less than the right. See = above for more information about comparisons.

Loan example: LNPBAL >= 5,000.00 would place all accounts with a principal balance greater than or equal to 5,000.00 on the report.

YES NO

Certain fields ask a question such as the **Account Closed** field that can be answered yes or no. The **YES** and **NO** operations are provided to help logical expressions be understood and used for these fields. Note that these operations are *not* enclosed in quotation marks. Use these operations to select for the question fields. For example, Club Account Feature = YES will select accounts that are club accounts, and Account Closed = NO will select open accounts.

)

The **Parentheses** operations are used to create an expression of higher precedence than other expressions. Expressions enclosed in parentheses are always done first. Parentheses can be embedded within other parentheses. For example,

! ((Club Acct Feature = YES | Acct Closed = NO) & (Current Balance <> 0))

the expressions in the inner parentheses are first evaluated, so the first expression is evaluated as true if it is either a club account or an open account. The second expression is evaluated as true if the current balance is not zero. Then those two expressions are evaluated as true only if each of the two inner expressions are true. And finally, the whole result is made just the opposite. Therefore, this complex expression will select those accounts that have a current balance of zero and that are neither club accounts or open accounts. Or in other words, it will select all closed non-club accounts with a non-zero balance.

In the example, (Work1 + Work2) * Work3 the first two fields will be added before multiplying by the third field. Since multiplication is done before addition, if there were no parantheses, Work2 would be multiplied by Work3 before adding Work1.

,

(Comma)

This operator allows you to separate values used in a [value list](#).

Loan example: Collateral code = 17, 20, 25, 40 would place all loans with a collateral code equal to 17, 20, 25, or 40 on the report.

~

(Tilde)

This operator allows you to designate a range of values in a [value list](#). Enter the start value, then a ~ symbol, then the ending value.

Loan example: LNTYPE = 5 ~ 20 would place accounts with a loan type equal to 5 through 20 on the report.

IF THEN ELSE

The **IF**, **THEN**, **ELSE** operation allows you to make logical decisions in selecting what data you want to use. They are only available in Report Wizard Step 3: Create Work Field Columns and Report Wizard Step 6: Setup Totals. The **IF** statement is followed by a logical expression. If its result is true, the expression following the **THEN** statement is used to fill in the work field or the total field. If it is false, the expression following the **ELSE** statement is used to fill in the work field or total field. The **ELSE** is optional and does not have to be there. If there is no **ELSE**, then the field will get its default value - blank for text, 0 for numbers, and undefined (zero) for dates.

It is legal to use **IF** statements within the **THEN** or **ELSE** statements as long as they eventually resolve to a value of the type designated for the work field or the total field. You must use parentheses to avoid ambiguity when you do this. Examples:

IF Work 1 > Work2 THEN 'OK' ELSE 'BAD'

This expression will place OK in a text work field if Work1 is greater than Work2. If it's not, then the text field will get BAD.

IF Account Closed = YES THEN

(IF Current Balance <> 0 THEN 1 ELSE 2) ELSE 3

This expression will place a 1 in a numeric field for a closed account with a non-zero balance, a 2 in the field for closed accounts with zero balances, and a 3 in the field for open accounts.

IF Work 1 = Work2 THEN 'SAME'

This expression will put the word SAME into a text field if Work1 and Work2 are equal. Otherwise, it will leave it blank.

Adds the value on the right side of the + to the value on the left side

Subtracts the value on the right side of the - from the value on the left side

Multiplies the value on the left side by the value on the right side

Divides the value on the left side by the value on the right side

Modulus - divides the value on the left side by the value on the right side and returns the remainder. For example 12 % 7 returns 5 because 7 goes into 12 once with a remainder of 5.

Exponent - raises the value on the left side to the power of the value on the right side. The right side value must be a positive integer. For example, 4 ^ 3 will give 64 because 4 cubed is 64.

Value List

A value list is a list of values that can be used on the right side of = or <> operators. When you use a value list, if the expression on the left side of the = is equal to any of the values in the list, the expression is true. If the expression on the left side of the <> operator is not equal to any of the values in the value list then the expression is true. The list may include single values or value ranges separated by commas. A value range is a start value, then a ~, then the end value.

The following are some examples of expressions using value lists and their results. For these examples, assume that the field MyCode contains the number 4, and that the field OtherCode contains the number 10.

MyCode = 1, 2, 3, 10, 12

Result: false; 4 is not in the list

OtherCode = 1, 2, 3, 10, 12

Result: true; 10 is in the list

MyCode <> 1, 2, 3, 10, 12

Result: true; 4 is not equal to any list value

OtherCode <> 1, 2, 3, 10, 12

Result: false; 10 is equal to one of the list values

MyCode = 1, 3~7, 11

Result: true; 4 is in the range of 3 through 7.

MyCode <> 1, 3~7, 11

Result: false; 4 is in the range of 3 through 7.

[Back to definition of all Operators](#)

Definition of all Functions

Steps [3](#) and [4](#) of the Report Wizard offer several functions to be used in creating calculations. For your convenience the complete definitions of all the available functions are listed below.

ADDDAYS(aDate, aNumber)

Adds the number of days specified by aNumber to the date specified by aDate to give a new date. For example, to calculate the date 10 days past the loan due date you would type ADDDAYS(LNDUDT, 10). To calculate the date 10 days before the due date you would type ADDDAYS(LNDUDT, -10).

ADDMONTHS(aDate, aNumber)

Adds the number of months specified by aNumber to the date specified by aDate to give a new date. For example, to calculate the date 3 months past the loan due date you would type ADDMONTHS(LNDUDT, 3). To calculate the date 3 months before the due date you would type ADDMONTHS(LNDUDT, -3).

ADDYEARS(aDate, aNumber)

Adds the number of years specified by aNumber to the date specified by aDate to give a new date. For example, to calculate the date 7 years past the loan due date you would type ADDYEARS(LNDUDT, 7). To calculate the date 7 years before the due date, you would type ADDYEARS(LNDUDT, -7).

ALL (RepeatingField =<><=>= value)

This function is an advanced function that allows you to test all values of a repetitive field for certain conditions. For example, there are 12 Deposit Master hold and action code fields that all have the same mnemonic (DMHACC). This function can test all 12 of these fields using this function. To use this function, replace "aRepeatingField" with the name of the field to be tested. Replace "aLogicalOperator" with one of the following operators: = (is equal to), <> (is not equal to), > (is greater than), >= (is greater than or equal to), < (is less than), or <= (is less than or equal to). Replace "aValueList" with either a single value or a list of values separated by commas. If this expression is true, its value becomes 1. If it is false, its value is 0. This can be used in conjunction with the IF, THEN, and ELSE operators to make quick decisions.

Note: A list of values can only be tested using equal (=) or not equal (<>).

For example, if you wanted to select all accounts that have no hold codes, you could type ALL(Hold Action Code = 0). Only accounts that have all hold codes equal to 0 would be selected.

When using the ALL function, the statement must be true for each of the repeated fields or else it will be false. If we used ALL(Hold Action Code <> 0) in the example above, then only accounts that have a non-zero value in each of the 12 hold code fields would be selected. Refer to the "ANY" function for selecting if any of the items are true.

Note: The "ANY" and the "ALL" functions are used to test repeated fields within a given record. The "FORANY" and the "FORALL" functions described below are used to test fields that occur in multiple records linked to a master record. Except for this difference, these functions are very similar.

ANY (RepeatingField =<><=>= value)

This function is an advanced function that allows you to test for any repetitive field for certain conditions. For example, there are 12 Deposit Master hold and action code fields that all have the same mnemonic (DMHACC). This function can test all 12 of these fields to see if any of them have the desired values using this function. To use this function, replace the parameter, aRepeatingField, with the name of the field to be tested. Replace aLogicalOperator with one of the following operators: = (is equal to), <> (is not equal to), > (is greater than), >= (is greater than or equal to), < (is less than), or <= (is less than or equal to). Replace

the parameter, aValueList, with either a single value or a list of values separated by commas. If this expression is true, its value becomes 1. If it is false, its value is 0. This can be used in conjunction with the IF, THEN, and ELSE operations to make quick decisions.

Note: A list of values can only be tested using equal (=) or not equal (<>).

For example, IF ANY(Hold Action Code = 6, 7, 11) THEN 'LEGAL' ELSE ' ' used in a work field will place the word LEGAL into the field if any one of the 12 hold codes on the account contain any of the values 6, 7, or 11. If none of 12 contain 6, 7, or 11 then it places a blank into the work field.

If in this same report we included the selection ANY(Hold Action Code <> 0) we would get a report that shows all accounts that have any holds at all containing a column with the word LEGAL for accounts with a hold code of 6, 7, or 11.

When using the ANY function, if the statement is true for any of the repeated fields the statement is true. If we used !(ANY(Hold Action Code = 0)) in the example above, then only accounts that have a non-zero value in each of the 12 hold code fields would be selected. Refer to the ALL function for selecting if all of the items are true.

Note: The ANY and the ALL functions are used to test repeated fields within a given record. The FORANY and the FORALL functions described below are used to test fields that occur in multiple records linked to a master record.

DATE(aMonth, aDay, aYear)

Creates a date field from numeric fields. The valid values for aMonth are 1 - 12 (January - December). The valid values for aDay are 1 - 31 (depending on the month and the year). The field, "aYear," includes the century. For example, August 27, 2010, would be entered as DATE(8, 27, 2010)

DAY(aDate)

Returns the day of the date given in aDate. For example, the day of August 27, 2010 is 27.

DIFFDAYS(StartDate, EndDate)

Returns the number of days from the start date to the end date. If the end date is prior to the start date, the value returned is negative.

DIFFMONTHS(StartDate, EndDate)

Returns the number of full months from the start date to the end date. If the end date is prior to the start date, the value returned is negative.

DIFFYEARS(StartDate, EndDate)

Returns the number of full years from the start date to the end date. If the end date is prior to the start date, the value returned is negative.

FIND('Value', Field)

Searches a text field (Field) for a given substring (Value). If the substring is found, the position of the first location of the substring is returned. If it is not found 0 is returned. This can be used for searching for certain values in text fields and determining if they exist or not. For example:

IF FIND('AUTO', Collateral Description) THEN 'Car Loan'

If the collateral description contains the word AUTO anywhere within it then the text Car Loan is placed into the text work field for which this is defined.

FORALL record(aLogicalExpression)

FORANY record(aLogicalExpression)

FORALL tests the aLogicalExpression for each of the records specified by record and returns 1 (true) if all of them are true, otherwise it returns 0 (false).

FORANY tests the aLogicalExpression for each of the records specified by record and returns the count of items that are true. If none are true, it returns 0. For this function 0 is false, and non-zero is true.

These advanced functions are used when multiple sub-records are linked to a master record to apply the logical expression to all of the sub-records. Examples of situations where records may be linked in this manner include multiple history records linked to a master record or multiple reserve disbursement records linked to a loan master record. The multiple records are linked to the master record in [Report Wizard Step 2: Select Fields](#). It is possible to link records to records for several levels. For example, you may want to link the Reserve Disbursement record to the Loan Master record for a report. You may then want to link several Company Agents to the Reserve Disbursement record. When multiple records are linked in this manner, the complete field name includes the path through all the linked records to get to the field. The root record (which is the main record that you first selected for the report) is not included in the path name. One of the fields in the Company Agent record is the Payee Number. The path of the 1st occurrence of this field in the report is:

ReserveDisbursement1.CompanyAgent1.PayeeNumber

Notice that the records in a path name are separated by periods and that the count of a record is appended to the record name. In the example above the third Reserve Disbursement record would be ReserveDisbursement3.

In the FORALL and the FORANY functions, you replace the record parameter with the complete path name less the record count for the record you desire to work with. For example, if you want to test all the Payee Numbers tied to the loan master to see if they are zero you would type the following:

FORALL ReserveDisbursement.CompanyAgent(PayeeNumber = 0)

This would apply the logical expression within the parentheses to each of the Company Agent records within the Reserve Disbursement records.

How would you code FORALL or FORANY for a path that contains multiple links of multiple records? Let's consider that the ABC record is a record linked to a master record. It has 5 multiple linked XYZ records tied to it. For each of these 5 we have linked 2 QRS records. In the QRS record, there is a field called MyField that we want to reference. This means that for each ABC record we read, there are 10 MyFields that we want to access. The paths to these fields are:

ABC1.XYZ1.QRS1.MyField
ABC1.XYZ1.QRS2.MyField
ABC1.XYZ2.QRS1.MyField
ABC1.XYZ2.QRS2.MyField
ABC1.XYZ3.QRS1.MyField
ABC1.XYZ3.QRS2.MyField
ABC1.XYZ4.QRS1.MyField
ABC1.XYZ4.QRS2.MyField

```
ABC1.XYZ5.QRS1.MyField
ABC1.XYZ5.QRS2.MyField
```

If we wanted to test to see if any of these fields contained the value 12 we could type 10 IF statements and fill out the complete path name to each field. That would become very difficult if there were dozens of MyFields instead of just 10. Or we can use a FORANY statement to test them in a single IF statement. For example consider the following:

```
IF FORANY ABC.XYZ.QRS( MyField = 12) THEN 'GOTIT'
```

If any of the 10 fields contain the number 12, this statement will place the text GOTIT into the text field for which this is the definition.

Now let's suppose that we only want to test MyField if the field XYZcode in the XYZ record is 'Y.' We want to ignore any records for which the XYZcode is not 'Y.' A statement to perform this function looks like this:

```
IF FORANY ABC.XYZ( XYZcode = 'Y' & FORANY QRS( MyField = 12)) THEN 'GOTIT'
```

Notice that the inner FORANY statement does not have the ABC.XYZ portion of the path name. That is because it is supplied by the outer FORANY statement. The outer statement will process ABC.XYZ records 1 through 5. The inner statement will process the QRS 1 and 2 records for each of the outer ABC.XYZ statements. In this example, the MyField will be tested to see if it is equal to 12 only if the XYZcode field of the XYZ record contains 'Y'.

It is legal to mix the nesting of FORALL and FORANY functions. In the example above if the inner function is FORALL instead of FORANY the outer FORANY function will return true only if at least one ABC.XYZ records has the XYZcode field equal to 'Y' and both QRS1.MyField and QRS2.MyField are equal to 12.

What is a valid aLogicalExpression? A logical expression is something that compares one thing to another and returns true. You can use a value list in these expressions just as you can in the ANY and ALL functions described above. Continuing to use the example of MyField above, the following are some examples of valid logical functions.

1. MyField < 30
2. MyField = 6, 7, 21
3. MyField > 20 & MyField < 35
4. MyField = AnotherField | MyField = 0
5. (MyField + AnotherField) > 100

The first is true if MyField is less than 30. The second is true if MyField is equal to 6, equal to 7, or equal to 12. The third is true if MyField is equal to 21 through 34. The fourth is true if the value in MyField is the same as the value in AnotherField or if MyField is zero. The fifth is true if the sum of MyField and AnotherField is greater than 100.

Note: The ANY and the ALL functions described above are used to test repeated fields within a given record. The FORANY and the FORALL functions are used to test fields that occur in multiple records linked to a master record. Except for this difference, these functions are very similar.

MONTH(aDate)

Returns the month of the date given in aDate. For example, the month of August 27, 2010 is 8.

ROUND(aNumericalFieldOrExpression, aNumberOfDecimalPlaces)

Rounds the aNumericalFieldOrExpression to the number of decimal places specified by aNumberOfDecimalPlaces. If the digit following the desired decimal place is 0-4 the number is rounded down. If it is 5-9, the number is rounded up. If the round function is used to create a number that has more decimal places than it currently has, no rounding takes place. The resulting number will have the number of decimal places specified by aNumberOfDecimalPlaces. The following examples show how the round function works.

ROUND(123.456, 1)	Result: 123.4
ROUND(123.456, 2)	Result: 123.46
ROUND(123.456, 3)	Result: 123.456
ROUND(123.456, 4)	Result: 123.4560
ROUND(123.456, 5)	Result: 123.45600

RUNDATE()

Returns today's date (the date that the report runs).

TRUNCATE(aNumericalFieldOrExpression, aNumberOfDecimalPlaces)

Truncates the aNumericalFieldOrExpression to the number of decimal places specified by aNumberOfDecimalPlaces. No rounding is performed. If the truncate function is used to create a number that has more decimal places than it currently has, zeros are added to the end. The result number will have the number of decimal places specified by aNumberOfDecimalPlaces. The following examples show how the truncate function works.

TRUNCATE(123.456, 1)	Result: 123.4
TRUNCATE(123.456, 2)	Result: 123.45
TRUNCATE(123.456, 3)	Result: 123.456
TRUNCATE(123.456, 4)	Result: 123.4560
TRUNCATE(123.456, 5)	Result: 123.45600

YEAR(aDate)

Returns the year of the date given in aDate. For example, the year of August 27, 2017 is 2017.

Examples of How to Create a Work Field Column

The following example creates a work field called "Warning." Warning will contain the word "Legal" if any of the hold codes is a *legal* hold code, as specified by the hold code number.

Steps

1. From [Report Wizard Step 3](#), click <New>. An incomplete sentence will appear in the bottom of the screen, like the one outlined below.

The screenshot shows a dialog box with a toolbar at the top containing various mathematical and logical operators. Below the toolbar, there is a label 'is a' followed by a dropdown menu currently set to 'NUMBER' and the text 'field which equals:'. Below this is a large white text area for entering calculations. The 'IF' button in the toolbar is highlighted with a red box.

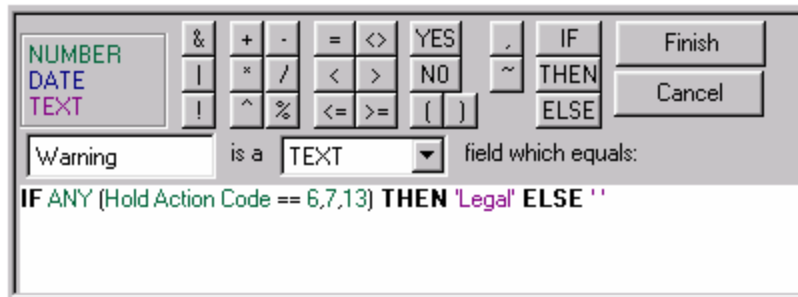

2. In the empty box on the left, enter a title. For this example, the title will be "Warning."
3. In the drop-down list to the right of the title, select what type of field you are creating. For this example, the type will be "TEXT."
4. In the white space below the sentence, create the calculations for your new column. (See steps 5-15 for instructions on how to create calculations.)

The screenshot shows the same dialog box as before, but now the title box contains the text 'Warning' and the dropdown menu is set to 'TEXT'. The 'IF' button in the toolbar is highlighted with a red box.

5. Click **IF**. **IF** now appears in the white box below the sentence.
6. Select "ANY(RepeatingField =<><=>= value)" from the Function list. The following expression will appear after the word IF:
ANY(RepeatingField =<><=>= value)
7. Double-click on the words "RepeatingField" in the new formula. RepeatingField is now highlighted.
8. Click on "Hold Action Code" in the Report Column Heading list. "RepeatingField" will be replaced by "Hold Action Code."

9. Click and drag the mouse across `<>=>` in the formula.
10. Press <Delete> on the keyboard.
11. Double-click on the word "value," and type "6,7,13."
12. Click outside the parenthesis after "6,7,13," and click **THEN**.
The word **THEN** now appears.
13. After the word THEN, type a space and the word "legal'."
14. Click **ELSE**.
The word **ELSE** now appears after "legal'."
15. After ELSE, type two single quotation marks separated by a space like this: ' '.

The calculation is now complete and looks like the following:

The completed equation says, "If any hold action code equals 6, 7, or 13, then the word legal will appear on the report, otherwise the space on the report will be blank."

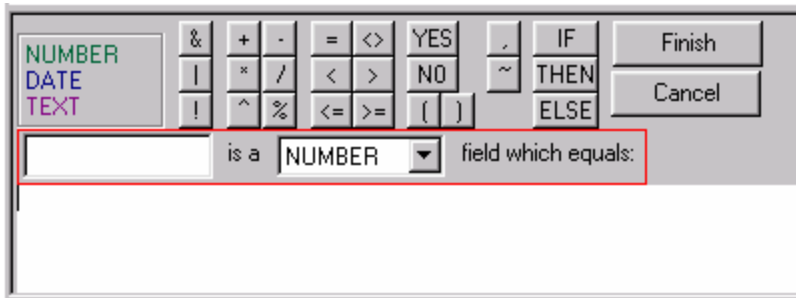

16. Click **Finish** and the work area will close.
The Warning workfield will appear in the Report Column Headings list.

Additional example of how to create a work field column

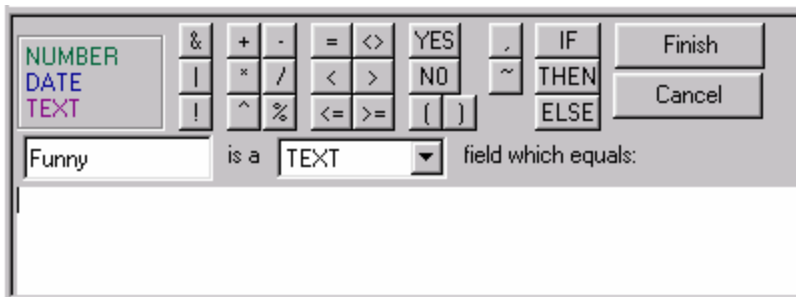

For your understanding, the following is an example of how to create a work field.

Steps

1. From [Report Wizard Step 3](#), click <New>.
An incomplete sentence will appear in the bottom of the screen, like the one outlined below.

2. In the empty box on the left, enter a title.
For this example, the title will be "Funny."
3. In the drop-down list to the right of the title, select what type of field you are creating.
For this example, the type will be "TEXT."
4. In the white space below the sentence, create the calculations for your new column. (See steps 5-15 for instructions on how to create calculations.)

5. Click **IF**.
IF now appears in the white box below the sentence.
6. Click "Hold Action Code" in the Report Column Headings list.
"Hold Action Code" will appear after the word IF.
7. Click the "+" symbol.
The "+" symbol will appear after "Hold Action Code."
8. Click "Hold Action Code2" in the Report Column Headings list.
"Hold Action Code2" will appear after the "+" symbol.
9. Click the ">" symbol.
The ">" symbol will appear after "Hold Action Code2."
10. Type "10" after "Hold Action Code2."
11. Click **THEN**.
The word **THEN** appears after "10."
12. Type "FUNNY" after the word "THEN."

- Click **ELSE**.
The word **ELSE** now appears after "FUNNY'."

- After ELSE, type word "BORING'."

The calculation is now complete and looks like the following:

The screenshot shows a calculation editor window. On the left, there is a legend with three categories: NUMBER (green), DATE (blue), and TEXT (purple). The main area contains a grid of operators and logical symbols: &, +, -, =, <>, YES, ., IF, |, *, /, <, >, NO, ~, THEN, !, ^, %, <=, >=, [], and ELSE. Below the grid, there is a text input field containing 'Funny', followed by 'is a', a dropdown menu set to 'TEXT', and 'field which equals:'. The final line of the editor displays the completed formula: **IF Hold Action Code + Hold Action Code2 > 10 THEN 'FUNNY' ELSE 'BORING'**. At the bottom right, there are 'Finish' and 'Cancel' buttons.

The completed equation says, "If Hold Action Code 1 added to Hold Action Code 2 is greater than 10, then the word FUNNY will appear on the report; otherwise, the word BORING will appear."

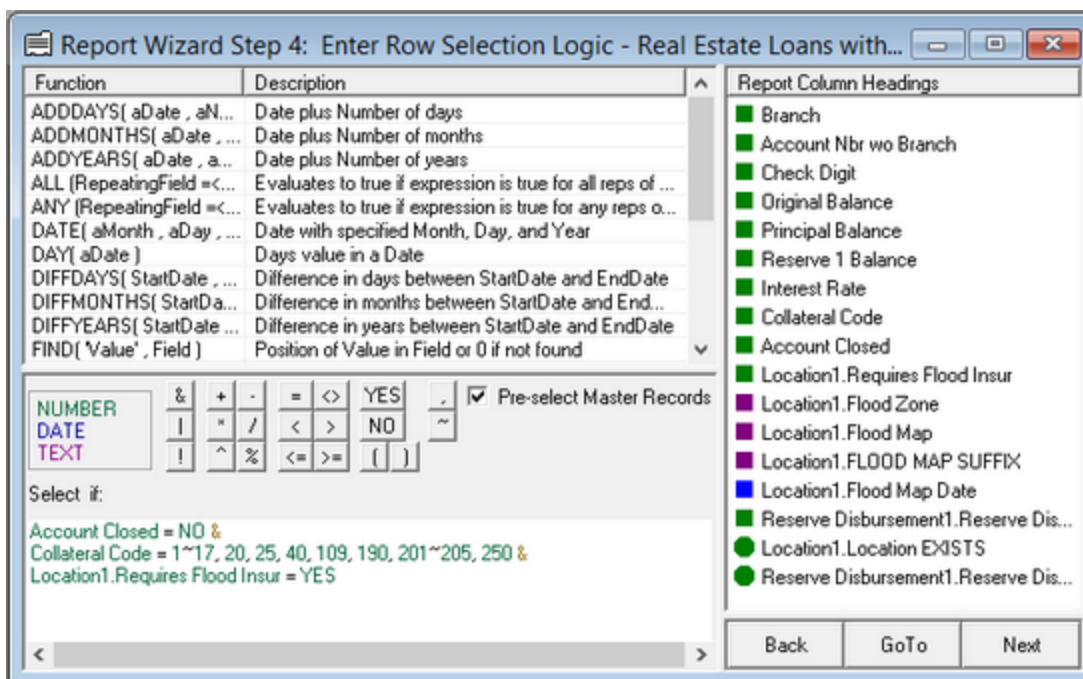

- Click **Finish** and the work area will close.
The Funny workfield will appear in the Report Column Headings list.

The Report Wizard Step 4: Enter Row Selection Logic

Step 4 of the [Report Wizard](#) allows you to enter row selection logic to determine which data should be pulled into the rows when the report is run. This is the step you would use to set up selection criteria. For example, you may not want accounts with a zero balance to appear on the report when it is run. You can use this step to create that logic.

This can be a very involved step. This step may require assistance from your [GOLDPoint Systems account manager](#).

You could also export the file to another application such as Excel, and make your selection criteria in Excel. This would require knowledge about Excel.

Probably the best way to describe this step is with some examples.

1. Using fields from the Report Column Headings (from [Steps 2](#) and [3](#)), the [operator buttons](#), and the [functions](#) in the top left pane, enter a logical statement that can be determined to be true or false.

It's helpful to put each criteria on its own line and connect them with the  operator, as shown below:

NUMBER	&	+	-	=	<>	YES	.
DATE		*	/	<	>	NO	~
TEXT	!	^	%	<=	>=	{ }	

Select if:

Maturity Date > RUNDATE() &
 General Category <> 82 &
 Principal Balance <> 0

This logic has three criteria:

1. The Maturity Date must be less than the date the report is run.
2. General Category code must not be equal to 82.
3. The Principal Balance cannot be equal to 0.

If an account matches all three criteria, it will be pulled into the report.

More Examples:

NUMBER	&	+	-	=	<>	YES	.
DATE		*	/	<	>	NO	~
TEXT	!	^	%	<=	>=	{ }	

Select if:

Misc Flds1.Renewal Date 1 <> Yesterday &
 Date Opened <> Yesterday &
 Date Last Payment = Yesterday |
 Date Paid Off = Yesterday

This logic says:

1. The Renewal Date cannot be equal to yesterday, and,
2. The Date Opened cannot be equal to yesterday, and,
3. The Date Last Payment must equal yesterday, **OR**
4. The Date Paid Off must equal yesterday.

NUMBER	&	+	-	=	<>	YES	.
DATE		*	/	<	>	NO	~
TEXT	!	^	%	<=	>=	{ }	

Select if:

Company Number = 5555 &
 Do Not Report = NO &
 Cancellation Reported Dte = DATE(00 , 00 , 0000) |

This logic says:

1. Pull accounts that have insurance policies from Company Number 5555, and,
2. Don't include accounts with Do Not Report selected, and,
3. Cancellation Reported Date cannot be entered.

In other words, this will pull all accounts that have an open insurance policy originated from Company Number 5555.

When you have entered the row selection logic to determine which criteria the system will use to sort accounts into the report, click <Next> in the bottom-right corner of the screen. [Step 5 of Report Wizard will appear.](#)

[Example of How to Create Row Selection Logic](#)

[Definitions of all Operators](#)

[Definition of all Functions](#)

[Appendix A - Special Calculations](#)

[Appendix B - Special Loan Field Mnemonics](#)

[Appendix C - Report Examples](#)

Examples of How to Create Row Selection Logic

To help you better understand how to create row selection logic in [Step 4 of the Report Wizard](#), we will show you step-by-step the logic that goes into this step.

Here are two examples:

▼ Loan example. This setup will select all loan accounts schedule to pay off in 90 days

1. Before moving to step 4 in the Report Wizard, make sure at least the following mnemonics are selected on step 2:
 - LNMATD, [Maturity Date](#). This is found in the Loan Master Record (LN).
 - LNDUDT, [Next Payment Due Date](#). This is found in the Loan Master Record (LN).

2. Move to step 4 of the Report Wizard.

3. Select the DIFFMONTHS(StartDate, EndDate) function. (See [Definition of all Functions.](#)) The following expression will appear:

```
DIFFMONTHS( StartDate , EndDate )
```

3. Double-click or select StartDate, and then double-click the RUNDATE () function from the Function list. RUNDATE () will replace StartDate.

4. Double-click on the words "EndDate" and select Maturity Date from the Report Column Headings list.

5. Click on the less-than-or-equal-to button . See [Definition of all Operators.](#)

6. Type "3" and then click the  button. The following expression displays steps 3-6:

```
DIFFMONTHS( RUNDATE ( ), Maturity Date ) <= 3 &
```

7. Select the DIFFDAYS(StartDate, EndDate) function. (See [Definition of all Functions.](#))

8. Double-click or select StartDate, and then select Next Payment Due Date from the Report Column Headings list.

9. Double-click or select EndDate, and then double-click the RUNDATE () function from the Function list. RUNDATE () will replace EndDate.

10. Click on the greater-than-or-equal-to button . See [Definition of all Operators.](#)

11. Type "-60". The following expression displays steps 7-11:

```
DIFFDAYS( Next Payment Due Date , RUNDATE ( )) >= -60
```

The final equation would like like this:

NUMBER	&	+	-	=	<>	YES	.	<input checked="" type="checkbox"/> Pre-select Master Records
DATE		*	/	<	>	NO	~	
TEXT	!	^	%	<=	>=	()		

Select if:

`DIFFMONTHS(RUNDATE() , Maturity Date) <= 3 &`
`DIFFDAYS(Next Payment Due Date , RUNDATE()) >= -60`

This setup tells the system to:

- Pull all accounts where the **Maturity Date** is less than three months from the date the report is run, *AND*
- Pull all accounts where the difference between the **Next Payment Due Date** and the date the report is run is greater than -60.

▼ **Deposit example. This setup will select all deposit accounts that have a Hold Action Code (DMHACC).**

1. Before moving to step 4 in the Report Wizard, make sure at least the following mnemonic is selected on step 2:
 - DMHACC, [Hold Action Code](#). This is found in the [Deposit Master Record \(DM\)](#).
2. Move to step 4 of the Report Wizard.
3. In the Select if box at the bottom of the screen, click **!** then a space, then **|** symbol.

Remember: An exclamation point is the **Not** operator to the expression to its right. It changes a true expression to false and a false expression to true. See [Definition of all Operators](#).

This now appears in the white box:

NUMBER	&	+	-	=	<>	YES	.
DATE		*	/	<	>	NO	~
TEXT	!	^	%	<=	>=	()	

Select if:

!|

3. Select "ALL(RepeatingField =<><=>= value)" from the Function list. (See [Definition of all Functions](#).)

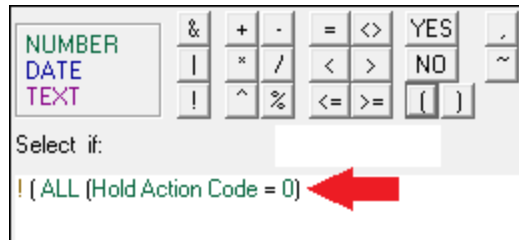

The following expression will appear after "!(":

`ALL(RepeatingField =<><=>= value)`

4. Double-click on the words "RepeatingField" in the new formula. RepeatingField is now highlighted.
5. Click on ■ Hold Action Code in the Report Column Heading list. "RepeatingField" will be replaced by "Hold Action Code."

6. Click and drag the mouse across `<><=>=` in the formula.
7. Press <Delete> on the keyboard.
8. Double-click on the word "value," and type "0."
9. Click outside the parenthesis after "0," and click .

The calculation is now complete and looks like the following:

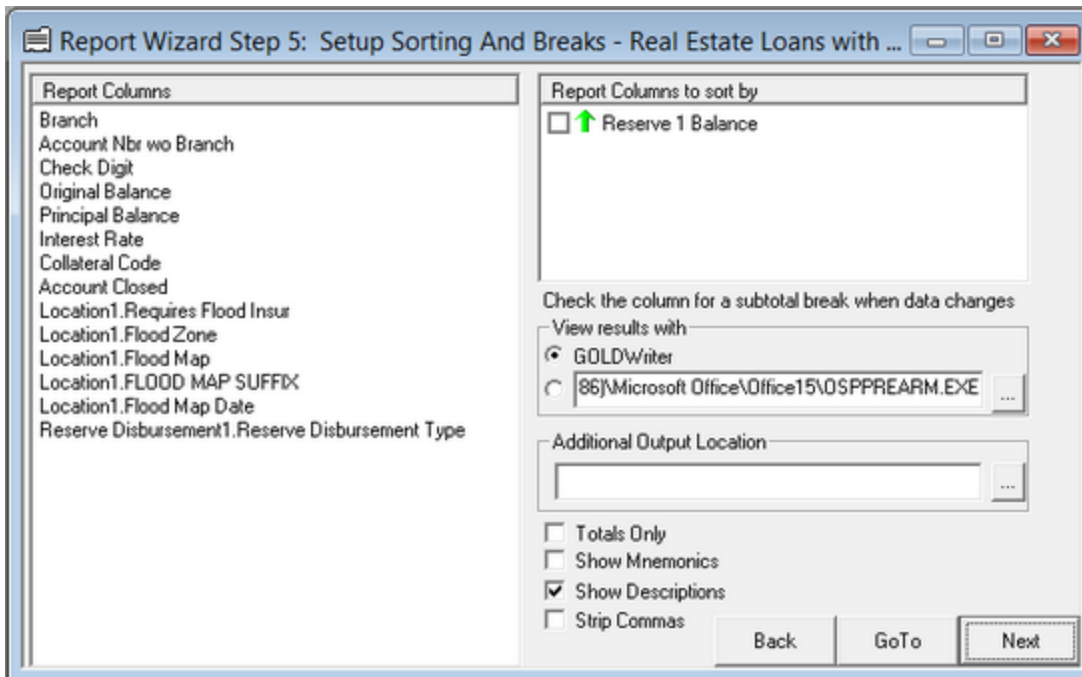

You would then move to the [next step](#) in Report Wizard.

When the report runs, it will pull all deposit accounts that have a **Hold Action Code**, as set up on the Deposits > Account Information > Restrictions & Warnings screen > [Restriction/Action Codes tab](#) in CIM GOLD.

The Report Wizard Step 5: Setup Sorting and Breaks

Step 5 of the [Report Wizard](#) allows you to select sorting and subtotal breaks you would like to see when you open a report. **Note:** If you do not want to sort or have breaks in the report, you can skip this step and [proceed to the next step](#). Click the <Next> or <GoTo> button. If after running the report you decide you want it sorted or breaks included, just return to this step and make the changes.

The following steps explain how to complete Report Wizard Step 5.

1. Drag and drop the columns you want to be sorted from the left window into the right window.
2. Enter a check by a column to see a subtotal break in the report each time the data in that column changes.
3. Right-click on any column in the right window to choose between ascending or descending order (indicated by the green arrow to the left of the column title).
4. Select where the report will be displayed in the **View results with box**.
 - To see the data displayed in GOLDWriter, click the GOLDWriter radio button.
 - To see the report results in another application, such as Microsoft® Excel, click the second radio button, and then click the browse icon  to the right of the field below **GOLDWriter**. The Open dialog will appear. Browse to the application you want to see the report results in and double-click on the executable file. If you want to go directly to another application, without displaying the report in GOLDWriter first, select the second radio button below the **GOLDWriter** field.

Tip: If you would like to preview a report in GOLDWriter before exporting it to another application, click the **GOLDWriter** radio button, but enter the application name in the box beside the second radio button. When you run this report, it will display in GOLDWriter. Then clicking the export icon  on the toolbar will send the report to the entered application.

5. For a report on which you do not want to see detailed information, enter a check in the **Totals Only** box.

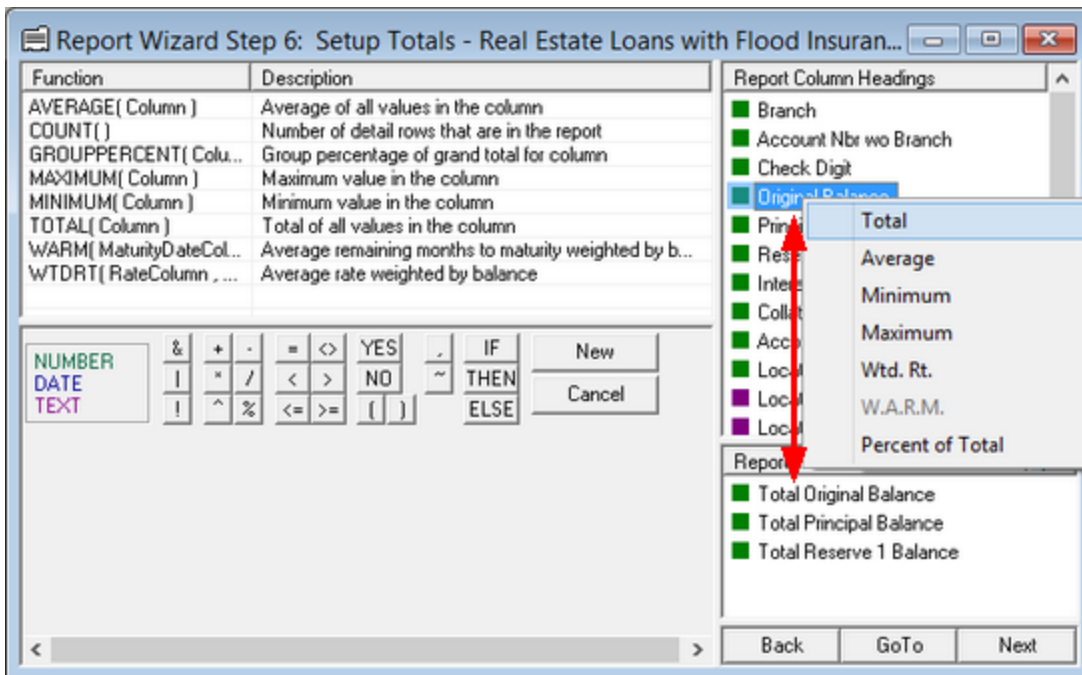

-
6. To see corresponding mnemonics displayed in the column headings, place a check in the **Show Mnemonics** box.

When you have set up the sorting and subtotal breaks you want to see on your report, click <Next> in the bottom-right corner of the screen. [Step 6 of Report Wizard will appear.](#)

The Report Wizard Step 6: Setup Totals

Step 6 of the [Report Wizard](#) allows you to set up totals you would like to see when you run a report.

If you right-click on a report column heading in the **Report Column Headings** box, a pop-up menu appears where you can define a total, average, minimum, maximum, weighted rate, Weighted Average Remaining Maturity (W.A.R.M.), or Percent of Total for the column, if this type of calculation is possible. It is okay to select more than one type of total for a column. Once you select a total from the pop-up menu, that total will be displayed in the **Report Totals** window in the bottom-right of the screen, as shown in the following example.

Weighted rate and W.A.R.M. totals require multiple steps. The following directions explain how to set up weighted rate and W.A.R.M. totals.

Steps to Create a Weighted Rate Total

1. Right-click on a rate in the **Report Column Headings** box, and select "Wtd. Rt." from the pop-up menu. A message will appear asking you to choose a balance.
2. Click on a balance in the **Report Column Headings** box, and the new report total will appear in the **Report Totals** box on the bottom-right corner.

Steps to Create a W.A.R.M. Total

1. Right-click on a date in the **Report Column Headings** box, and select "W.A.R.M." from the pop-up menu. A message will appear asking you to choose a balance.
2. Click on a balance in the **Report Column Headings** box, and the new report total will appear in the **Report Totals** box on the bottom-right corner.

After creating a total, you can right-click on the total in the **Report Totals** box to delete, edit, or create a new total. Totals can use data from multiple columns. You may, for example, divide the total of one column by the average of another column.

When you have set up totals you want to show up on your report, click <Next> in the bottom-right corner of the screen. [Step 7 of Report Wizard will appear.](#)

See also:

[Example of How to Create Totals](#)

[Definitions of all Operators](#)

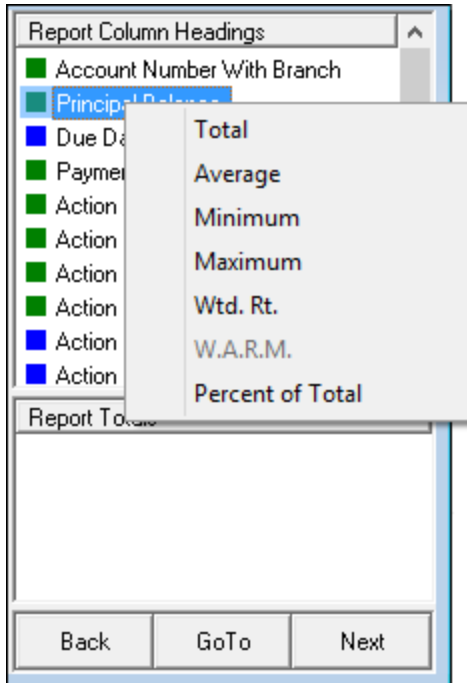

[Definitions of all Functions in Step 6](#)

Example of How to Create Totals

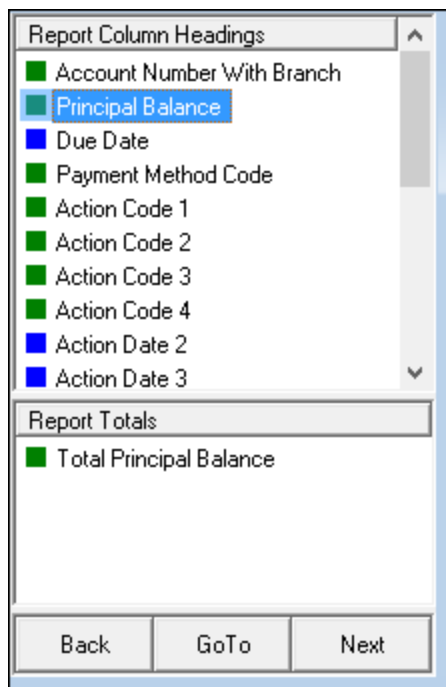

For your understanding, the following is an example of how to create totals.

Steps

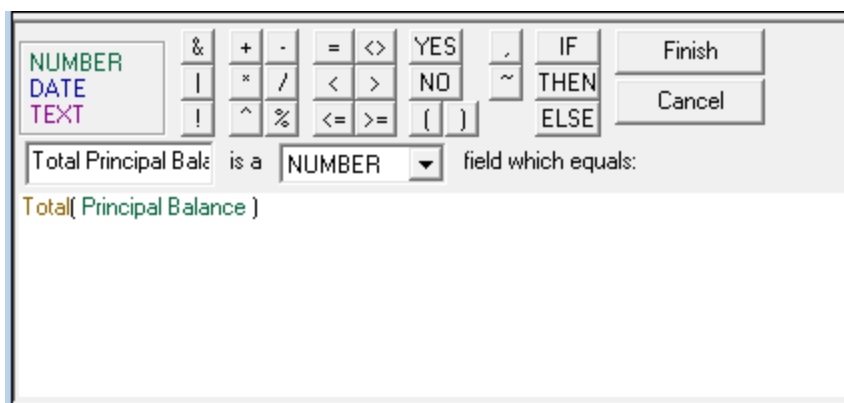

1. In [Step 6](#) of the Report Wizard, right-click on any field in the Report Column Headings box.

2. Select the type of total you want from the menu that appears. The newly created total will appear in the Report Totals box.

- To edit a total field in the **Report Totals** box, double-click on it. The total calculation will appear in the large white box on the left.

- Insert any new functions or operators, then click **Finish**.

See also:

[Definitions of all Operators](#)

[Definitions of all Functions in Step 6](#)

Definitions of all Functions in Report Wizard Step 6

[Step 6](#) of the Report Wizard offers several functions to be used in creating calculations. For your convenience, the complete definitions of all the available functions are listed below.

AVERAGE(Column)

Gives the average of the values in the given column. The average is calculated by dividing the sum of all items in the column by the number of items in the column.

For a subtotal segment, it gives the average of the items in the segment. For final report totals, it gives the average for all items in the column.

COUNT()

Returns the number of detail rows in a subtotal segment for subtotals and the number of all detail rows for the report final totals.

GROUPPERCENT(Column)

Gives the group percentage of the grand total for the given column.

MAXIMUM(Column)

Gives the maximum value of the values in the given column. For a subtotal segment, it gives the maximum of the items in the segment. For final totals, it gives the maximum of all items in the column.

MINIMUM(Column)

Gives the minimum value of the values in the given column. For a subtotal segment, it gives the minimum of the items in the segment. For final totals, it gives the minimum of all items in the column.

TOTAL(Column)

Gives the total of the values in the given column. For a subtotal segment, it gives the total of the items in the segment. For final totals, it gives the total of all items in the column.

WARM(MaturityDateColumn, BalanceColumn)

Gives the weighted average number of remaining months to maturity weighted by the balance of the account. For subtotals, it returns the value for those rows in the subtotal group. For final totals, it returns the value for all rows.

To calculate the WARM, the function calculates the number of months from the report run date to the maturity date. It then multiplies this number of months by the balance to create a factor. The sum of all the factors divided by the sum of all the account balances gives the WARM value. Mathematically, the formula looks like

$$\frac{\sum (\text{Remaining Months} * \text{Balance})}{\sum (\text{Balance})}$$

WTDRT(RateColumn, BalanceColumn)

Gives the weighted average rate weighted by the balance of the account. For subtotals, it returns the value for those rows in the subtotal group. For final totals, it returns the value for all rows.

To calculate the WTDRT, the function multiplies the rate by the balance to create a factor. The sum of all the factors divided by the sum of all the account balances gives the WTDRT value. Mathematically, the formula looks like

$$\sum (\text{Rate} * \text{Balance})$$

$$\sum (\text{Balance})$$

The Report Wizard Step 7: Set Column Order

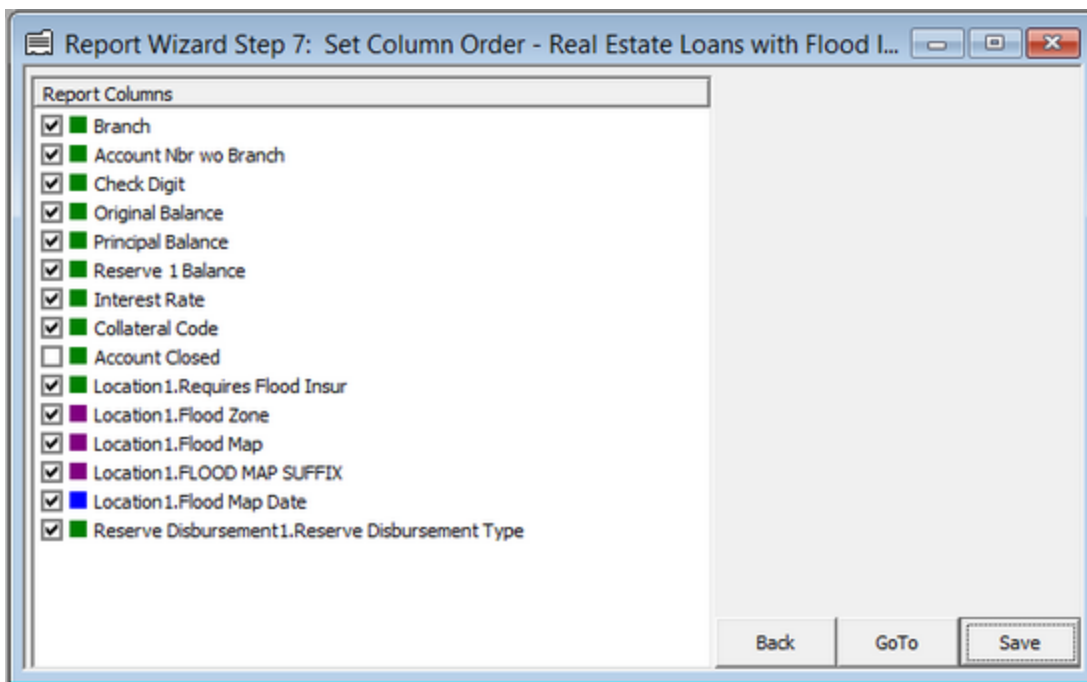

Step 7 of the [Report Wizard](#) allows you to reorganize the report columns and select which columns should appear on the report.

The selected fields and work fields you selected in the previous Report Wizard steps are displayed here. The order the fields appear here will be the same order as how they appear on the report. For example, the first checkmarked field will be the first column on the report.

To move a field, simply click and drag the field to the desired position.

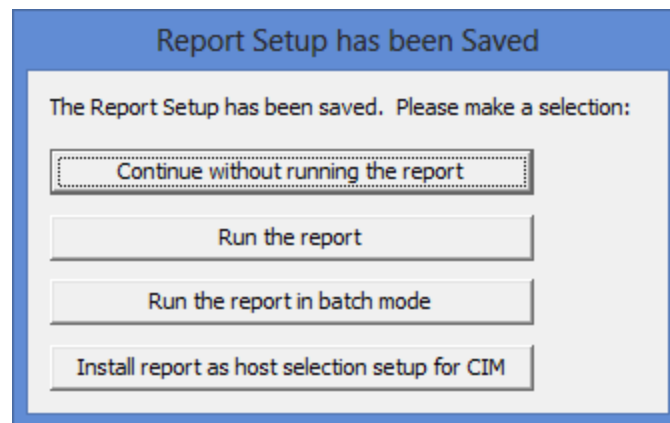

If you want the field to appear on the report, check the box in front of the field. If you do not want the field on your report, leave the checkbox blank, and the field will be hidden. This is especially useful when using fields to build work fields and logic, but they are not necessary on a stand-alone basis.

See the example below:

Note: After a report has been run and displayed, columns can be temporarily moved where you need them. When the report is run later, the columns will appear in the order defined in Step 7. Also, when a report is exported to another application such as Excel, the columns will automatically appear in the order defined in Step 7.

When you have reorganized the report columns, click <Save> in the bottom-right corner of the screen. The following dialog will appear:

- Click <Continue without running the report> and the report will be saved to the [Report Catalog](#), where you can run it at a later time or schedule it to [run in the afterhours](#).
- Click <Run the report> to run the report immediately. The results of the report will be displayed on the screen, and you can print, save, or export the report to another program (such as Excel).
- Click <Run the report in batch mode> to run the report in batch mode. This means that GOLDWriter requests a lower priority from the host to run the report. The biggest difference when running the report in batch mode is that the cost of the report will be about 1/3 less, and the report may take a little bit longer to run. However, in most cases the run time is about the same.
- The <Install as host selection setup for CIM> is a special function that saves only the selection parameters of the report into a format on the host computer that is used in [Contact Queue](#) processing. It requires that a Contact Queue with the same name as the GOLDWriter report has already been set up in CIM GOLD. Clicking this button assigns the logic of the report to the Contact Queue so that the Contact Queue will pull the same accounts as the GOLDWriter report. If that Contact Queue is not set up before you click this button, you will receive an error message.

Open the Report Wizard to create a new report

If you want to create a new report, or edit an old one, the [Report Wizard](#) will allow you to do this.

Steps for creating a new report

1. Select "New" from the Actions menu.
2. The Report Wizard will appear.
Use the seven steps of the [Report Wizard](#) to create a report.
3. When you have completed the Report Wizard, the following message will appear: "Report setup has been saved. Would you like to run this report now?"
4. If you want to run the new report, click <Yes>. If you do not want to run the report, click <No>. The report will automatically be saved.

Steps for editing an old report

1. Highlight the report by single-clicking on it in the [Report Catalog](#), then select "Edit" from the Actions menu.

Note: [GOLDPoint Systems has already created many reports](#) for you as examples for you to edit and use. They are PC reports and are assigned numbers 1000 through 1036.

The Report Wizard will appear.

2. Make any changes you need throughout the seven steps of the [Report Wizard](#).
3. When you have completed the Report Wizard, the following message will appear: "Report setup has been saved. Would you like to run this report now?"
4. If you want to run the new report, click <Yes>. If you do not want to run the report, click <No>. The report will automatically be saved.

WARNING: When scheduling a GOLDWriter report to run in the afterhours, the final step is to refresh the catalog so that the schedule can be written to the host computer.

View the Report Results

The report results are displayed after a report is run. You can view the results from the run in the following ways:

- After successfully completing [Step 7](#) of the Report Wizard, a dialog box is displayed where you can choose to run the report.
- Select a report you want to view on the [Report Catalog](#) screen, and then select "Run," "Run & Print," "Run Batch Mode," "Run on PC Database," or "[Schedule for Afterhours](#)" from the [Actions](#) menu.
- Right-click a report you want to view on the Report Catalog screen. The following pop-up menu appears:

New	Ctrl+N
Edit	Ctrl+E
Run	Ctrl+R
Run & Print	Ctrl+Shift+R
Run Batch Mode	
Run on PC Database	
Schedule for Afterhours	
Remove from Afterhours	
Available afterhours runs	
Refresh Afterhours Copy	
Install As Host Selection	
Copy	Ctrl+C
Paste	Ctrl+V
Delete	Ctrl+D
Refresh	F5
Find	Ctrl+F

Select one of the run options: Run, Run&Print, Run Batch Mode, Run on PC Database, [Schedule for Afterhours](#).

The report is divided into columns that can be dragged and dropped in any order. Clicking on any column heading will display the report in the order used for that column. See the following example of a report that was generated by GOLDWriter called "Loans with Late Fees."

	LNOFFC	LNACT6	LNPBAL	LNLATE	LNFEES	Bal Plus Fees	LNHLD1	LNHLD2	LNSCYC
1	1	123123	982,963.77		20.00	982,983.77	47		
2	1	800707	3,334,248.76	39,198.56	45,110.00	3,418,557.32		28	1
3	2	2	14,523.97		550.00	15,073.97			
4	5	115276	50,477.93	300.00	100.00	50,877.93	47		12
5	11	206137	126,575.00	36,945.56	568.12	164,088.68	69	70	
6	40	100233	2,759.78		27.00	2,786.78			
7	40	100250	18,312.57	137.16	27.00	18,476.73	2	39	
8	40	100263	4,201.79	46.40	27.00	4,275.19	2	39	
9	40	100264	6,322.33	65.68	27.00	6,415.01	2	39	
10	40	100269	1,156.38	4.02	56.70	1,217.10			
11	40	500439	2,468.09		154.00	2,622.09			1
12	40	500460	2,430.19	40.00	176.00	2,646.19	2	39	
13	40	800010	10,202.87	84.63	18.00	10,305.50	2	39	1
14	40	800075	4,674.71	62.51	60.00	4,797.22	2	39	1
15	40	800083	9,498.81	60.00	20.00	9,578.81	2	39	1
16	40	800169	12,891.00		22.00	12,913.00			1
17	40	800180	3,927.64	50.00	66.00	4,043.64	69	39	1
18	40	800272	9,338.08	10.00	44.00	9,392.08			1
19	40	800310	2,303.72	40.00	187.00	2,530.72	2	39	1
20	40	800370	49,389.62	197.56	27.00	49,614.18	2	39	1
21	41	100016	8,985.53	79.10	27.00	9,091.63	2	39	1
22	41	100103	17,933.28	125.00	66.00	18,124.28	2	39	1
23	41	100123	16,850.02	75.30	54.00	16,979.32	2	39	1
24	41	100143	2,999.30		27.00	3,026.30	29		1

If subtotals were selected in [Step 5](#) of the Report Wizard, they will be displayed on the report. The subtotals disappear whenever a column order change would make the subtotals incorrect.

The following functions can be performed when a report has been run.

[Charge amount](#)

[Export results](#)

[Print](#)

[Save report](#)

Charge Amount

The Charge Amount  icon can only be used after a report has been run. This icon does not work on old reports that have been run and saved on your computer.

Clicking the  icon will open a screen detailing how much was billed for the last report run.

See [View How Much a Report Costs to Run](#) for more information.

Export a report to another program

It is possible to export a report to another spreadsheet or database program. This must be set up just once in [Step 5](#) of the Report Wizard. If, when a report is displayed, the arrow on the toolbar is yellow , click it to export the report to a designated spreadsheet or database program. If the arrow on the toolbar is gray , complete the following steps.

Steps

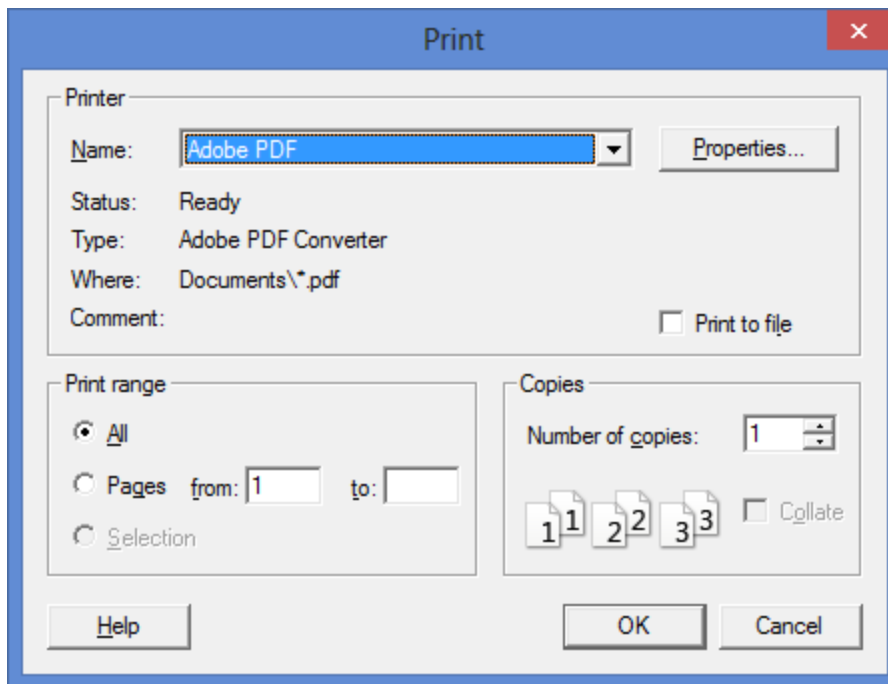

1. Open the Report Catalog by clicking the  icon on the toolbar.
 2. Right-click on any report.
 3. Select "Edit" from the pop-up menu, and [Step 1](#) of the Report Wizard will appear.
 4. Click <GoTo>, and select "5 Sorting & Breaks" from the pop-up menu.
 5. [Step 5](#) of the Report Wizard will appear.
 6. In the **View results with** box, select the **GOLDWriter** radio button, then click the browse button, . The Open dialog will appear.
 7. Browse to the folder that contains the application you want to view the report in, and double-click on it.
For example, if you wanted to view the report in Excel, you would find the folder that contains the Excel application and double-click on the Excel executable file.
-  *Tip:* If you want to open the report directly from Step 5 of Report Wizard, without displaying the report in GOLDWriter first, select the second radio button.
8. Click <GoTo>, and select "Save & Run" from the pop-up menu that appears.
 9. If you selected the second radio button (see *TIP* above), the report results will automatically appear in the new program you selected in [Step 7](#). If you selected GOLDWriter, the report results will appear in GOLDWriter report results.
 10. To see the currently displayed results in the new application, click the  button on the toolbar.

Print from GOLDWriter

To print a report from GOLDWriter, you must first create and run the report. For more information on how to create and run a report, see the [Report Wizard](#) section. Once the report has been run, you can print the report to either of two destinations: a Windows printer or a PC file. If it is sent to a PC file, you can retrieve the data at any time.

Steps to print to a Windows printer

1. Click the  icon on the toolbar, or select "Print" from the File menu. The Print dialog is displayed, as shown below.

2. Select one of the following Print range options.
 - To print all pages of the report, select **All** under **Print range**.
 - To print a page or a range of pages, select **Pages**, then enter the page number(s) that you want to print in the **From** and **To** fields.
 - To print selected text, highlight the text before you open the Print dialog. Under **Print Range**, the radio button next to **Selection** should already be highlighted. If it isn't, click on the radio button next to **Selection**.
3. Select the number of copies you want. If you would like the printed copies to be collated, select **Collate**.
4. Click <OK> to print the report.

Steps to print to a PC file

1. Click  on the toolbar, or select "Print" from the File menu. The Print dialog will appear.
2. Select the **Print to File** option.

3. Select one of the following Print Range options.
 - To print all pages of the report, select **All** under **Print Range**.
 - To print a page or a range of pages, select **Pages**, then enter the page number(s) that you want to print in the **From** and **To** fields.
 - To print selected text, highlight the text before you open the Print dialog. Under **Print Range**, the radio button next to **Selection** should already be highlighted. If it isn't, click on the radio button next to **Selection**.
4. After you have made your selections, click <OK>. The Print to File dialog will appear.
5. Select the drive, folder, and name of the file that you want to print to. Click <OK>.

Save the current report

When a report is [run](#), the results are automatically saved on the PC you are using. This folder can be changed by selecting "Change Report Output Folder" from the File menu (as described below). You can manually save reports to an additional location with the following steps.

Steps

1. Select "Save" from the File menu. The Save As dialog will appear.
2. Enter a name and location for the report to be saved.
3. Click <Save> to finish.

Change Report Output Folder

This function allows you to change the location of the information that is automatically saved when a report is run.

Steps

1. Select "Change Report Output Folder" from the File menu.
2. Use the **Look In** drop-down list to select what folder reports will be saved in. (Make sure the name of the selected folder appears in the drop-down menu box at the top of the dialog.)
3. Click <Select Path> and the dialog will close.

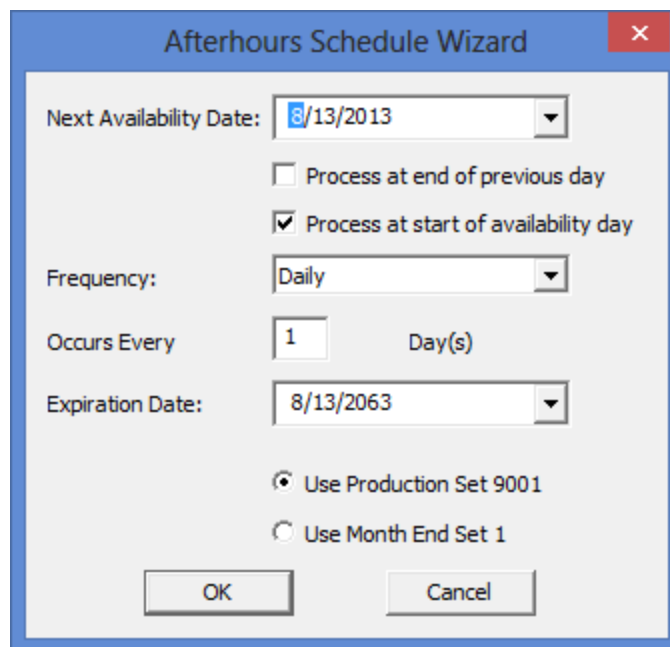

When Open is selected from the drop-down menu, the new folder and its contents will appear in the Open dialog.

Running reports in the afterhours

You can set up GOLDWriter reports to run in the afterhours as well as in current time. The advantage of having a GOLDWriter report run in the afterhours is that it usually costs less and so you can gather current data to be analyzed in the morning.

To run a report in the afterhours:

1. Select the report you want run in the afterhours from the [Report Catalog](#). (If you have not yet created the report, use the [Report Wizard](#) to first create the report, and once it's been saved, select it from the Report Catalog.)
2. Select "Schedule for Afterhours" from the Actions menu (or right-click and select "Schedule for Afterhours"). The Afterhours Schedule Wizard is displayed, as shown below.

3. Enter the next date you want the report to run in the afterhours in the **Next Availability Date** field. If you want the report to run at monthend continuously for the next several months, you would enter the monthend date in this field, and then every monthend thereafter the system would run the report on that date.
4. Select either of the following checkboxes:
 - Process at end of previous day:** The system will run the report in the afterhours of the previous day of the **Next Availability Date**. For example, if running the report on 8/13/2013, the system will pull data from the end of business day on 8/12/2013.
 - Process at start of availability day:** The system will run the report in the afterhours but before the start of the **Next Availability Date**. For example, if running the report on 8/13/2013, the system will pull data at the start of the business day on 8/13/2013.
5. Enter how often you want the report to run in the **Frequency** drop-down field. Use this field in conjunction with the **Occurs Every** field. For example, if you select "Monday" as the **Frequency** and

"4" as the **Occurs Every**, the report will run every fourth Monday. **Note:** The **Next Availability Date** needs to match up with the day or monthend selections. For example, if you have the **Frequency** set to Monday, and the **Next Availability Date** is set for a Wednesday, the system will give you an error and ask you to change the **Next Availability Date** to a date that reflects a Monday.

6. Enter an expiration date for when you no longer want the report to run in the afterhours in the **Expiration Date** field.
7. Select which set you want the report to run: a production set or a monthend set. Production sets are usually realtime, current data. Monthend sets collect data from a monthend file.
8. Click <OK> and the report will be saved to the [Report Catalog](#), and a clock icon  will be displayed in the Report Number column for that report. The clock icon indicates the report is set up to run in the afterhours. If you want to remove the afterhours setup, right-click the report in the Report Catalog and select "Remove From Afterhours."

Copy an Existing Report

Using GOLDWriter, you can easily copy an existing report and create a new report based on the original setup.

To copy an existing report:

1. On the [Report Catalog](#), select the report to be copied by right-clicking on it in the list. The right-click pop-up menu appears, and the Copy function is enabled.
2. Select the "Copy" function from the right-click menu (or press <Ctrl> + C), and then right-click and select "Paste" (or press <Ctrl> + V).

A prompt appears asking you where you would like to save the newly copied report: on the host or on your computer.

3. Select where you want to save the copied report. The new report is displayed at the bottom of the Report Catalog with "Copy of" at the beginning of the original report's title. For example, a report titled "Delinquency Report" would now be titled "Copy of Delinquency Report."

From here you can make any changes to the copied report by double-clicking on it and making changes in the [Report Wizard](#). Give the report a new title, if needed.

Note: [GOLDPoint Systems has already created many reports](#) for you as examples for you to edit and use. They are PC reports and are assigned numbers 1000 through 1036.

View How Much a Report Costs to Run

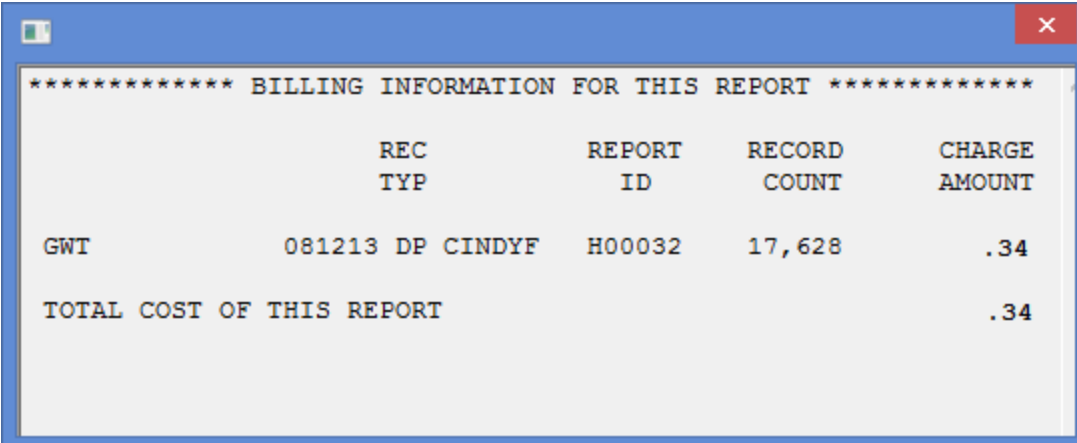

Each [GOLDWriter](#) report varies in how much it costs to run. Some reports are only a few cents, while others cost more. Each time a GOLDWriter report is run, a billing charge is created.

Additionally, if you run reports in batch mode, it can save your institution about 30 percent per report. When "Run Batch Mode" is selected from the [Actions menu](#), the system assigns the report the lowest priority on the host. Because the report is assigned a low priority on the host, the report will take more time to run in comparison to running a report normally. The advantage of running a report in batch mode is the cost savings due to not having the host use excess resources in running your report.

Because we don't know how big each report you set up will be, we do not calculate the billing costs of running reports until after a report is run. When the results of a report are displayed, the billing icon  becomes enabled.

 *Tip:* When setting up a new report, narrow the selection (such as account numbers) to only include a small range of accounts. Then when the setup is completed, run the report to verify that it is the way you want it. The cost for this "test" run will be minimal. You can then modify the report as needed and expand the account number range in [Report Wizard Step 1](#).

When you click this icon , the billing cost of the report is displayed, as shown in the following example:

REC TYP	REPORT ID	RECORD COUNT	CHARGE AMOUNT
GWT 081213 DP CINDYF	H00032	17,628	.34
TOTAL COST OF THIS REPORT			.34

Your institution is billed accordingly.

Change Report Setup Folder

This function allows you to change the location where report views are saved on your personal computer.

1. Select "Change Report Setup Folder" from the File menu.
2. Use the **Look In** drop-down list to select what folder report setups will be saved in. (Make sure the name of the selected folder appears in the drop-down menu box at the top of the dialog.)
3. Click <Select Path>.

The dialog will close, the [Report Catalog](#) will appear, and only the PC setups that have been saved in the new folder will appear in the Report Catalog.

How to set up the printer before printing

Before printing, you may need to set up which printer you want your report to print to, what the orientation (landscape or regular) of the print should be, and what paper type you are using to print.

1. Select "Print Setup" from the File menu.
2. Select the printer, orientation, and paper type needed.
3. Click <OK>.

Menus

The following is a list of the available menus in GOLDWriter®.

[File Menu](#)

[Actions Menu](#)

[Set Menu](#)

[View Menu](#)

[Window Menu](#)

[Help Menu](#)

File Menu

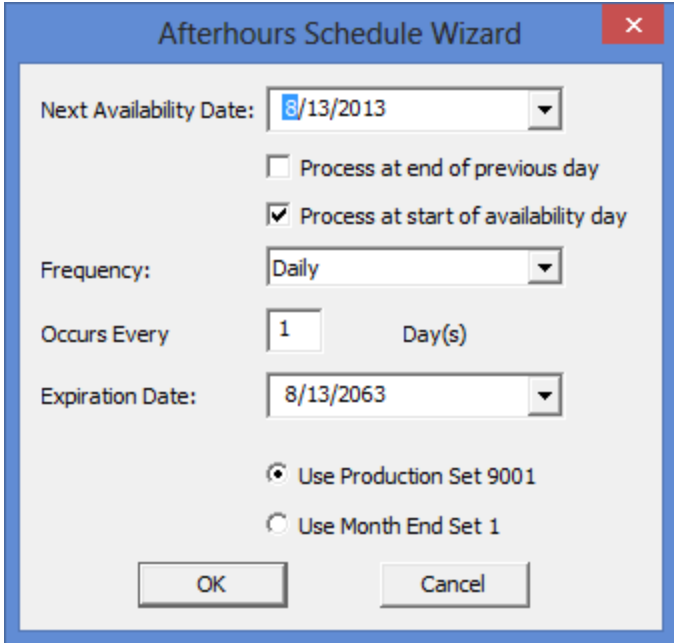

The File menu in [GOLDWriter](#) contains functions that enable you to log on or off the host and print reports.

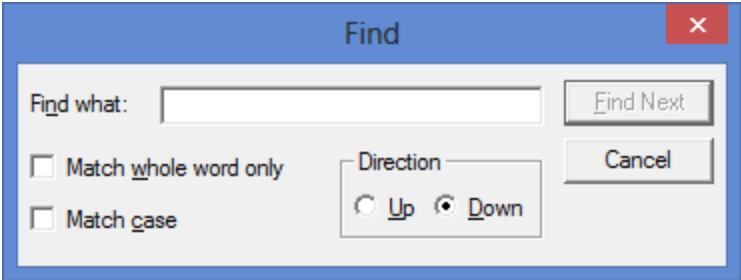

Function	Description
Open	Selecting "Open" from the File menu opens the Open dialog, where you can open a report you have previously saved.
Export	This function allows you to export the currently displayed report to another spreadsheet/database program. (This is set up in Step 5 of the Report Wizard.)
Save	Selecting "Save" (<Ctrl> + S) from the File menu opens the Save As dialog, where you can save and name the results of a report after it has been run.
Print	This function opens the Print dialog, which enables you to print the report results displayed on your screen.
Print Preview	This function allows you to see what the report will look like when printed. Other features include printing, viewing the next page, viewing the previous page, viewing two pages at a time, zooming in and out, and closing Print Preview.
Print Setup	This function is used to select a printer, orientation, and paper size.
Print Font	This brings up the Font dialog which allows you to choose the font, style, size, effects, color, and script of the report you want to print.
Refresh PMDICT dictionary	This function allows you to update the field information for all the records used in the creation of a report. This information is updated automatically once daily. Select this function if you want to include any new field information that may have been created after the automatic daily update. You normally will not use this function unless instructed by GOLDPoint Systems.
Change Set/Inst	This function is for GOLDPoint Systems use only.
Rebuild GTPC links	This function is for GOLDPoint Systems use only.
Exit	This function logs you off the host and closes GOLDWriter [®] .
Logoff/Logon	This function allows you to log off (or log on to) the host.
Change Report Setup Folder	This function allows you to change the location where report views are saved on your personal computer. See Change Report Setup Folder for more information.
Change Report Output Folder	This function allows you to change the location of the information that is automatically saved on your PC when a report is run. See Change Report Output Folder for more information.

Actions Menu

The Actions menu in [GOLDWriter](#) is used to make changes to the displayed data or to change the mode used to enter data. All of these actions can also be used when right-clicking on a report in the Report Catalog. These actions will appear on a pop-up menu when you right-click on a report.

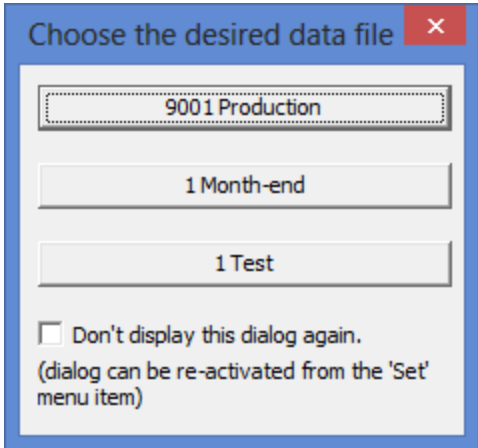

Function	Description
New	This function opens the Report Wizard to create a new report.
Edit	This function changes according to the currently opened dialog. <ul style="list-style-type: none"> • If edit is selected when a report is highlighted, the Report Wizard will open. • If edit is selected when a work field is highlighted in Step 3 of the Report Wizard, the work field can be edited. • If edit is selected when a total is highlighted in Step 6 of the Report Wizard, the total can be edited.
Run	If you select a report listed in the Report Catalog and then select this function, the system runs the report and displays it on the screen or in another selected application.
Run & Print	This function is similar to the Run function above, except after the report is run and displays on your screen, the system then prints the report to your default printer. <div data-bbox="548 961 1367 1209" style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p> Note: Make sure your default printer is set up appropriately before choosing this function. A print dialog does not appear; the print job is sent directly to your default printer. For more information concerning how to change your default printer, see your Windows <F1> help and search for "change default printer." Or you can set up the printer before printing, as described in the How to set up the printer before printing topic.</p> </div>
Run Batch Mode	This function operates similarly to the Run function. If you select "Run Batch Mode" after selecting a report on the Report Catalog, GOLDWriter will run the report in batch mode. This means that GOLDWriter requests a lower priority from the host to run the report. The biggest difference when running the report in batch mode is that the cost of the report will be about 1/3 less, and the report may take a little bit longer to run. However, in most cases the run time is about the same.
Run on PC Database	This function runs the report off of a database you've saved on your PC.
Schedule for Afterhours	Use this function to schedule a report to run in the afterhours. When you select the report on the Report Catalog , and then select this function, the following dialog box appears:

Function	Description
	 <p>Use this dialog box to set up when you want this report to run. You can set the next date you want the report to run; whether to run the report at the end of the previous day or start of availability date; the frequency you want the report to run; the number of times the report run occurs during that frequency; the expiration date of when you want the afterhours to stop running the report; and which set you to run for this report.</p> <p>Click <OK> when you have set up your options, and the report will run automatically in the afterhours as your requested.</p>
Remove from Afterhours	Select this function to remove any reports scheduled to run in the afterhours, as described above. If this option is grayed out, the report is not scheduled to run in the afterhours.
Available afterhours runs	Select this function to view all available downloads of the selected report that were run in the afterhours. If this option is grayed out, the report is not scheduled to run in the afterhours. If no reports are displayed in the dialog box that appears when this function is selected, no reports were downloaded from the afterhours run for this report.
Refresh Afterhours Copy	Select this function to refresh the list of reports that have been downloaded from the afterhours. This is useful if you logged onto GOLDWriter and left it open during an afterhours run, and now want to view any reports that were downloaded. Rather than logging out and logging back in, you can select this function, and the select the "Available afterhours run" function, as described above.
Install as Host Selection	This function saves the report parameters, so it can be run in CIM GOLD by GOLDMiner.
Copy	This function allows you to copy an already existing report from the Report Catalog, and create a new one based on that reports set up. For more information, see the

Function	Description
	Copy an Existing Report topic.
Paste	Selecting "Paste" from the Actions menu (or press <Ctrl> + V) allows you to paste whatever was last saved to the Windows® clipboard at the current cursor position.
Delete	This button deletes the selected object or text.
Refresh	This function refreshes and displays the Report Catalog. This allows you to easily see if more reports in the Report Catalog have been added or modified by other employees.
Find	<p>This function allows you to search through the currently displayed catalog or report. The following steps explain how to search for information in a report.</p> <ol style="list-style-type: none"> 1. Right-click on the report or catalog and select "Find" from the pop-up menu, or select "Find" from the Actions menu. <p>The Find dialog will appear, as shown below.</p>  <ol style="list-style-type: none"> 2. Enter any word or value in the Find what field. 3. If you enter multiple words, and you want to find them in the exact same order, check the Match whole word only box. 4. If you want to match the case, check the Match case box. 5. Select Up or Down in the Directions box. 6. Click <Find Next> to search for your keyword or value. <p>When a field is highlighted, press the space bar on the keyboard to select the field.</p>

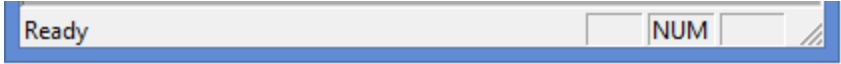

Set Menu

The Set menu in [GOLDWriter](#) allows you to switch between Production, MonthEnd, and Test sets by clicking on the needed set.

Function	Description
Production	Select "Production" from the Set menu if you want to run reports in production mode. Production files are live customer data files.
MonthEnd	Select "MonthEnd" from the Set menu if you want to run reports in monthend mode. Monthend files reflect live data as of the last day of the last month.
Test	Select "Test" from the Set menu if you want to run reports in test mode. You should only make this selection if you have developed a test system complete with accounts and other data records.
Display 'Choose the desired data file' Dlg During Logon	<p>This is an option, and if a checkmark is displayed next to this option, then when you log on, the system asks what data file you want to use to run GOLDWriter reports: production, monthend, or test.</p> <p>See the following example of this dialog box:</p>  <p>To disable this dialog box from appearing on logon, select this option from the Set menu so that a checkmark is <i>not</i> displayed next to it.</p>

View Menu

The View menu in [GOLDWriter](#) enables you to toggle the toolbar and status bar on and off.

Function	Description
Toolbar	This function toggles the toolbar on and off.
Status Bar	<p>This function toggles the status bar on and off. The status bar is at the very bottom of the screen, as shown below. It shows error information or other data that may be pertinent to actions on the screen.</p>  A screenshot of the status bar at the bottom of the application window. It is a horizontal bar with a light gray background and a blue border. On the left, the word 'Ready' is displayed in a blue font. On the right, there is a small box containing the text 'NUM' in a blue font, followed by a small square icon with diagonal lines.
Billing Information	This function toggles the billing information on and off. The billing information is the amount GOLDPoint Systems charges to run this report. This function is only available after a report is run, or after you've selected a report on the Report Catalog screen.

Window Menu

The Window menu enables you to arrange the open windows in GOLDWriter[®]. This menu will also display all the windows you have open.

Function	Description
New Window	This function opens the currently displayed report or catalog in a new window.
Cascade	This function resizes and overlays the open windows with their title bars visible.
Tile	This function resizes and arranges open windows side-by-side so that all of the windows are visible.
Arrange Icons	This function arranges all minimized windows into the bottom left-hand corner, if they are not already there.

Help Menu

The Help menu contains functions that enable you to find help and view information about GOLDWriter®.

A note concerning GOLDWriter help:

Windows no longer supports .hlp files, which are older version of help files. However, when you press <F1> from GOLDWriter, a message may appear from Microsoft directing you how to fix the help error by downloading an executable file that allows hlp files to be opened. Follow those steps in order to see help.

However, everything contained in help is also found in the DocsOnWeb [GOLDWriter's User's Guide](#). So if you need help, it might be easiest just to consult DocsOnWeb.

Function	Description
Help	This function opens the first page of the GOLDWriter Online Help System.
Context Help	This function opens the help topic that relates to the screen displayed on the screen. For example, if Report Wizard Step 3 is displayed, selecting this option will bring up the help topic concerning Report Wizard Step 3.
Help Finder	This function allows you to enter keywords to search for help topics.
About GOLDWriter	This function opens the About GOLDWriter dialog, which shows the version number of GOLDWriter®, copyright date, and number of sessions in use.
What's New	This function opens the Version History dialog. The dialog displays all changes and improvements made to each version of GOLDWriter®.
Find IDs	This menu item is for GOLDPoint Systems use only. It shows a context-sensitive number for each screen, so help can be tied to that screen. If a checkmark is displayed next to this item and press <F1> for help, a dialog box appears showing context numbers. In order to see help, make sure no checkmark is displayed next to this function.

Shortcuts

Click on the links below to find information designed to help you easily perform GOLDWriter tasks.

[Toolbar icons](#)

[Keyboard shortcuts](#)

Toolbar Icons

The toolbar is a quick way to access more frequently used functions. The basic toolbar will always be displayed according to default. To view or hide the toolbar, choose "Toolbar" from the View menu.

Icon	Description
	Click this icon to log on to GOLDWriter. If you already logged on to GOLDWriter, click this icon to log off GOLDWriter.
	Click this icon to create a new GOLDWriter report. For more information, see Creating a New Report .
	Clicking this icon opens the Report Catalog, which displays all the reports that have been set up for your institution in GOLDWriter. For more information, see Open the Report Catalog for more information.
	Click this icon to schedule reports to run in the afterhours. For more information, see Running reports in the afterhours .
	Clicking this icon brings up the Open dialog, where you can open a report you have previously saved on the network or your computer.
	Click this icon to export the currently displayed report to another spreadsheet/database program. (This is set up in Step 5 of the Report Wizard.)
	Click this icon to save and name the results of a report after it has been run.
	Click this icon if you want to copy a selected report on the Report Catalog screen and save a new one. See Copy an Existing Report for more information.
	Click this icon to paste the report you copied as described above.
	Click this icon to view how much a report costs to run .
	Clicking this icon opens the Print dialog, which enables you to print the report results displayed on your screen.
	Click this icon to view the help topic for the screen displayed.

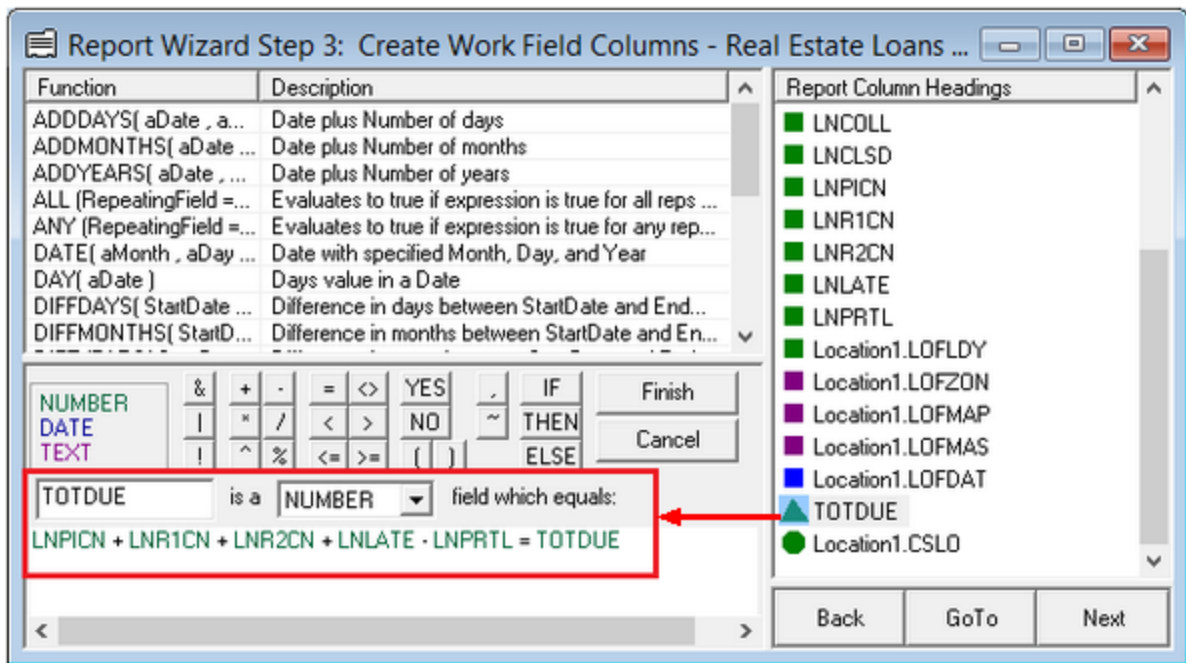

Keyboard Shortcuts

The following is a list of keystrokes that will help you perform GOLDWriter® tasks quickly.

Keystroke	Description
<Ctrl> + C	Press these keys to quickly copy any information you have selected. You can also use these keys to copy an existing report, as explained in the Copy an Existing Report topic.
<Ctrl> + D	<p>If you select a report in the Report Catalog and then press these keys, you can delete the report. The following message will be displayed:</p>  <p>The dialog box has a blue title bar with the text 'GOLDWriter' and a close button. The main area contains a question mark icon and the text: 'Are you sure you want to delete the selected report setup(s)? Any afterhours scheduling, and output from any afterhours runs of the selected report(s) will be also be deleted from the host!'. At the bottom, there are two buttons: 'Yes' and 'No'.</p> <p>Click <Yes> and the report will be deleted, as well as any afterhours scheduling of that report.</p>
<Ctrl> + E	If you click these keys after selecting a report in the Report Catalog , it causes the Report Wizard to be displayed. <Ctrl> + E indicates that you want to edit parts of the report setup.
<Alt> + F + L	Pressing these keys either logs you on or logs you off GOLDWriter.
<Ctrl> + N	Press these buttons to bring up a new Report Wizard, where you can enter new parameters for a report setup.
<Ctrl> + V	Press these keys to quickly paste any information you have selected. You can also use these keys to paste a copied report, as explained in the Copy an Existing Report topic.
<F5>	Refreshes the Report Catalog .
<Ctrl> + R	If you select a report in the Report Catalog and press these keys, the report will run and be displayed on your screen.
<Ctrl> + S	Press these keys to save the report results (if that is displayed), the report setup (if you select a report from the Report Catalog), or the Report Wizard (if you are working through the Report Wizard).

Appendix A - Special Work Field Calculations

For your convenience, several examples of loan work field calculations are displayed. These could be used in [Report Wizard Step 3: Create Work Fields](#). For example, in the first example in the table below, you would title the work field "TOTDUE," then you would enter the calculation logic, as shown in the following example.

The following table describes these calculations.

Loan Calculations

Calculation	Description
TOTDUE = LNPICN (P/I Payment) + LNR1CN (Reserve 1 Payment) + LNR2CN (Reserve 2 Payment) + LNLATE (Late Charges) - LNPRTL (Partial Payments)	Next Payment Due This will work in all cases except when the Next Payment Due involves a P/I or a reserve payment change, or if a Subsidy Payment amount is used, or on a payment method 5 (line-of-credit) loan with payment types 2-7. <i>See the following variations in the next rows.</i>
TOTDUE = LNPICN (P/I Payment)	Next Payment Due (2) Use this when there is a next Reserve 1 payment pending (usually after a Reserve Analysis) that will become effective with the next payment due.

Calculation	Description
+ LNR1NX (Next Reserve Payment) + LNR2CN (Reserve 2 Payment) + LNLATE (Late Charges) - LNPRTL (Partial Payments)	Note: If you do not use either of the reserve accounts or the Partial Payment field, they may be omitted from the calculation.
TOTDUE = LNPINX (Next P/I Payment) + LNR1CN (Reserve 1 Payment) + LNR2CN (Reserve 2 Payment) + LNLATE (Late Charges) - LNPRTL (Partial Payments)	Next Payment Due (3) Use when there is a pending next P/I payment that will become effective with the Next Payment Due (ARM only). Note: If you do not use either of the reserve accounts or the Partial Payment field, they may be omitted from the calculation.
DAYS = TODAY (today's date) B LNRLFD (Date of 1st finance charge) DAILY = LNRATE ÷ 365 AMTDUE = LNPBAL * DAILY ÷ 100 * DAYS Round 2 + LNLATE	Finance Charges Due To Date This calculates a finance charge plus any outstanding late charges, from the date of the last finance to today, on payment method 5 loans (line-of-credit) that are using a daily interest (D) calculation. Note: You can also add the mnemonics LNRLP1 through LNRLP5, after the LNLATE (late charges), to include any unpaid billed amounts.
LINSTBAL = 100 - LNISLD (percent sold) * LNPBAL (principal balance)	Institution Balance This is only for sold loans. This calculation will compute the institution's portion of the balance. If the loan is 100% sold, the result will be 0.

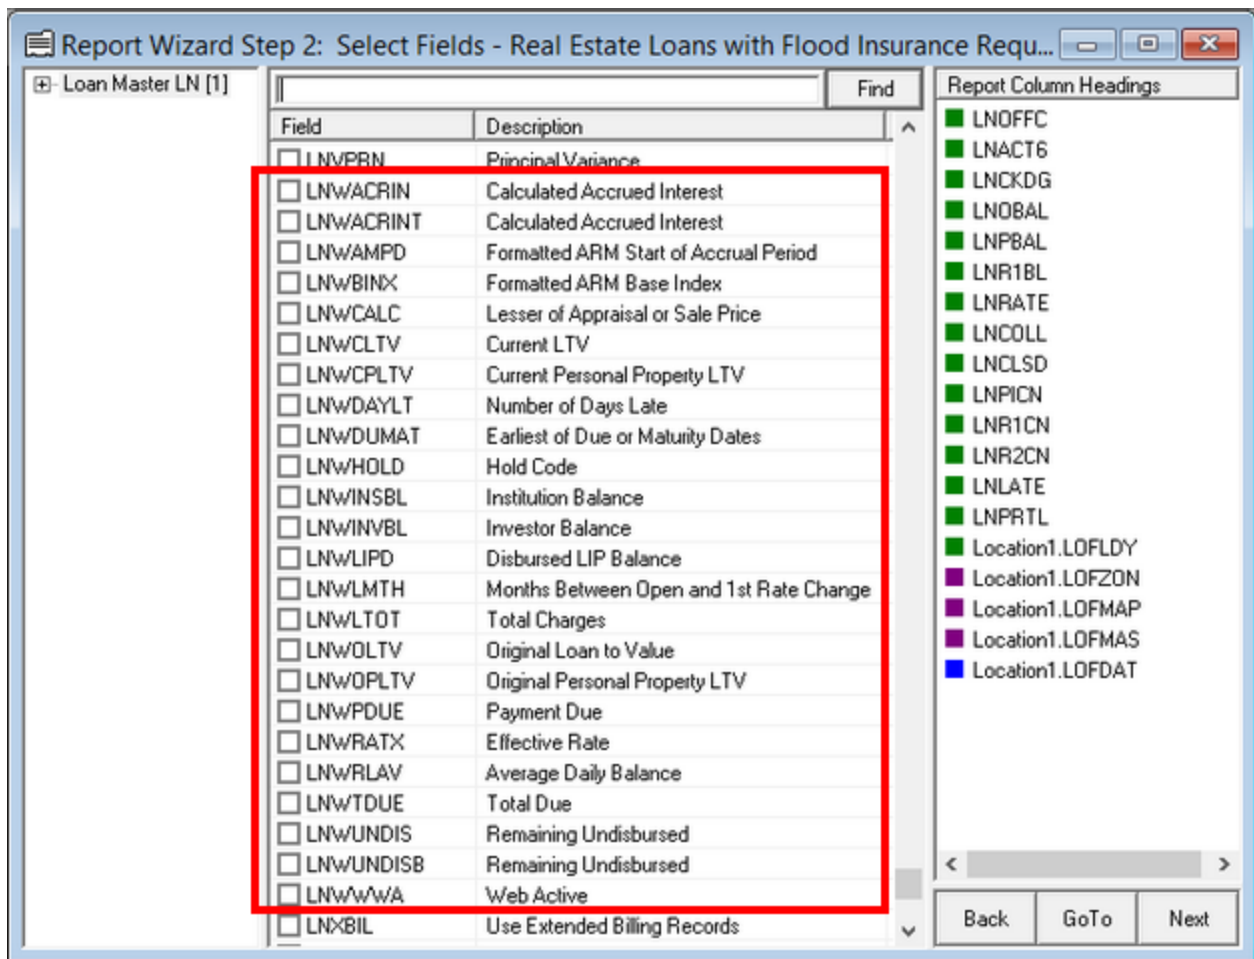

Calculation	Description
$\div 100$ Round 2	
RMTERM = LNMATD (maturity date) B LNDUDT (payment due date) $\div 30.4$ (average days) Round 0	Remaining Term This calculation does a comparison between the current payment due date on file and the maturity date to determine the amount of time (in months) left on this loan. See the other RMTERM description below for a variation of this same calculation.
RMPMTS = LNMATD (maturity date) B LNDUDT (payment due date) \div LNFREQ (frequency of payments) $\div 30.4$ Round 0	Remaining Number of Payments The use of the frequency in the calculation allows for loans with other than monthly payments.
RMTERM = LNMATD (maturity date) B LNDUDT (pmt due date) $\div 30.4$ Round 0 FACTOR = LNPBAL (princ bal) * REMTERM WTERM@ = FACTOR \div LNPBAL (princ bal) R 0	Weighted Average Remaining Term Uses two separate calculations to arrive at the desired result. First, the calculation for remaining term (see RMTERM above) and then the calculation to compute the average, itself requiring two steps to complete. Notice the "@" used in the result mnemonic. This is the mnemonic you will print on your report.
FACTOR = LNPBAL (principal balance) * LINTERM (term in months)	Weighted Average Term This is the same as the previous calculation, weighted average remaining term, except that it uses the full term instead of the remaining term.

Calculation	Description
WTERM@ = FACTOR ÷ LNPBAL (principal balance) T 0	
LTV = LNPBAL (principal balance) * 100 ÷ LNCALC (appraisal amount/selling price)	Loan-to-Value Ratio The special mnemonic, LNCALC, is used to determine the lesser of the appraisal amount or the selling price.
FACTOR = LNPBAL (principal balance) * LNRATX (effective rate) WRATE@ = FACTOR ÷ LNPBAL (principal balance) Round 3	Weighted Average Rate The special mnemonic, LNRATX, is used to determine the rate in effect on any loan pulled for your report. There is a different rate used on an ARM than on a fixed rate or an LIP. Notice the use of the "@" in the result mnemonic to determine the weighted average. See below for a variation of this calculation.
LINSTBAL = 100 - LNISLD (percent sold) * LNPBAL (principal balance) ÷ 100 Round 2 FACTOR = LINSTBAL * LNRATX WRATE@ = FACTOR ÷ LINSTBAL Round 3	Weighted Average Rate (2) The same calculation as above with the "institution portion of balance" calculation added in and used instead of the principal balance. May be used if part or all of your loans are sold to investors.
DLPMTS = TODAY (today's date) B LNDUDT (payment due date) ÷ 30.4 T 0	Number of Past Due Payments This is a comparison of the date you run your report and the payment due date on file. The result is truncated to "zero" number of decimal places to provide for a whole number. If you need a more accurate result, increase the "0" to a "1" (or more if desired). For example: If the loan is 3 1/2 months delinquent, the calculation at the left will show the loan as being only 3 months delinquent. Whereas, if the "0" were

Calculation	Description
	changed to a "1," the answer would be 3.5. You can also round to the nearest month by replacing the "T" with an "R."

Appendix B - Special Loan Field Mnemonics

GOLDPoint Systems has created special loan "work" fields (mnemonics). The fields eliminate the need for you to create work fields to obtain the data. Most of these work fields begin with LNW (see example below). The following table explains the fields. **Note:** These fields (mnemonics) would be used in [Report Wizard Step 2: Select Fields](#).

Field	Description
LNWACRIN	Calculated accrued interest. This GOLDWriter and Variable screen mnemonic will accrue loan interest either to or through today. The calculation is the same calculation that the Payoff screen uses. The mnemonic uses the same institution option as the one used for payoffs to determine if the calculation is to or through today (institution option OPTD I1DY).

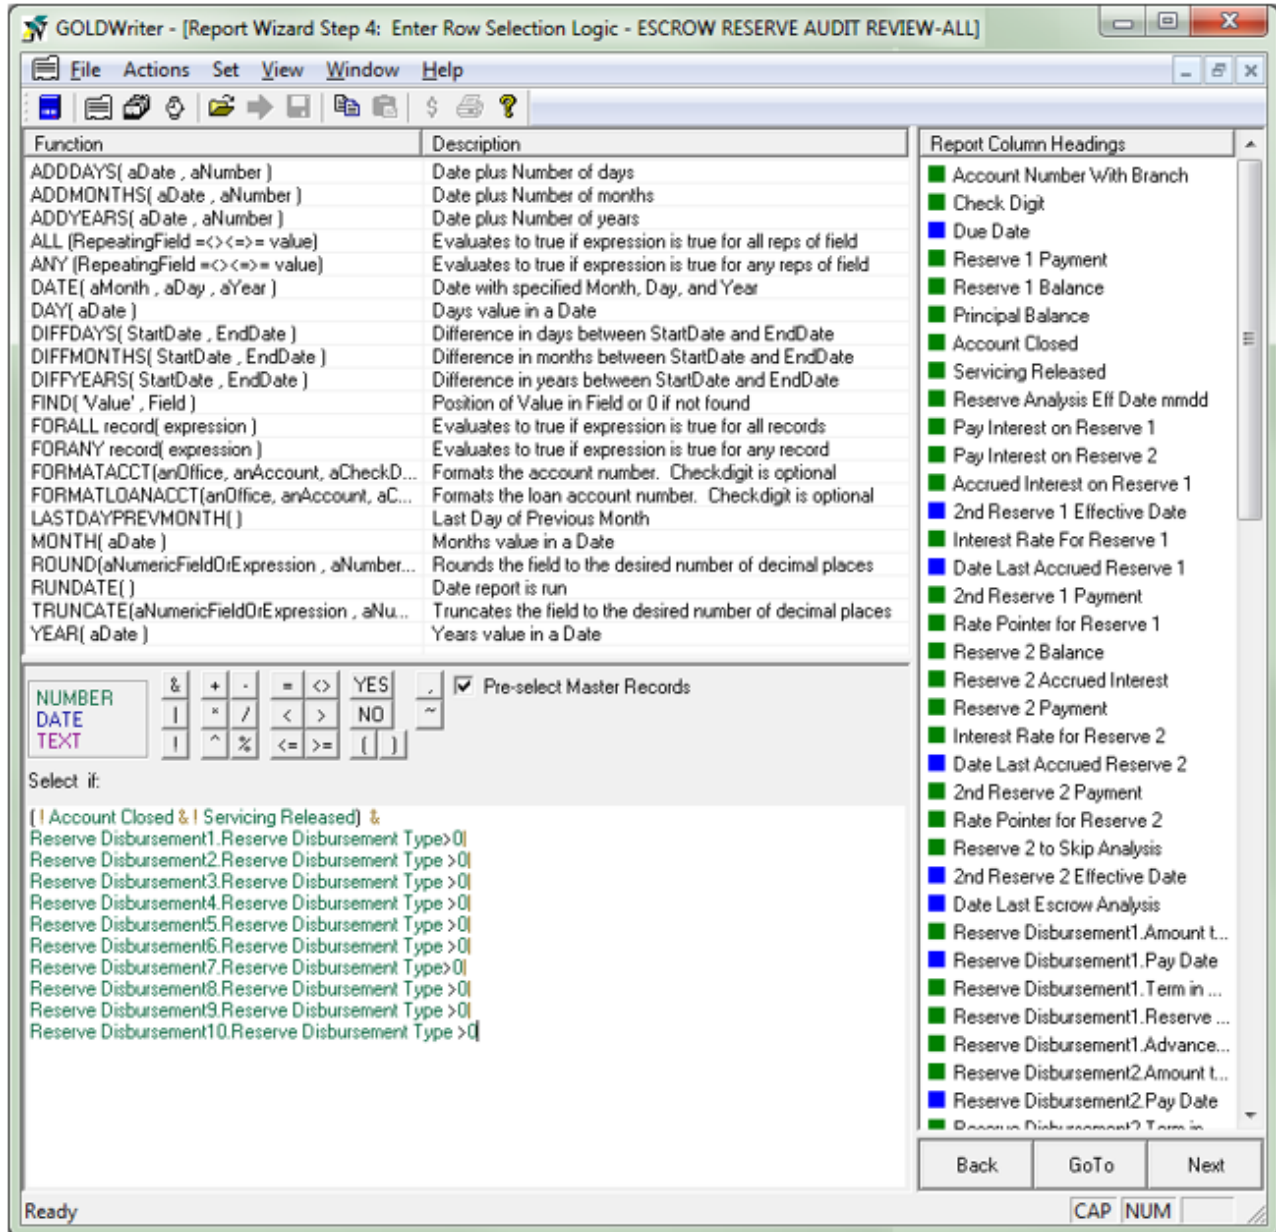

Field	Description
	<div style="border: 1px solid black; padding: 5px;">  WARNING: This mnemonic does not use the Payoff record. If you have already created a payoff record on the Loan Payoff screen and you run a report using this mnemonic, but today is not the payoff date, the accrued interest will be different. This is exactly the same as LNWACRINT. </div>
LNWACRINT	See LNWACRIN above.
LNWAMPD	Formatted ARM start of accrual period.
LNWBINX	Formatted ARM base index.
LNWCALC	Lesser of appraisal or sale price. If the Selling Price (LNSELL) is zero, then this uses the appraisal amount (LNAPAM). If the appraisal amount is 0, then this is the selling price. If neither is zero, then the lesser of the appraisal amount or selling price is used.
LNWCLTV	<p>Current LTV (loan to value). If either the principal balance (LNPBAL) or LNWCALC are zero, then this is 0. Otherwise, this is the principal balance plus secondary balance (LNBAL2) times 100000 times 1000 divided by LNWCALC (see definition above). The calculation looks as follows:</p> <p>LNPBAL = 0 or LNWCALC = 0, then 0.</p> <p>or else:</p> $(LNPBAL + LNBAL2) * 100000 * 1000 / LNWCALC$
LNWCPLTV	Current personal property LTV. This is calculated using the LNWCLTV calculation (see below) from LNVAL macro on FPLW record.
LNWDAYLT	<p>Number of days late. This work field calculates the number of days a loan is past due. The calculation is:</p> <p>Today - Due Date (for the loan)</p> <p>If the loan due date is in the future, the field will be zero (0).</p>
LNWDUMAT	Earliest of the due date or maturity date. LNWDUMAT returns the earlier of the loan due date (LNDUDT) and the loan maturity date (LNMATD). If one of the dates is blank, it uses the date with information in it. This mnemonic should be helpful in auditing regulatory reports.
LNWHOLD	Searches for data in hold code 1 and 2.
LNWINSBL	Institution balance. This is the principal balance (LNPBAL) minus LNWINVBL (see definition below).
LNWINVBL	Investor balance. This is the principal balance (LNPBAL) times the percent sold (LNISLD) rounded to three decimal places.
LNWLIPD	Disbursed LIP balance. If the LIP Method Code (LNLMTM) is 103, then this is the same as the principal balance (LNPBAL). Otherwise, this is the principal balance minus the LIP balance (LNLBAL).

Field	Description
LNWLMTH	Months between open and first rate change. This calculates the number of months between the loan open date and the first rate change date. This calculation is also displayed on the ARM Detail screen (Months Between Open and 1st Rate Change field).
LNWLTOT	Total charges. If the LIP Method Code (LNLMTH) is 0, then this is 0. Otherwise, this is the LIP Charge Amount (LNLCGA) plus the LIP Prior Unpaid Billing amount (LNLPCG).
LNWOLTV	Original loan to value ratio. This is the original balance (LNOBAL) divided by the lesser of the appraisal amount or the selling price (LNCALC) rounded to three decimal places. If either the appraisal amount or the selling price is zero, it uses the field with the amount in it.
LNWOPLTV	Original personal property value. This is calculated using the LNWOPLTV calculation (see above) from LNVAL macro on FPLW record.
LNWPDUE	Payment due. This is the CALCPMT calculation from INTCA macro. But if this is a line-of-credit loan (payment method 5) and the Remaining Unpaid fields (LNRLP1,2,3,4,5) are all zero (0), then LNWPDUE is zero as well.
LNWRATX	LNWRATX is the loan effective rate. This mnemonic will return the effective rate based on the status of the loan. The accrual rate on adjustable rate loans will use LNAMRT, LIP will use LNL RAT, and all other loans will use LNRATE.
LNWRLAV	Average daily balance. If this is a line-of-credit loan (payment method 5), then: Use the later of the date of last transaction (LNTRAN) or date of last finance charge (LNRLFD). Take the difference in days between this date and today's date. This is called WORK1. Now take the difference in days between the date of last finance charge (LNRLFD) and today, and this is called WORK2. If WORK2 is equal to zero, then use value of 1 for WORK2. Then, LNWRLAV is equal to the principal balance (LNPBAL) * WORK1/WORK2. If the resulting amount of LNWRLAV is zero, then the system uses loan principal balance. If not a line-of-credit loan: Do Work call to FPSAVAB0 and use balance returned.
LNWTDUE	Total due. Calculated from the LNVAL macro.
LNWUNDIS and LN WUNDISB	Undisbursed Balance The calculations are included with this mnemonic. It will display the undisbursed balance for either LIP or payment method 5 loans (line-of-credit). This mnemonic gives you the ability to display the undisbursed amounts for both LIP or payment method 5 loans in the same column. <ul style="list-style-type: none"> For LIP loans, the mnemonic will display the LIP undisbursed balance by reading the Undisbursed Balance field on the Account Construction Detail screen, Balances, Rates & Billing tab. The LIP method code must be greater than 0.

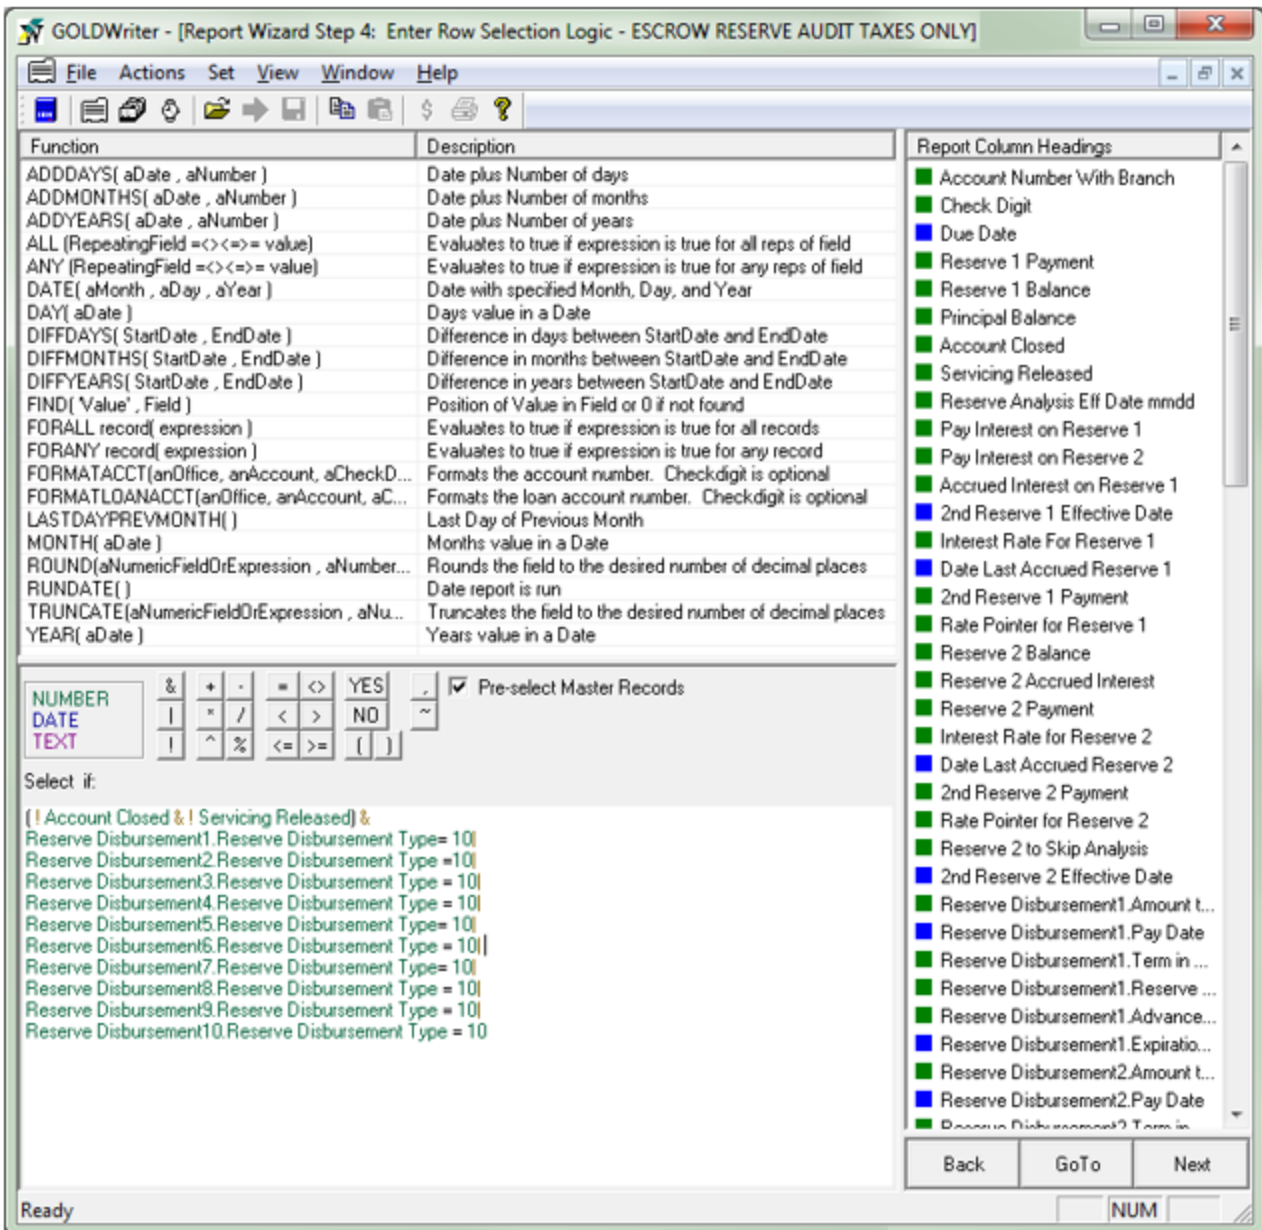

Field	Description
	<ul style="list-style-type: none"> For payment method 5 loans, the undisbursed amount is calculated as follows: Credit Limit - Principal Balance = Undisbursed (for revolving LOCs), or Credit Limit - Credit Used = Undisbursed (for non-revolving LOCs). <div style="border: 1px solid black; padding: 5px; margin-top: 10px;">  WARNING: If a loan has been set up to be both a payment method 5 and an LIP, the payment method 5 calculations will be displayed. </div>
LNWWWA	Web active.
Lienholder and Property Mnemonics	<p>Lienholder and property records mnemonics are IL for lienholder and IP for property records. There can be several properties per loan and also several lienholders per property.</p> <p>These fields work similarly to LIP or reserve disbursements and act as the master when read with loans. Lienholders are the master if read with properties.</p>
"LNC" instead of "LN"	If you change the "LN" part of a loan mnemonic to "LNC", the loan dates will be displayed with four-digit years, in MMDDCCYY format. For example, to have four-digit years displayed for the loan due date, use the mnemonic "LNCDUDT" instead of "LNDUDT." Note that this is only available for LN mnemonics. The RD (reserve), IN (insurance), etc. do not have this capability.
LNRINF	<p>LNRINF displays the last interest rate and the date the rate went into effect. The data is all displayed on one line and appears with the date first, then the rate. For example, 0401130875000 would be:</p> <p>Date: 04-01-13 Rate: 08.75000</p>

Appendix C - Report Examples

Example: Escrow Reserve Audit—All

Example: Escrow Reserve Audit Taxes Only

Investor Balance Report

This is a report that was created to display the investor balance and institution balance for each investor loan on the system. This report can help with the research of errors on the [Loan Management Summary by Type \(FPSRP030\)](#) report. See the examples below:

Report Wizard Step 1: Enter Basic Information

Title: Investor and Institution Portion of Principal Balance Category: Loans

Master Record: Loan Master LN

Account Number with	From	To	Report Description
			Determines how much of a loan's principal balance is investor principal balance and how much is institution's.

Work with mnemonics rather than field descriptions on all steps

GoTo Next

Ready NUM

Select the fields to be used in this report using [Report Wizard Step 2: Select Fields](#). You can see the list of fields selected (under the Report Column Headings) in the example below.

For [Report Wizard Step 3: Create Work Field Columns](#), you will need to create three work fields: PRINBAL, INVBAL, and INSTBAL. You must set up these work fields in this order. The work fields are set up as shown in the following examples.

1. Work field calculation for PRINBAL:

Report Wizard Step 3: Create Work Field Columns - Investor and Institution ...

Function	Description
ADDDAYS(aDate , aNu...	Date plus Number of days
ADDMONTHS(aDate , ...	Date plus Number of months
ADDYEARS(aDate , aN...	Date plus Number of years
ALL (RepeatingField =<...)	Evaluates to true if expression is true for all reps of fi...
ANY (RepeatingField =<...	Evaluates to true if expression is true for any reps of ...
DATE(aMonth , aDay , ...	Date with specified Month, Day, and Year
DAY(aDate)	Days value in a Date
DIFFDAYS(StartDate , ...	Difference in days between StartDate and EndDate
DIFFMONTHS(StartDat...	Difference in months between StartDate and EndDate
DIFFYEARS(StartDate , ...	Difference in years between StartDate and EndDate
FIND('Value' , Field)	Position of Value in Field or 0 if not found

Report Column Headings

- Account Number with Branch
- Check Digit
- Principal Balance
- Investor Percentage Sold
- Balance When Sold
- Unopened Loan
- Account Closed
- Servicing Released
- Investor Master Number
- Investor Group Number
- Interest Paid To Date
- LIP Undisbursed Funds Balance
- LIP Method Code
- PRINBAL
- INVBAL
- INSTBAL

PRINBAL is a NUMBER field which equals:
Principal Balance - LIP Undisbursed Funds Balance

Back GoTo Next

2. Work field calculation for INVBAL:

Report Wizard Step 3: Create Work Field Columns - Investor and Institution ...

Function	Description
ADDDAYS(aDate , aNu...	Date plus Number of days
ADDMONTHS(aDate , ...	Date plus Number of months
ADDYEARS(aDate , aN...	Date plus Number of years
ALL (RepeatingField =<...)	Evaluates to true if expression is true for all reps of fi...
ANY (RepeatingField =<...	Evaluates to true if expression is true for any reps of ...
DATE(aMonth , aDay , ...	Date with specified Month, Day, and Year
DAY(aDate)	Days value in a Date
DIFFDAYS(StartDate , ...	Difference in days between StartDate and EndDate
DIFFMONTHS(StartDat...	Difference in months between StartDate and EndDate
DIFFYEARS(StartDate , ...	Difference in years between StartDate and EndDate
FIND('Value' , Field)	Position of Value in Field or 0 if not found

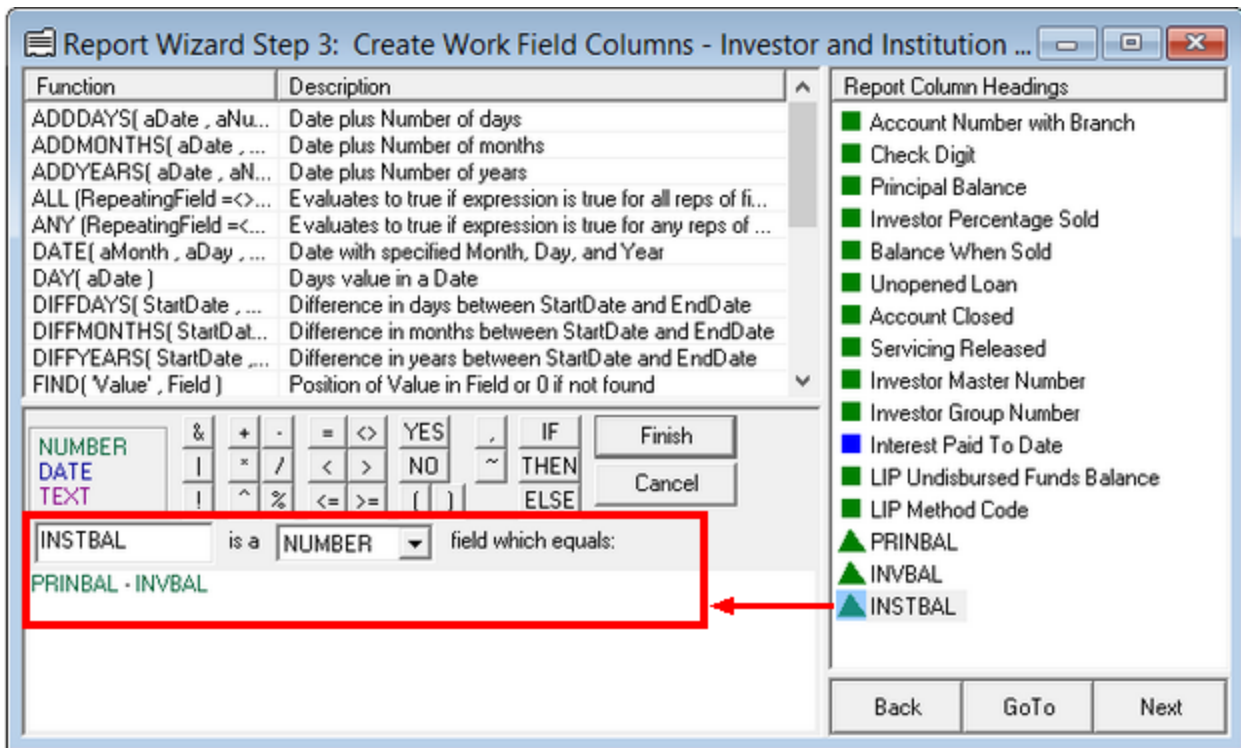

Report Column Headings

- Account Number with Branch
- Check Digit
- Principal Balance
- Investor Percentage Sold
- Balance When Sold
- Unopened Loan
- Account Closed
- Servicing Released
- Investor Master Number
- Investor Group Number
- Interest Paid To Date
- LIP Undisbursed Funds Balance
- LIP Method Code
- PRINBAL
- INVBAL
- INSTBAL

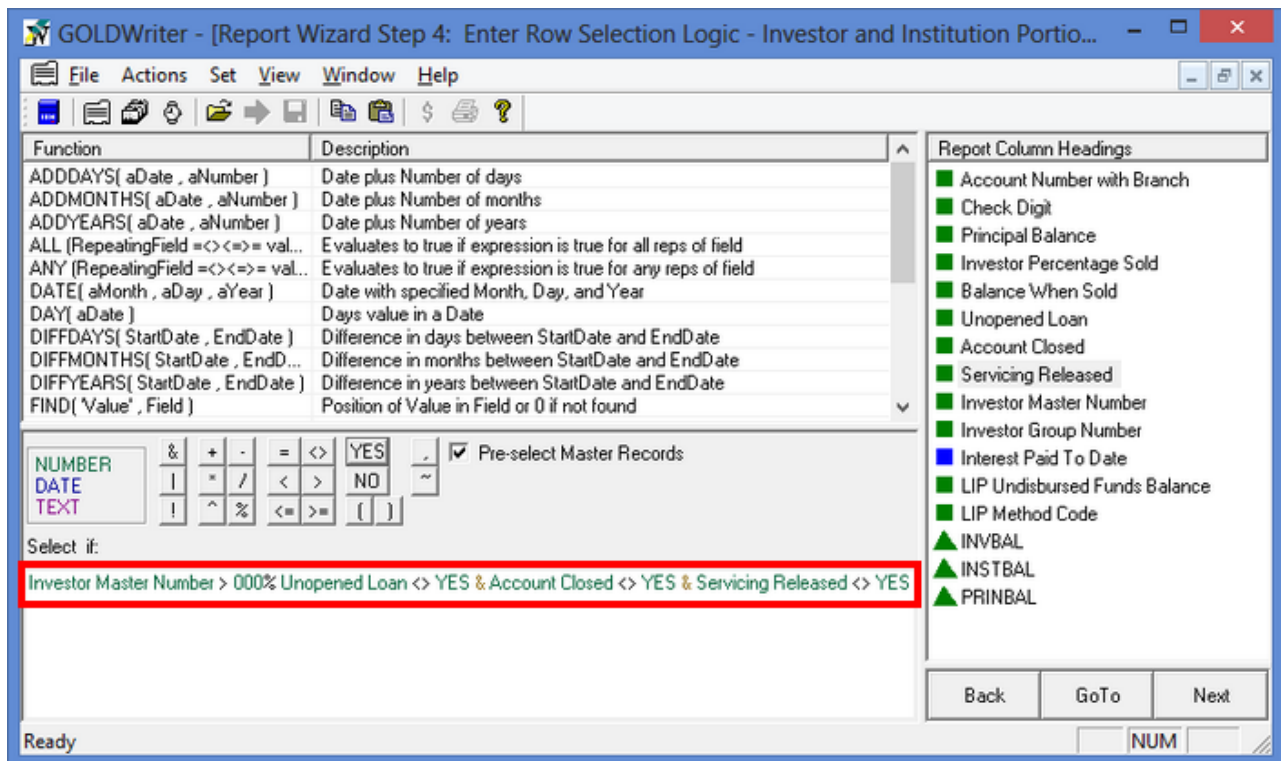

INVBAL is a NUMBER field which equals:
ROUND(PRINBAL * Investor Percentage Sold / 100,2)

Back GoTo Next

3. Work field calculation for INSTBAL:

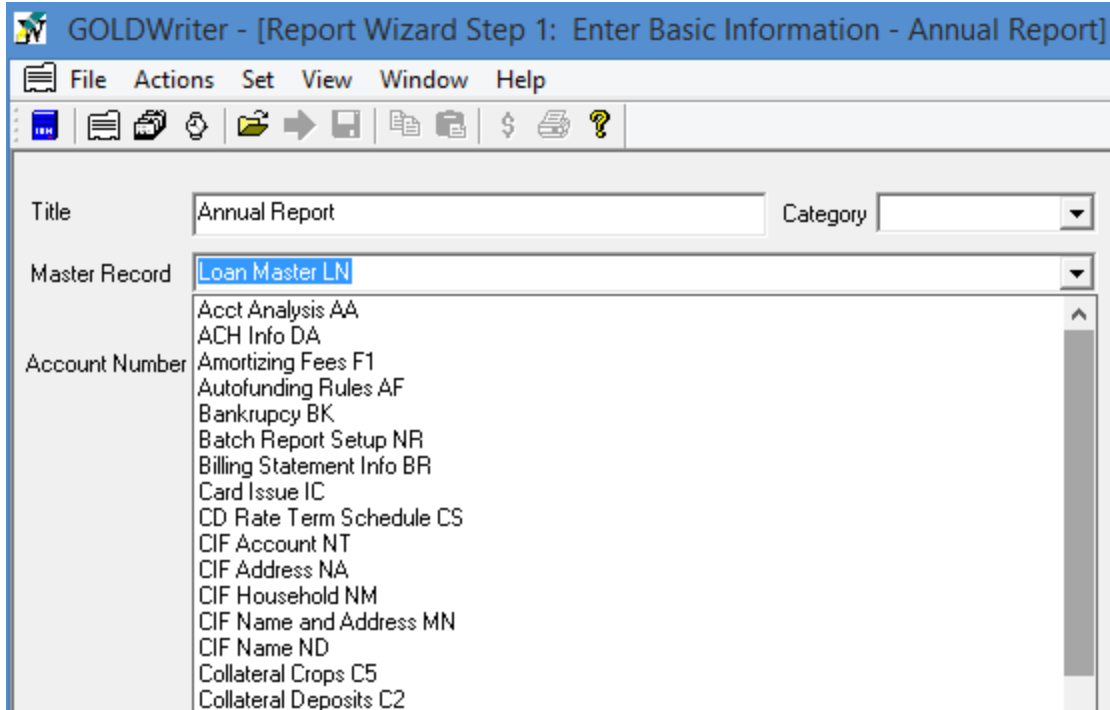

Set up [Report Wizard Step 4: Enter Row Selection Logic](#) exactly as it is set up in the following example:

Complete [Report Wizard Step 5](#), [Step 6](#), and [Step 7](#) as needed, then [run](#) the report.

GOLDWriter Mnemonic Dictionary

This help manual provides the **CIM GOLD** source location and entry details for **GOLDWriter** field mnemonics.

GOLDWriter field mnemonics are organized into Master Record categories. To view a specific master record, indicate the desired record in the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process, shown in the screenshot above). Many master records are available to select in the **Master Record** drop-down list, but many others do not appear in the list and must be manually indicated in the text portion of the **Master Record** field.

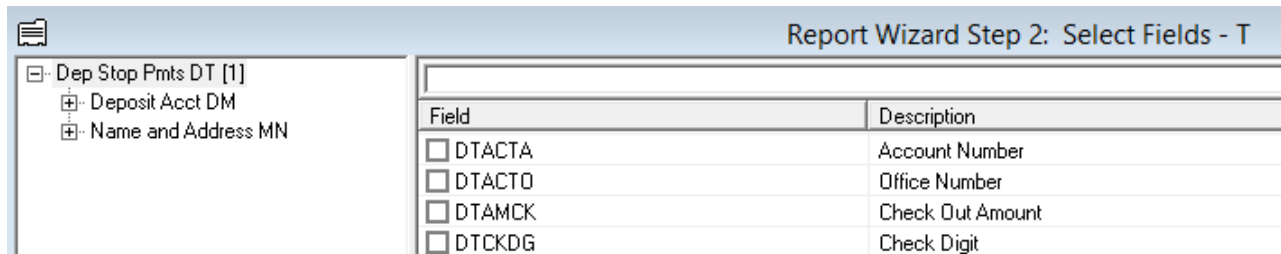

See the following link to the GOLDWriter Mnemonic Dictionary main page in DocsOnWeb:

[GOLDWriter Mnemonic Dictionary](#)

Dep Stop Pmts DT

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **Dep Stop Pmts DT** master record category. This master record can also be viewed by manually entering "FPDT" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

The [Deposit Master DM](#) and [CIF Name and Address MN](#) master records can be accessed underneath this record in the GOLDWriter **Report Wizard** tree view.

This table is organized alphabetically by field **Mnemonic**.

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s

Household KA

Household KA records (CIF Account Key) are no longer used. They were part of the CIF system in GOLDVision and WinTerm. These fields were used to find household information. The Customer Search Screen (record) is now used to find account information for a borrower or account.

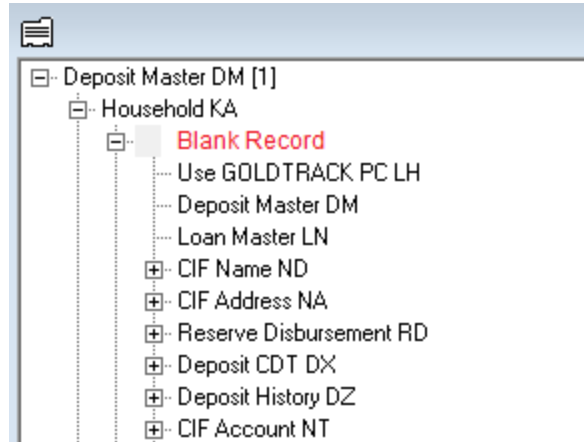

This master record can also be viewed by manually entering "FPKA" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process). The following records can be accessed underneath this record in the GOLDWriter **Report Wizard** tree view:

- [Blank record](#)
- [CIF Account NT](#)
- [CIF Household NM](#)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
KAACTA	Account Number		
KAACTO	Office Number		
KAACTP	Account Type		
KAADSC	Account Description		
KACKDG	Check Digit		
KASEIN	Household Number		
KATSEQ	Account Sequence		

Blank record

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the unnamed [Deposit](#) record. This "blank" record can be accessed underneath the [Household KA](#) record in the GOLDWriter **Report Wizard** tree view (see the screenshot below).

Red "Blank Record" added to empty space for effect.

The contents of this manual are organized by **Record**, as displayed in the left tree view during the [second step](#) of the GOLDWriter **Report Wizard** process (as shown in the screenshot above). Follow the links below to view information about the fields available within each **Record**. No mnemonics are specifically assigned to the blank record itself.

This table is organized alphabetically by field **Mnemonic**.

Mnemonic	Description	CIM GOLD Field Location	Details
DM#NGF	Nbr Neg Fees	Number of Negative Fees field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c h a r a c t e r s
DM2SID	Images 2 Sided Form		

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMAANL	Uses Acct Analysis	Analysis? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMACDN	Images Across And Down		
DMACRI	Accrued Interest	Accrued Interest field on the Deposits > Account Information > Interest Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMACTA	Account Number	Account Number field on the Customer Relationship Management > Callback screen	1 0 n u

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			m e r i c h a r a c t e r s
DMACTD	Accrued Interest to Today		
DMACTO	Office Number	Account Number field on the Customer Relationship Management > Callback screen	4 n u m e r i c h a r a c t e r s
DMACWD	All Withdrawals		
DMALDP	Allow Deposits	Allow Deposits without Override field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			(0 = No, 1 = Yes)
DMALWD	Allow Withdrawal	Allow Withdrawals without Override field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = No, 1 = Yes)
DMAPY#	APY Number Days		
DMAPYA	APY Accrued Amount		
DMAPYD	APY Calculation Date		
DMAPYI	Annual Percent Yield	Last APY Calculation field on the Deposits > Account Information > Interest Fields screen	7 n u m e r i c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c h a r a c t e r s
DMATFO	ATM Last Tran Info		
DMAUNC	Cyc Avg Uncollected	Average Uncollected Funds field on the Deposits > Account Information > Additional Fields screen	1 7 n u m e r i c c h a r a c t e r s
DMAVBL	Cycle Avg Balance		
DMAVIN	Available Interest	Available Interest field on the Deposits > Account Information > Interest Fields screen	1 1 n u m e r i c c h a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r a c t e r s
DMBALI	Min Bal To Rec Int	Required Average Interest field on the Deposits > Account Information > Interest Fields screen	1 1 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMLRT	Blended Rate	Blended Rate field on the Deposits > Account Information > Interest Fields screen	r s C h e c k b o x (0 = N o , 1 = Y e s)
DMBNDT	Bonus Exp Date	Bonus Expiration field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c c h a r a c t e r s
DMBNRT	Bonus Rate	Bonus Rate field on the Deposits > Account Information > Interest Fields screen	7 n u m

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r i c h a r a c t e r s
DMBPAY	Bill Payer Access	Bill Payer Customer Directed Transfers field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMBPFT	Billpayer First Access Date	Bill Payer Service Charge Start Date field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a r a c t e r s
DMBSRT	Base Rate	Base Rate field on the Deposits > Account Information > Interest Fields screen	7 n u m e r i c c h a r a c t e r s
DMCARD	Card Number	Credit Card field on the Deposits > Account Information > Overdraft & Secured Loans screen	2 0 n u m e r i c c h a r a c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r s
DMCDDC	CTD Debit Card Tran	Debit Card Used field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c h a r a c t e r s
DMCDDT	Date Card Expires	Expiration Date field on the Deposits > Account Information > Overdraft & Secured Loans screen	4 n u m e r i c h a r a c t e r s
DMCDRN	Renewable Acct	Renew at Maturity field on the Deposits > Account Information > Additional Fields screen	C h e c k b

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o x (0 = N o , 1 = Y e s)
DMCKCY	Cks This Cycle	Checks field on the Deposits > Account Information > Activity Information screen	3 n u m e r i c c h a r a c t e r s
DMCKDG	Check Digit	Account Number field on the Customer Relationship Management > Callback screen	2 n u m e r i c c h a r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a c t e r s
DMCKRT	Return Actual Check		
DMCLIM	Card Limit	Card Transaction Limit field on the Deposits > Account Information > Overdraft & Secured Loans screen	1 1 n u m e r i c h a r a c t e r s
DMCLSD	Acct Closed		
DMCNCL	Contr Curr For Last	YYYY Contribution for YYYY field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r s
DMCNCY	Current Yr Contrib	Contribution field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c h a r a c t e r s
DMCNLD	Contrib LTD		
DMCNLY	Last Year Contrib	Prior Year Contribution field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMCNOF	Conditional Offset	Conditional Offset field on the Deposits > Account Information > Interest Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMCNPL	Last Yr For Prev Yr	YYYY Prior Year Contribution for YYYY field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMCOND	Conduit IRA	Conduit/Rollover IRA field on the Deposits > Account Information > Additional Fields screen	C h e c k

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			b o x (0 = N o , 1 = Y e s)
DMCPRD	Current Period		
DMCRBL	Current Balance	Current Balance field on the Deposits > Account Information > Account Information, Additional Fields, Overdraft & Secured Loans , and Funds Holds , Customer Relationship Management > Households , and GOLD Services > Audit Confirmations > Deposit Audit Confirmation screens	1 1 n u m e r i c c h a r a c t e r s
DMCRSN	Reason For Close	Reason Closed field on the Deposits > Account Information > Account Information screen	2 0 a l p h a n u

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			m e r i c h a r a c t e r s
DMCSMG	Cash Management	Allow Cash Management? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMCTDA	CTD Accrued		
DMCTDD	CDT Deposits		
DMCTLR	Closing Teller Nbr		
DMCTRM	Term	Term/Type field on the Deposits > Account Information > Account Information screen	4 a l p h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a b e t i c h a r a c t e r s
DMCYCD	CDT Chk Deps		
DMCYDP	Calendar YTD Deposit	Year-to-Date Deposits field on the Deposits > Account Information > Activity Information screen	1 1 n u m e r i c h a r a c t e r s
DMCYDT	Cyc Start Date	Cycle Start Date field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c h a r a c t e r s
DMCYWD	Calendar YTD Wthdrl	Year-to-Date Withdrawals field on the Deposits > Account Information > Activity Information screen	1 n u m e r i c c h a r a c t e r s
DMDAC2	Nbr ACH Dp 2 Months Ago		
DMDACC	Nbr ACH Dep In Cycle		
DMDACH	Date Of Last ACH	Last ACH Activity field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a c t e r s
DMDACL	Nbr ACh Dep Last Month		
DMDATM	Date Of Last ATM	Last ATM Activity field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMDCON	Deconvert Account	Convert Account field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			s)
DMDDAM	Dep Delay Local Amt	Grand Totals field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c h a r a c t e r s
DMDDEP	Delay Deposit	Deposit Delay field on the Deposits > Account Information > Funds Holds screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDEAD	Account Owner Dead		

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMDEFL	Analysis Default Nbr	Analysis Default field on the Deposits > Account Information > Additional Fields and Commercial Account Analysis screens	4 n u m e r i c c h a r a c t e r s
DMDEMP	Employee Account	Employee Account? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMDFCA	Club Account Feature	Club Account field on the Deposits > Account Information > Account Information screen	C h e c k b

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o x (0 = N o , 1 = Y e s)
DMDFCD	Certificate Feature	Certificate field on the Deposits > Account Information > Account Information screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDFCK	Checking Feature	Checking field on the Deposits > Account Information > Account Information screen	C h e c k b o x (0

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			= N o , 1 = Y e s)
DMDFIN	Interest Feature	Interest field on the Deposits > Account Information > Account Information screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDFOD	Overdraft Feature	Overdraft field on the Deposits > Account Information > Account Information screen	C h e c k b o x (0 = N o ,

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			1 = Y e s)
DMDFRT	Retirement Feature	Retirement field on the Deposits > Account Information > Account Information screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDICY	Nbr Dep Items In Cycle	Deposit Items Count field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMDILP	Date Int Last Paid	Date Interest Last Paid field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c h a r a c t e r s
DMDMEM	Memo Post	Memo Post Account field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDNEG	Can Acct Go Neg	Can Account Go Negative field on the Deposits > Account Information > Additional Fields screen	C h e c k b

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o x (0 = N o , 1 = Y e s)
DMDORM	Dormant Account		
DMDPCY	Nbr Deposits In Cycle	Deposits Count field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c c h a r a c t e r s
DMDPTP	Deposit Type Code	Account Type field on the Deposits > Account Information > Account Information screen	2 n u m e r i c c h a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r a c t e r s
DMDROP	Drop Record		
DMDSCA	Distrib Category	Code field on the Deposits > Account Information > Additional Fields screen	2 a l p h a n u m e r i c c h a r a c t e r s
DMDSEH	Use Extended UCF Hold	Extend Uncollected Funds Holds field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			, 1 = Yes)
DMDSFH	Enforce UCF lopts	Enforce Uncollected Funds Holds field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = No , 1 = Yes)
DMDSL	Distrib LTD		
DMDSNH	New Acct UCF Holds	New Account Uncollected Funds Holds field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = No , 1 =

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			Y e s)
DMDSPY	Prior YTD Distributions	Distributions field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMDSTS	Term Until Dormant	Term Until Dormant field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c c h a r a c t e r s
DMDSTT	Type Till Dorm MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	1 n u

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			m e r i c c h a r a c t e r
DMDSUT	Unspec Hold Exp Today	Unspecified Hold Expires Today field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDSYD	Distrib YTD		
DMDTAC	Date Last Accrued	Date Interest Accrued to field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			h a r a c t e r s
DMDTCC	Dt Last Cust Contact	Unspecified Hold Expires Today field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTCL	Date Closed	Date Closed field on the Deposits > Account Information > Account Information and Activity Information screen	8 n u m e r i c c h a r a c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMDTCV	Conversion Date	Conversion Date field on the Deposits > Account Information > Additional Fields screen	r s 8 n u m e r i c c h a r a c t e r s
DMDTDM	Date Of Dormancy	Date Dormant field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMDTHR	High Rate Renewal Dt	High Rate Date field on the Deposits > Account Information > Additional Fields screen	8 n u m e r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			i c c h a r a c t e r s
DMDTLA	Date Of Last Activity	Last Active field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMDTLD	Date Last Deposit	Last Deposit field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			t e r s
DMDTLR	Date Of Last Return		
DMDTLT	Date Last Transaction	Last Transaction field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMDTLW	Date Last Withdrawal	Last Withdrawal field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMDTNG	Date Acct Went Neg	Last Date Acct Went Neg field on the Deposits > Account Information > Additional Fields screen	8 n

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			u m e r i c h a r a c t e r s
DMDTOD	Date Last Overdraft	Date of Last Overdraft field on the Deposits > Account Information > Overdraft & Secured Loans screen	8 n u m e r i c h a r a c t e r s
DMDTOP	Date Opened	Date Opened field on the Deposits > Account Information > Account Information, Activity Information , and Customer Relationship Management > General Information screens	8 n u m e r i c h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a r a c t e r s
DMDTPB	Date Last Item In Bk	Date of Last Item in Passbook field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTSV	Date Last Svc Chrgd	Date Last Service Charge field on the Deposits > Account Information > Service Charge Fields screen	8 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMDTW4	Date Last W4 Notif	Last W4P Notification Date field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTW8	W8 Exp Date	W8 Form Expiration Date field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c c h a r a c t e r s
DMDUCF	Uses Uncol Funds	Account Uses Uncollected Funds field on the Deposits > Account Information > Additional Fields and Funds Holds screen	C h e c k b o x

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			(0 = No, 1 = Yes)
DMDUFC	Nbr Draws On UCF cycle	Uncollected Funds Drawn field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c h a r a c t e r s
DMDYME	Days Before ME Int	Days to Pay Interest Before Month-end/Anniversary field on the Deposits > Account Information > Interest Fields screen	2 n u m e r i c h a r a c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			t e r s
DMDYMT	Days Before Mat Int	Days to Pay Interest Before Maturity field on the Deposits > Account Information > Interest Fields screen	2 n u m e r i c h a r a c t e r s
DMEDUC	Esa	ESA field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMEFBL	Fiscal Yr End Bal		

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMEMCY	Emp Curr Yr Contrib	Employer Contribution field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c h a r a c t e r s
DMEMLY	Emp Prev Yr Contrib	Previous Year Employer Contribution field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c h a r a c t e r s
DMEMPX	Employee Number		
DMEYBL	End Of Yr Balance	Year-End Balance field on the Deposits > Account Information > Additional Fields screen	1 1 n u m

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r i c h a r a c t e r s
DMFDWH	Federal Withhold Amt	Year-to-Date Amount Withheld Federal field on the Deposits > Account Information > Interest Fields screen	1 1 n u m e r i c h a r a c t e r s
DMFPTR	Use Tmp As Flat Rt	Grace Flat Rate field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 =

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			N o , 1 = Y e s)
DMFRBK	Images Front back		
DMFSTS	Keep FM Hist Term	Term to Keep F/M History field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c c h a r a c t e r s
DMFSTT	Keep FM Type MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	
DMFWHA	Fed W h Fixed Amt	Withholding Fixed Amount Federal field on the Deposits > Account Information > Interest Fields screen	7 n u m e r i c c h a r a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c t e r s
DMFWHD	Fed W hi Distrib	Federal Withholding field on the Deposits > Account Information > Additional Fields screen	7 n u m e r i c c h a r a c t e r s
DMFWHP	Fed W h Percentage	Withholding Percentage Federal field on the Deposits > Account Information > Interest Fields screen	5 n u m e r i c c h a r a c t e r s
DMGBNK	GOLD Phone Active	GOLDPhone? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c k b o x (0 = N o , 1 = Y e s)
DMGDFP	Force Pin Change	Force Remote Banking PIN Change field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMGDIN	Restrict Internet	Restrict GOLD HomeBanker field on the Deposits > Account Information > Additional Fields screen	C h e c k b o

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			x (0 = N o , 1 = Y e s)
DMGDPC	Nbr Invalid Pin Tries		
DMGDPH	Restrict GOLDPhone	Restrict GOLDPhone field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMGENL	General Category	General Category field on the Deposits > Account Information > Account Information screen	2 n u m e r i c c h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a r a c t e r s
DMGLPF	Misc Posting Field	G/L Miscellaneous Posting Field field on the Deposits > Account Information > Additional Fields screen	4 n u m e r i c c h a r a c t e r s
DMGPTN	Nbr GOLDPhone Trans	Remote Banking field on the Deposits > Account Information > Activity Information screen	3 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMGPXF	Restrict GP Xfers	Restrict Remote Banking Transfers? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMGRAC	Renewal Grace Days	Use Grace Days field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMGSTS	Keep Image Term	Term to Keep Images field on the Deposits > Account Information > Additional Fields screen	2 n u m

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r i c h a r a c t e r s
DMGSTT	Keep Image Type MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	1 n u m e r i c h a r a c t e r
DMHACC	Hold Action Code	Code field on the Deposits > Account Information > Restrictions & Warnings screen	4 n u m e r i c h a r a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c t e r s
DMHACF	Hold Action Eff Date	Effective Date field on the Deposits > Account Information > Restrictions & Warnings screen	8 n u m e r i c c h a r a c t e r s
DMHACV	Hold Action Event	Document field on the Deposits > Account Information > Restrictions & Warnings screen	4 n u m e r i c c h a r a c t e r s
DMHACX	Hold Action Exp Date	Expiration Date field on the Deposits > Account Information > Restrictions & Warnings screen	8 n u

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			m e r i c h a r a c t e r s
DMHIBL	Cycle High Balance	High Balance/Cycle field on the Deposits > Account Information > Account Information screen	1 1 n u m e r i c h a r a c t e r s
DMHIGR	High Rate In Renewal	Renew at High Rate field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			= N o , 1 = Y e s)
DMHSTS	Keep History Term	Term to Keep History field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c c h a r a c t e r s
DMHSTT	Keep Hist Type MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	1 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r
DMHVEC	Have ec Record		
DMHVOD	Have Overdraft Accts		
DMIACH	Nbr Of Internal ACH		
DMIANV	Anniversary Int	Anniversary Interest field on the Deposits > Account Information > Interest Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMICTD	CDT Interest	Interest This Term field on the Deposits > Account Information > Interest Fields screen	1 1 n u m e r i c h a r a c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s

Loan Master LN

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **Loan Master LN** record. This master record can also be viewed by manually entering "FPLN" or "CFLN" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

Field	Description
<input type="checkbox"/> LN16CL	CSD Loan
<input type="checkbox"/> LN16GA	Loan Guarantee Amount
<input type="checkbox"/> LN16MC	PM16 Pmt Makes Loan Current
<input type="checkbox"/> LN16OP	Option First Payment
<input type="checkbox"/> LN16PY	CSD Payee Number
<input type="checkbox"/> LN16RP	Returned Recurring Payments counter
<input type="checkbox"/> LN16RT	PM16 Loan Rate
<input type="checkbox"/> LN1DUE	First Due Date
<input type="checkbox"/> LN1ROL	Date Of First Rate Roll
<input type="checkbox"/> LN2LMT	Credit Limit
<input type="checkbox"/> LN2ORT	Original Rate
<input type="checkbox"/> LN2PAV	Pledged Percent Available

This table is organized alphabetically by field **Mnemonic**.

Mnemonic	Description	CIM GOLD Field Location	Details
LN16CL	CSD Loan	CSD Loan field on the Loans > Account Information > Signature Loan Details screen	Checkbox (0=No, 1=Yes)
LN16GA	Loan Guarantee Amount	Loan Guarantee Amount field on the Loans > Account Information > Signature Loan Details screen	13 numeric characters
LN16MC	PM16 Pmt Makes Loan Current		
LN16OP	Option First Payment		

Mnemonic	Description	CIM GOLD Field Location	Details
LN16PY	CSO Payee Number	CSO Payee Number field on the Loans > Account Information > Signature Loan Details screen	6 numeric characters
LN16RP	Returned Recurring Payments counter	Returned column of the ACH Failures list view on the Loans > Account Information > Signature Loan Details screen	
LN16RT	PM16 Loan Rate	Interest Rate field on the Loans > Account Information > Signature Loan Details screen	9 numeric characters
LN1DUE	First Due Date	First Due field on the Loans > Account Information > Account Detail, Amortization Schedule, Additional Loan Fields, ARM Information, Amortizing Fees and Costs, Precomputed Loans, Loans > Account Adjustment, Original Loan Disclosure, and Purchase Disclosure screens	6 numeric characters
LN1ROL	Date Of First Rate Roll	First Rate Change Date field on the Loans > Account Information > ARM Information and Loans > Line-of-Credit Loans screens	6 numeric characters
LN20ID	PM20 Interest Due	Interest Due field on the Loans > Account Information > Account Detail screen	13 numeric characters
LN2LMT	Credit Limit		
LN2ORT	Original Rate		
LN2PAV	Pledged Percent Available		
LN45DY	45 Day Delinquency Notice Flag	45 Day Delinquency Notice? field on the Loans > Account Information > Account Detail screen	Checkbox (0=No, 1=Yes)
LN4NBR	Account Number With Branch		
LN5RAT	Large LOC Rate		
LN7830	Rule 78 Refund 360 at Payoff	Refund 360/360 at Payoff field on the Loans > Account Information > Precomputed Loans screen	Checkbox (0=No, 1=Yes)
LN78AA	Acquisition Charge Amount	Acquisition Charge Amount field on the Loans > Account Information > Precomputed Loans screen	5 numeric characters
LN78AB	Amortization AddOn balance	Amort. Balance field on the Loans > Account Information > Precomputed Loans screen	13 numeric characters
LN78AC	Acquisition Charge Code	Acquisition Charge Code field on the Loans > Account Information > Precomputed	3 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
		Loans screen	
LN78AD	Rule 78 GL Amortization Date	Date Last Amortized field on the Loans > Account Information > Precomputed Loans screen	6 numeric characters
LN78AF	Rule 78 Use Anniv of 1st Due Date	Use Anniversary of 1st Due Date field on the Loans > Account Information > Precomputed Loans screen	Checkbox (0=No, 1=Yes)
LN78AM	Rule 78 GL Amortization Method	Method field on the Loans > Account Information > Precomputed Loans screen	3 numeric characters
LN78AO	Rule 78 Add On Rate	Add-On Rate field on the Loans > Account Information > Precomputed Loans screen	7 numeric characters
LN78CD	Rule 78 Unearned Dealer Rsrv At Date		
LN78CG	Rule 78 GL Unearned Interest	Unearned Interest field on the Loans > Account Information > Precomputed Loans and Call Report Classifications screens	13 numeric characters
LN78CI	Rule 78 Unearned Int At Date last Accr	Unearned Int. at Last Accrued field on the Loans > Account Information > Precomputed Loans screen	13 numeric characters
LN78CX	Rule 78 Unearned Insur At Date Last Accr		
LN78DL	Rule 78 Dealer Nbr		
LN78DM	Days After Maturity to CIB Acct	Days After Maturity to CIB Acct field on the Loans > Account Information > Precomputed Loans screen	3 numeric characters
LN78DO	Use Anniversary of Date Opened	Use Anniversary of Date Opened field on the Loans > Account Information > Precomputed Loans screen	Checkbox (0=No, 1=Yes)
LN78DR	Rule 78 Rebate Rule Days	Rebate Rule Days field on the Loans > Account Information > Precomputed Loans screen	3 numeric characters
LN78EC	Rule 78 Extension Change Calc Code		
LN78EI	Extension Int in Original Int	Is Extension Interest Added to Original Interest? field on the Loans > Account Information > Precomputed Loans screen	Checkbox (0=No, 1=Yes)
LN78EN	Rule 78 Number of Extensions Given		
LN78EO	Extended Payoff Org Trm for Def	Extend Original Term by Deferment field on the Loans > Account Information > Precomputed Loans screen	Checkbox (0=No, 1=Yes)
LN78ER	Extended Payoff Rem Trm for Def	Extend Remaining Term by Deferment field on the Loans > Account Information >	Checkbox (0=No, 1=Yes)

Mnemonic	Description	CIM GOLD Field Location	Details
		Precomputed Loans screen	
LN78EX	Rule 78 Extension Charge Amount		
LN78GA	Rule 78 Georgia Loan	Georgia Loan field on the Loans > Account Information > Precomputed Loans screen	Checkbox (0=No, 1=Yes)
LN78IR	Ignore Rule Days for GL Amortization	Ignore Rule Days field on the Loans > Account Information > Precomputed Loans screen	Checkbox (0=No, 1=Yes)
LN78MF	Rule 78 Interest Rebate Method	Int Rebate Method field on the Loans > Account Information > Precomputed Loans screen	3 numeric characters
LN78OD	Rule 78 Original Unearned Dealer Reserve		
LN78OI	Rule 78 Original Unearned Interest	Original Unearned Interest field on the Loans > Account Information > Precomputed Loans , Loans > Original Loan Disclosure , Purchase Disclosure , and Loans > Statistics and Summaries > Summary screens	13 numeric characters
LN78OP	Rule 78 Original Principal Before Add On	Original Principal Before Add-Ons field on the Loans > Account Information > Precomputed Loans , Loans > Original Loan Disclosure , Purchase Disclosure , IRS Form 1099-C and Loans > Statistics and Summaries > Summary screens	13 numeric characters
LN78OX	Rule 78 Original Unearned Insurance		
LN78PO	Rule 78 Use Rule Days at Payoff Only	Payoff Only? field on the Loans > Account Information > Precomputed Loans screen	Checkbox (0=No, 1=Yes)
LN78RD	Rule 78 Rebated Dealer Reserve		
LN78RI	Rule 78 Interest Rebated To Customer	Rebated Interest field on the Loans > Account Information > Precomputed Loans screen	13 numeric characters
LN78RL	Rule 78 Minimum Interest Rebate Limit	Minimum Interest Rebate Limit field on the Loans > Account Information > Precomputed Loans screen	5 numeric characters
LN78RX	Rule 78 Rebated Insurance		
LN78SF	Rule 78 Start With 1st Due Date		
LNA10C	Action Code 10	Action field on the Loans > Account Information > Actions, Holds and Event	3 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details

Mnemonic	Description	CIM GOLD Field Location	Details
LNRLFC	Finance Charge Code	Finance Charge Code field on the Loans > Line-of-Credit Loans, Cards and Promotions , and Loans > Account Information > Consumer Line-of-Credit screens	3 numeric characters
LNRLFD	Date Of Last Finance Charge	Date Last Finance Charge field on the Loans > Line-of-Credit Loans and Cards and Promotions screens	6 numeric characters
LNRLFP	Secured Pledge	Secured By Floating Pledge? field on the Loans > Line-of-Credit Loans screen	Checkbox (0=No, 1=Yes)
LNRLHB	LOC Highest Balance Ever		
LNRLHG	High Balance For Period	High Balance For Period field on the Loans > Line-of-Credit Loans and Cards and Promotions screens	13 numeric characters
LNRLI1	Pmth 5 Billed PI 1		
LNRLI2	Pmth 5 Billed PI 2		
LNRLI3	Pmth 5 Billed PI 3		
LNRLI4	Pmth 5 Billed PI 4		
LNRLI5	Method 5 Billed PI 5		
LNRLLI	Lending Inventory Allowed	Lending Inventory? field on the Loans > Line-of-Credit Loans and Loans > Account Information > Consumer Line-of-Credit screens	Checkbox (0=No, 1=Yes)
LNRLW	Low Balance For Period	Low Balance For Period field on the Loans > Line-of-Credit Loans and Cards and Promotions screens	13 numeric characters
LNRLMA	Minimum Check Amount	Minimum Advance Amount field on the Loans > Line-of-Credit Loans and Loans > Account Information > Consumer Line-of-Credit screens	13 numeric characters
LNRLMD	Minimum Payment Due	Minimum Payment Due field on the Loans > Line-of-Credit Loans, Cards and Promotions , and Loans > Account Information > Consumer Line-of-Credit screens	13 numeric characters
LNRLND	Raw Land	Raw Land field on the Loans > Account Information > Additional Loan Fields screen	Checkbox (0=No, 1=Yes)
LNRLNO	Send Notice Of Overdraft Advance		
LNRLLOC	Allow Balance Over Credit Limit	Allow Balance Over Credit Limit? field on the Loans > Line-of-Credit Loans and	Checkbox (0=No, 1=Yes)

Mnemonic	Description	CIM GOLD Field Location	Details
		Loans > Account Information > Consumer Line-of-Credit screens	
LNRLP	Opt Out of Term Changes	Opt Out of Term Changes field on the Loans > Cards and Promotions screen	Checkbox (0=No, 1=Yes)
LNRLP1	Method 5 Remaining Unpaid 1		
LNRLP2	Method 5 Remaining Unpaid 2		
LNRLP3	Method 5 Remaining Unpaid 3		
LNRLP4	Method 5 Remaining Unpaid 4		
LNRLP5	Method 5 Remaining Unpaid 5		
LNRLPA	Pledged Percent Available	Pledge Percent Available field on the Loans > Line-of-Credit Loans screen	7 numeric characters
LNRLPB	Payment Percentage Of Balance	Payment Percent of Balance field on the Loans > Line-of-Credit Loans, Cards and Promotions , and Loans > Account Information > Consumer Line-of-Credit screens	5 numeric characters
LNRLPC	Prior Finance Charge Due	Prior Finance Charge field on the Loans > Line-of-Credit Loans , Loans > Account Information > Consumer Line-of-Credit , and Call Report Classifications screens	13 numeric characters
LNRLPD	In Pending Default Period		
LNRLPT	Payment Type Code	Payment Type field on the Loans > Line-of-Credit Loans, Cards and Promotions , and Loans > Account Information > Consumer Line-of-Credit screens	3 numeric characters
LNRLRA	Automatic Repayment Amount	Repay Amount field on the Loans > Line-of-Credit Loans screen	3 numeric characters
LNRLRC	Automatic Repayment Code	Repay Code field on the Loans > Line-of-Credit Loans screen	3 numeric characters
LNRLRP	Automatic Repayment Percent	Repay Percent field on the Loans > Line-of-Credit Loans screen	5 numeric characters
LNRLRS	Use rate change schedule	Use Scheduled Rate Changes field on the Loans > Line-of-Credit Loans screen	Checkbox (0=No, 1=Yes)
LNRLSA	Service Fee Amount	Fee Amount field on the Loans > Cards and Promotions and Line-of-Credit Loans screens	13 numeric characters
LNRLSC	Security Acct Number		

Mnemonic	Description	CIM GOLD Field Location	Details
LNRLSD	Servicing Released		
LNRLSF	Secured Account Stmt Freq		
LNRLSH	Principal Short Amount		
LNRLSM	Service Fee Method Code	Method And Frequency field on the Loans > Cards and Promotions and Line-of-Credit Loans screens	3 numeric characters
LNRLSP	Service Fee Percent	Percent field on the Loans > Line-of-Credit Loans screen	7 numeric characters
LNRLST	Stop Advances	Stop All Advance? field on the Loans > Line-of-Credit Loans and Loans > Account Information > Consumer Line-of-Credit screens	Checkbox (0=No, 1=Yes)
LNRLTA	Transfer Acct		
LNRLUR	Use Large LOC Rate		
LNRLWC	Write Checks Against Loan	Write Checks Against Loan? field on the Loans > Line-of-Credit Loans and Loans > Account Information > Consumer Line-of-Credit screens	Checkbox (0=No, 1=Yes)
LNRNST	Closed Due to Reinstatement		
LNROFF	Interest Rate Offset	Payment/Interest Offset/Margin field on the Loans > Account Information > Account Detail , Loans > Line-of-Credit Loans , and Cards and Promotions screens	7 numeric characters
LNROLL	Date Due Date Rolled	Due Date Last Rolled field on the Loans > Account Information > Account Detail and Payment Information screens	8 numeric characters
LNRPDU	Remaining Portion Due	Remaining Portion Due field on the Loans > Account Information > Account Detail , Additional Loan Fields , and Payment Information screens	11 numeric characters
LNRPMT	Rounded Payment	Round Payment to Nearest Dollar field on the Loans > Account Information > Reserves > Account Reserve Detail screen	Checkbox (0=No, 1=Yes)
LNRPTR	Interest Rate Pointer	Interest Rate Pointer field on the Loans > Account Information > Account Detail , Loans > Line-of-Credit Loans , and Cards and Promotions screens	3 numeric characters
LNRR10	Rate Rounded To Nearest 10th	Round Rate field on the Loans > Account Information > ARM Information and Loans > Investor Reporting > Sell Loan To Investor screens	Checkbox (0=No, 1=Yes)

Mnemonic	Description	CIM GOLD Field Location	Details
LNRNRD	Rate Rounded To Nearest 8th	Round Rate field on the Loans > Account Information > ARM Information and Loans > Investor Reporting > Sell Loan To Investor screens	Checkbox (0=No, 1=Yes)
LNRRTQ	Rate Rounded To Nearest 4th	Round Rate field on the Loans > Account Information > ARM Information and Loans > Investor Reporting > Sell Loan To Investor screens	Checkbox (0=No, 1=Yes)
LNRSAD	Opt Out of Auto Defaulting	Opt Out of Auto Default field on the Loans > Cards and Promotions screen	Checkbox (0=No, 1=Yes)
LNRSBM	Rate Starts Below Min	Start Rate Below the Minimum Rate field on the Loans > Account Information > ARM Information screen	Checkbox (0=No, 1=Yes)
LNRSDT	Date Debt Restructured	Debt Restructured Date field on the Loans > Account Information > Additional Loan Fields and Call Report Classifications screens	6 numeric characters
LNRSK1	Credit Risk Score 1	Credit Risk Score field on the Loans > Misc Secured F/M Data screen	3 numeric characters
LNRSK2	Credit Risk Score 2	Credit Risk Score field on the Loans > Misc Secured F/M Data screen	3 numeric characters
LNRSK3	Credit Risk Score 3	Credit Risk Score field on the Loans > Misc Secured F/M Data screen	3 numeric characters
LNRSK4	Credit Risk Score 4	Credit Risk Score field on the Loans > Misc Secured F/M Data screen	3 numeric characters
LNRSK5	Credit Risk Score 5	Credit Risk Score field on the Loans > Misc Secured F/M Data screen	3 numeric characters
LNRSTM	Date Of Last Statement Pmth 5		
LNRTRW	Reported To TRW		
LNRTSN	Use AML Fields	Use ARM Fields field on the Loans > Account Information > Account Detail, Payment Information, and ARM Information screens	Checkbox (0=No, 1=Yes)
LNSACI	Subsidy Accrued Interest		
LNSADV	Advertising Code	Advertising field on the Loans > Account Information > Additional Loan Fields and Loans > Marketing and Collections screens	3 numeric characters
LNSB1M	SBA Under 1 Million	SBA-Gross Uner 1 Million field on the Loans > Account Information > Additional Loan Fields screen	Checkbox (0=No, 1=Yes)

Mnemonic	Description	CIM GOLD Field Location	Details
LNSBAL	Subsidy Balance	Subsidy Balance field on the Loans > Bankruptcy and Foreclosure > Bankruptcy screen	13 numeric characters
LNSBYR	Subsidized By Rate		
LNSCON	Subsidy Constant		
LNSCOP	Special Charge off Processing	Special Charge-Off Processing field on the Loans > Account Information > Additional Loan Fields screen	Checkbox (0=No, 1=Yes)
LNSCYC	Statement Cycle Code	Do Not Send Statements for This Account field on the Loans > Account Information > Additional Loan Fields , Loans > Marketing and Collections , and Loans > Statistics and Summaries > Summary screens	3 numeric characters
LNSEC#	Secured Account Branch		
LNSECA	Secured Account Base	Security Acct field on the Loans > Account Information > Account Detail screen	10 numeric characters
LNSECC	Secured Account Check Digit	Security Acct field on the Loans > Account Information > Account Detail screen	2 numeric characters
LNSECF	Secondary Financing		
LNSECO	Secured Account Office	Security Acct field on the Loans > Account Information > Account Detail screen	4 numeric characters
LNSEFF	Subsidy Effective Date		
LNSELL	Selling Price	Selling Price field on the Loans > Account Information > Additional Loan Fields and Loans > Purchase Disclosure screens	13 numeric characters
LNSEXP	Subsidy Expiration Date		
LNSKCK	Check For 600 IRS Limit	Report Interest Under \$600.00 field on the Loans > Account Information > Account Detail screen	Checkbox (0=No, 1=Yes)
LNSKDG	Skip Delinquency Grading	Skip Delinquency Grading field on the Loans > Misc Secured F/M Data screen	Checkbox (0=No, 1=Yes)
LNSKPA	Skip Analysis	Skip Analysis field on the Loans > Account Information > Reserves > Reserve Analysis screen	Checkbox (0=No, 1=Yes)
LNSKR2	Reserve 2 To Skip Analysis	Exclude Reserve 2 From Analysis field on the Loans > Account Information > Reserves > Reserve Analysis screen	Checkbox (0=No, 1=Yes)
LNSLAC	Date Subsidy Int Last Accrued		
LNSLBL	Balance When Sold	Balance Sold field on the Loans > Investor Reporting > Loan Investor Fields screen	11 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNSLDT	Date Loan Sold To Investor	Date Sold to Investor field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNSLOT	Stop Late Charge Past Orig Term	Stop Late Charge if Past Original Term? field on the Loans > Account Information > Account Detail and Signature Loan Details screens	Checkbox (0=No, 1=Yes)
LNSMLN	Small Claims Loan	Small Claims Loan field on the Loans > Account Information > Additional Loan Fields screen	Checkbox (0=No, 1=Yes)
LNSNXT	Next Subsidy Constant		
LNSPRD	Use SPRDPMTS Routine	Use Spread Payments field on the Loans > Account Information > Account Detail and Payment Information screens	Checkbox (0=No, 1=Yes)
LNSPTR	Subsidy Rate Pointer		
LNSSRC	Source Of Subsidy		
LNSTMC	Statement Code		
LNSTMT	Statement Code	Statement Code field on the Loans > Account Information > Additional Loan Fields screen	3 numeric characters
LNSUBL	Uses Sublimits	Sub-Limits? field on the Loans > Line-of-Credit Loans and Loans > Account Information > Consumer Line-of-Credit screens	Checkbox (0=No, 1=Yes)
LNTALL	Set To Take All When Sold	Take All if Sold 100% field on the Loans > Account Information > Account Detail screen	Checkbox (0=No, 1=Yes)
LNTERM	Term Of Loan	Term field on the Loans > Account Information > Account Detail, Amortization Schedules, Signature Loan Details , and Loans > Investor Reporting > Sell Loan To Investor screens	3 numeric characters
LNTIND	Trading Indicator		
LNTPER	Set To Take When Sold	Take All if Sold on Percentage Basis field on the Loans > Account Information > Account Detail screen	Checkbox (0=No, 1=Yes)
LNTPNT	Rate Tier Pointer		
LNTRAN	Date Of Last Tran	Last Transaction Date field on the Loans > Account Information > Account Detail, Signature Loan Details , and Payment Information screens	6 numeric characters
LNTRBL	Troubled Loan	Troubled Debt field on the Loans > Account Information > Additional Loan	Checkbox (0=No, 1=Yes)

Mnemonic	Description	CIM GOLD Field Location	Details
		Fields screen	
LNTRMO	Original Term	Original Term field on the Loans > Account Information > Additional Loan Fields and Precomputed Loans screens	5 numeric characters
LNTSER	Uses Teaser Rate		
LNTSRT	Teaser Rate	Teaser Rate field on the Loans > Account Information > ARM Information screen	7 numeric characters
LNTYPC	Loan Type	Product Type field on the Loans > Account Information > Amortizing Fees And Costs screen	20 alphanumeric characters
LNTYPE	Loan Type	Type field on the Loans > Account Information > Account Detail , Loans > Bankruptcy and Foreclosure > Bankruptcy Detail , and Loans > Investor Reporting > Sell Loan To Investor screens	2 numeric characters
LNUCIN	Uncollected Interest		
LNUINO	Use Installment Number		
LNUINS	Use INS Records for Credit Life		
LNUMIR	Use Min Interest Required		
LNUNOP	Unopened Loan		
LNUNPN	New And Unopened		
LNUSER	User Defined		
LNUSPN	Use Penalty Rate	Use Penalty Rate field on the Loans > Account Information > Account Detail screen	Checkbox (0=No, 1=Yes)
LNUUCC	Uses UCC Codes		
LNUYS#	Unamortized Yield Security		
LNVALL	Valuation Allowance		
LNDESC	Escrow Reserve Variance		
LNVPRN	Principal Variance	Total Loan Fees Variance field on the Loans > Account Information > Additional Loan Fields screen	
LNV RTE	Use Variable Rate		
LNWACRINT	Calculated Accrued Interest	Long mnemonics that start with "LNW" are special work field calculations designed by GOLDPoint Systems to help users quickly calculate often-used amounts. See this	

Mnemonic	Description	CIM GOLD Field Location	Details
		mnemonic in the table on the Appendix B - Special Loan Field Mnemonics page for more information.	
LNWCALC	Lesser of Appraisal or Sale Price	Long mnemonics that start with "LNW" are special work field calculations designed by GOLDPoint Systems to help users quickly calculate often-used amounts. See this mnemonic in the table on the Appendix B - Special Loan Field Mnemonics page for more information.	
LNWCDQC	Calculated Contractual Code		
LNWCLTV	Current LTV	Long mnemonics that start with "LNW" are special work field calculations designed by GOLDPoint Systems to help users quickly calculate often-used amounts. See this mnemonic in the table on the Appendix B - Special Loan Field Mnemonics page for more information.	
LNWDCAT	Calculated Delinquency Category	<p>If your institution uses special account delinquency (institution option Institution Option UDQG is enabled), use this field to display the calculated delinquency category for a loan. The loan must be a precomputed loan or a daily simple-interest bearing loan (payment method 3 or 6).</p> <p>The term "grading an account" or "grading" is used to describe the process of artificially making an account more current than it actually is. See Special Delinquency for Consumer Loans in the Loans > Account Detail help for more information.</p>	
LNWDFAM	Deferment Amount		
LNWDUMAT	Earliest of Due or Maturity Dates	Long mnemonics that start with "LNW" are special work field calculations designed by GOLDPoint Systems to help users quickly calculate often-used amounts. See this mnemonic in the table on the Appendix B - Special Loan Field Mnemonics page for more information.	
LNWEDFR	Eligible Deferments		
LNWIDY	Within Due Date Days	Within Due Date Day field on the Loans > Account Information > Signature Loan Details and Payment Information screens	Checkbox (0=No, 1=Yes)

Mnemonic	Description	CIM GOLD Field Location	Details
LNWLIPD	Disbursed LIP Balance	Long mnemonics that start with "LNW" are special work field calculations designed by GOLDPoint Systems to help users quickly calculate often-used amounts. See this mnemonic in the table on the Appendix B - Special Loan Field Mnemonics page for more information.	
LNWLTOT	Total Charges	Long mnemonics that start with "LNW" are special work field calculations designed by GOLDPoint Systems to help users quickly calculate often-used amounts. See this mnemonic in the table on the Appendix B - Special Loan Field Mnemonics page for more information.	
LNWPDUE	Payment Due	Long mnemonics that start with "LNW" are special work field calculations designed by GOLDPoint Systems to help users quickly calculate often-used amounts. See this mnemonic in the table on the Appendix B - Special Loan Field Mnemonics page for more information.	
LNWRATL	Large Effective Rate		
LNWRATX	Effective Rate	Long mnemonics that start with "LNW" are special work field calculations designed by GOLDPoint Systems to help users quickly calculate often-used amounts. See this mnemonic in the table on the Appendix B - Special Loan Field Mnemonics page for more information.	
LNWRDCC	Calculated Recency Code		
LNWRLAV	Average Daily Balance	LOC Remaining field on the Loans > Investor Reporting > Sell Loan To Investor screen	
LNWTDUE	Total Due	Long mnemonics that start with "LNW" are special work field calculations designed by GOLDPoint Systems to help users quickly calculate often-used amounts. See this mnemonic in the table on the Appendix B - Special Loan Field Mnemonics page for more information.	
LNWUNDISB	Remaining Undisbursed	Long mnemonics that start with "LNW" are special work field calculations designed by GOLDPoint Systems to help users quickly calculate often-used amounts. See this mnemonic in the table on the Appendix B - Special Loan Field Mnemonics page for more information.	

Mnemonic	Description	CIM GOLD Field Location	Details
LNWWWA	Use Internet	Use Internet field on the Loans > Account Information > Account Detail screen	Checkbox (0=No, 1=Yes)
LNWXFEEI	Miscellaneous Income Fees		
LNWXFEER	Miscellaneous Receivable Fees	Balance + Fees field on the Loans > Account Information > Account Detail screen	15 numeric characters
LNXBIL	Use Extended Billing Records		
LNXFR#	Formatted Transfer Account Number		
LNXFRA	Transfer Account Base	Transfer Acct field on the Loans > Account Information > Account Detail screen	10 numeric characters
LNXFRC	Transfer Account Check Digit	Transfer Acct field on the Loans > Account Information > Account Detail screen	2 numeric characters
LNXFRO	Transfer Account Office	Transfer Acct field on the Loans > Account Information > Account Detail screen	4 numeric characters
LNVDAF	YTD Misc Fees Assessed	Year to Assessed field on the Loans > Cards and Promotions screens	11 numeric characters

CIF Phone Numbers P0

CIF Email Addresses E0

Loan History LH

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **Loan History LH** master record category. This master record can also be viewed by manually entering "FPLH" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

WARNING: This record uses an automated archiving feature to reduce strain on system processing. FPLH items are archived after two years (24 months). Once an item is archived, [loan history](#) will still display it, but the actual records are removed from FPLH. Therefore, if a loan is moved after more than 24 months on the system, only a partial history is moved with it. This will cause the loan to appear out of balance on the Loans > [History](#) screen as well as in any generated statements.

For this reason, loans that have been open in the system for more than 2 years should not be moved using the Loans > [Inter-Office Move](#) screen.

The Loan LN master record can be accessed underneath this record in the GOLDWriter **Report Wizard** tree view.

Report Wizard Step 2: Select Fields - T	
Field	Description
<input type="checkbox"/> LH4NBR	Loan Acct Nbr

Prod Code Definition PC

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **Prod Code Definition PC** master record category. This master record can also be viewed by manually entering "FPPC" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

Report Wizard Step 2: Select Fields - T

..... Prod Code Definition PC [1]

Field	Description
<input type="checkbox"/> PC2SID	Images 2 Sided Form
<input type="checkbox"/> PCAANL	Uses Acct Analysis
<input type="checkbox"/> PCACDN	Nbr Images Across down
<input type="checkbox"/> PCADVC	Advertising Code

This table is organized alphabetically by field **Mnemonic**.

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PC2SID	Images 2 Sided Form	Print 2-Sided Statement field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			= Y e s)
PCAANL	Uses Acct Analysis	Uses Account Analysis field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCACDN	Nbr Images Across down	Images Across/Down field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCADVC	Advertising Code	Advertising Message field on the Deposits > Definitions > Product Codes screen	4 n u m e r i c c h a r a c t e r s
PCALDP	Allow Deposits	Allow Deposits field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCALWD	Allow Withdrawal	Allow Withdrawals field on the Deposits > Definitions > Product Codes screen	C h e c k b

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o x (0 = N o , 1 = Y e s)
PCBALI	Min Bal To Rec Int	Required Average Balance for Interest field on the Deposits > Definitions > Product Codes screen	1 1 n u m e r i c c h a r a c t e r s
PCBLRT	Blended Rate	Blended Rate field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 =)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			N o , 1 = Y e s)
PCBNRT	Bonus Rate	Bonus Rate field on the Deposits > Definitions > Product Codes screen	7 n u m e r i c c h a r a c t e r s
PCBPQB	Bump Rate Qual Balnc	Bump Rate Qualified Balance field on the Deposits > Definitions > Product Codes screen	1 1 n u m e r i c c h a r c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCBPTR	Bump Rate Tier Pntr	Bump Rate-Rate Pointer field on the Deposits > Definitions > Product Codes screen	r s 3 n u m e r i c h a r a c t e r s
PCBSRT	Base Rate		
PCCCTM	Cd Sched Term	Term/Type field on the Deposits > Definitions > Product Codes screen	4 n u m e r i c h a r a c t e r s
PCCDRN	Renewable Acct	Renewable Account field on the Deposits > Definitions > Product Codes screen	C h e c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			k b o x (0 = N o , 1 = Y e s)
PCCNOF	Conditional Offset	Conditional Offset field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCCOND	Conduit Ira	Conduit IRA field on the Deposits > Definitions > Product Codes screen	C h e c k b o x

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			(0 = No, 1 = Yes)
PCCPDC	Cd Sched Prod Code	Product Code field on the Deposits > Definitions > Product Codes screen	4 n u m e r i c h a r a c t e r s
PCCRPT	Cd Sched Rate Pntr	Rate Pointer field on the Deposits > Definitions > Product Codes screen	3 n u m e r i c h a r a c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			t e r s
PCCRTE	Cd Sched Int Rate	Rate field on the Deposits > Definitions > Product Codes screen	7 n u m e r i c h a r a c t e r s
PCCST1	Cd Sched Status 1	New Maturity/Notice Only/High Rate field on the Deposits > Definitions > Product Codes screen	3 n u m e r i c h a r a c t e r s
PCCTCD	Criteria Code	Criteria Code field on the Deposits > Definitions > Product Codes screen	2 n u m

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r i c h a r a c t e r s
PCCTPT	Cd Sched Tier Pntr	Tier Pointer field on the Deposits > Definitions > Product Codes screen	3 n u m e r i c h a r a c t e r s
PCCTRM	Term	Maturity Term/Type field on the Deposits > Definitions > Product Codes screen	4 n u m e r i c h a r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a c t e r s
PCCTP	Cd Sched Term Type		
PCDCON	Deconvert Account		
PCDEEP	Delay Deposit	Deposit Delay field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCDEFL	Analysis Default Num	Analysis Default Number field on the Deposits > Definitions > Product Codes screen	4 n u m e r i c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCDEMP	Employee Account	Employee Account field on the Deposits > Definitions > Product Codes screen	e r s C h e c k b o x (0 = N o , 1 = Y e s)
PCDFCA	Club Account Feature	Club Account field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCDFCD	Certificate Feature	Certificate field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCDFCK	Checking Feature	Checking field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCDFIN	Interest Feature	Interest field on the Deposits > Definitions > Product Codes screen	C h e c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			k b o x (0 = N o , 1 = Y e s)
PCDFOD	Overdraft Feature	Overdraft field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCDFRT	Retirement Feature	Retirement field on the Deposits > Definitions > Product Codes screen	C h e c k b o x

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			(0 = No, 1 = Yes)
PCDMEM	Memo Post	Memo Post Capable field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = No, 1 = Yes)
PCDNEG	Can Acct Go Neg	Can Account Go Negative field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o , 1 = Y e s)
PCDPTP	Deposit Type Code	Deposit Type field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c h a r a c t e r s
PCDSEH	Use Extend Ucf Hold	Use Extended UCF Holds field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCDSFH	Enforce Ucf lopts	Enforce Uncollected Funds Options field on the Deposits > Definitions > Product Codes screen	s) C h e c k b o x (0 = N o , 1 = Y e s)
PCDSNH	New Act Ucf Holds	Do New Account UCF Holds field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCDSTS	Term Until Doormant	Term Until Dormant field on the Deposits > Definitions > Product Codes screen	2 n

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			u m e r i c h a r a c t e r s
PCDSTT	Type Til Dorm Mmddy	Term Until Dormant field on the Deposits > Definitions > Product Codes screen	1 n u m e r i c h a r a c t e r
PCDSUT	Unspec Hld Exp Today	Unspecified Hold Expires Today field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 =

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			N o , 1 = Y e s)
PCDUCF	Uses Uncol Funds	Use Uncollected Funds field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCDYME	Days Before Me Int	Days Before Month-End Interest field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCDYMT	Days Before Mat Int	Days Before Maturity Interest field on the Deposits > Definitions > Product Codes screen	e r s 2 n u m e r i c c h a r a c t e r s
PCEDUC	Education Ira	ESA field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCFPTR	Use Tmp As Flat Rt	Grace Flat Rate field on the Deposits > Definitions > Product Codes screen	C h e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c k b o x (0 = N o , 1 = Y e s)
PCFRBK	Images Front back	Items Front and Back field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCFSTS	Keep Fm Hist Term	Keep F/M History Term/Type field on the Deposits > Definitions > Product Codes screen	2 n u m e r i

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c h a r a c t e r s
PCFSTT	Keep Fm Type Mmddy	Keep F/M History Term/Type field on the Deposits > Definitions > Product Codes screen	1 n u m e r i c h a r a c t e r
PCGDFP	Force Pin Change	Force PIN Change field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 =

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			Y e s)
PCGDIN	Restrict Internet	Restrict Internet field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCGDPH	Restrict Goldphone	Restrict GOLD Phone field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCGENL	General Category	General Category field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c c h a r a c t e r s
PCGLPF	Misc Posting Field	G/L Miscellaneous Posting Field field on the Deposits > Definitions > Product Codes screen	4 n u m e r i c c h a r a c t e r s
PCGNTC	Generate Notice		
PCGPXF	Restrict Gp Xfers	Deny Remote Banking Transfers field on the Deposits > Definitions > Product Codes screen	C h e c k b o

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			x (0 = N o , 1 = Y e s)
PCGRAC	Renewal Grace Days	Use Renewal Grace Days field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCGSTS	Keep Image Term	Keep Images Term field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c c h a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r a c t e r s
PCGSTT	Keep Image Type Mmddy		
PCHGHA	High Account Number	Maximum Range field on the Deposits > Definitions > Product Codes screen	1 0 n u m e r i c c h a r a c t e r s
PCHIGH	Use Higher Rate		
PCHIGR	High Rate In Renewl	Use High Rate Renewal field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			= Y e s)
PCHSTS	Keep History Term	Keep History Term/Type field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c h a r a c t e r s
PCHSTT	Keep Hist Type Mmddy	Keep History Term/Type field on the Deposits > Definitions > Product Codes screen	1 n u m e r i c h a r a c t e r
PCIANV	Anniversary Int	Anniversary Interest field on the Deposits > Definitions > Product Codes screen	C h e c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			k b o x (0 = N o , 1 = Y e s)
PCIDST	Interest Destination	Interest Destination field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c c h a r a c t e r s
PCIMAG	Image Account	Imaged Checking Account field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c c h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a r a c t e r s
PCIMAT	Interest At Mat	Post Interest at Maturity field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCINAC	Inactive Account	Inactive Product Code field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			Y e s)
PCINBC	Interest Bal Code	Interest Balance Code field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c c h a r a c t e r s
PCINFQ	Interest Frequency	Interest Frequency field on the Deposits > Definitions > Product Codes screen	3 n u m e r i c c h a r a c t e r s
PCINGR	Int During Grace	Interest During Grace Days field on the Deposits > Definitions > Product Codes screen	C h e c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			k b o x (0 = N o , 1 = Y e s)
PCINMT	Interest Method	Interest Method field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c c h a r a c t e r s
PCINPD	In Periodic Distrib	Retirement in Distribution field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			= N o , 1 = Y e s)
PCISTS	Term Until Inactive	Term Until Inactive field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c c h a r a c t e r s
PCISTT	Type Till Inact Mmddy	Term Until Inactive field on the Deposits > Definitions > Product Codes screen	1 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCIUCF	Pay Int On Ucf	Pay Interest on Uncollected Funds field on the Deposits > Definitions > Product Codes screen	e r C h e c k b o x (0 = N o , 1 = Y e s)
PCLAND	Images Landscape	Landscape Format field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCLDPC	Limit Deps In Cycle	Limit of Deposits in Cycle field on the Deposits > Definitions > Product Codes	3 n

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
		screen	u m e r i c h a r a c t e r s
PCLMCK	Limit Nbr Cks In Cycle	Limit of Number of Checks in Cycle field on the Deposits > Definitions > Product Codes screen	3 n u m e r i c h a r a c t e r s
PCLOWA	Low Account Number	Minimum Range field on the Deposits > Definitions > Product Codes screen	1 0 n u m e r i c c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			h a r a c t e r s
PCLWDC	Limit Wd In Cycle	Limit of Withdrawals in Cycle field on the Deposits > Definitions > Product Codes screen	3 n u m e r i c c h a r a c t e r s
PCLXFC	Limit Xfer In Cycle	Limit of Transfers in Cycle field on the Deposits > Definitions > Product Codes screen	3 n u m e r i c c h a r a c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCMGTS	Mgmt Summary Category	Management Summary Report Category field on the Deposits > Definitions > Product Codes screen	r s 4 n u m e r i c c h a r a c t e r s
PCMNBL	Minimum Bal Limit	Minimum Balance Limit field on the Deposits > Definitions > Product Codes screen	1 1 n u m e r i c c h a r a c t e r s
PCMNCA	Minimum Check Amount	Minimum Check Amount field on the Deposits > Definitions > Product Codes screen	7 n u m e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r i c c h a r a c t e r s
PCMNSW	Minimum Sweep Bal	Sweep Minimum Balance field on the Deposits > Definitions > Product Codes screen	1 1 n u m e r i c c h a r a c t e r s
PCNAFL	No Auto Close	Never Automatically Close Account field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (O = N

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o , 1 = Y e s)
PCNGLM	Limit To Go Negative	Negative Balance Limit field on the Deposits > Definitions > Product Codes screen	1 1 n u m e r i c h a r a c t e r s
PCNMAT	New Maturity		
PCNWAG	New Mat If Dp Grace	New Maturity Deposit in Grace field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 =)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			Y e s)
PCNWMT	New Mat From Hi Dt	New Maturity Date from High Date field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCNWWG	New Mat If Wd Grace	New Maturity Withdrawal in Grace field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCNXPC	Next Product Code	Next Product Code Schedule field on the Deposits > Definitions > Product Codes screen	4 n u m e r i c c h a r a c t e r s
PCODA7	Od Inc Amt For Cd 7	Incremental Amount field on the Deposits > Definitions > Product Codes screen	
PCODAM	Overdraft Inc Amt	Incremental Amount field on the Deposits > Definitions > Product Codes screen	5 n u m e r i c c h a r a c t e r s
PCODEP	Images Of Deps Only		
PCODFC	Overdraft Fee Code	Fee Code field on the Deposits > Definitions > Product Codes screen	2 n u m

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r i c h a r a c t e r s
PCODFF	Overdraft Flat Fee	Flat Fee field on the Deposits > Definitions > Product Codes screen	1 n u m e r i c h a r a c t e r s
PCODPR	Od Fee PCT Of Xfer	Fee - Percent of Transfer field on the Deposits > Definitions > Product Codes screen	5 n u m e r i c h a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r a c t e r s
PCOTCL	Limit Otc Cks In Cyc	Limit of OTC Checks in Cycle field on the Deposits > Definitions > Product Codes screen	3 n u m e r i c c h a r a c t e r s
PCOVDC	Overdraft Amt Code	Amount Code field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCPDCD	Product Code	Code field on the Deposits > Definitions > Product Codes screen	4 n u m e r i c h a r a c t e r s
PCPDDS	Product Code Descr	Description field on the Deposits > Definitions > Product Codes screen	3 0 a l p h a n u m e r i c h a r a c t e r s
PCPERS	Personal Account	Personal Account field on the Deposits > Definitions > Product Codes screen	C h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e c k b o x (0 = N o , 1 = Y e s)
PCPNCD	Penalty Code	Penalty Code field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c h a r a c t e r s
PCPNIC	Pending Inclearing	Show Pending Items field on the Deposits > Definitions > Product Codes screen	C h e c k b o x

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			(0 = No, 1 = Yes)
PCPOFQ	Frequency Of Payout	Club - Frequency of Payout field on the Deposits > Definitions > Product Codes screen	2 n u m e r i c h a r a c t e r s
PCPOKP	Amount To Not Payout	Club - Amount to Retain field on the Deposits > Definitions > Product Codes screen	1 n u m e r i c h a r a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c t e r s
PCPSBK	Passbook Account	Passbook Account field on the Deposits > Definitions > Product Codes screen	C h e c k b o o x (0 = N o , 1 = Y e s)
PCRAIM	Ret Av Int At Mat	Retain Available Interest at Maturity field on the Deposits > Definitions > Product Codes screen	C h e c k b o o x (0 = N o , 1 = Y e s)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			s)
PCRATE	Interest Rate		
PCRHSA	Health Savings Acct	Health Savings field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCRIRA	Ira Account	Traditional field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
PCROFF	Rate Offset	Interest Rate Offset field on the Deposits > Definitions > Product Codes screen	7 n u m e r i c c h a r a c t e r s
PCROTH	Roth Ira	Roth IRA field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCRPTR	Rate Pointer	Rate Pointer field on the Deposits > Definitions > Product Codes screen	3 n u m e r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			i c c h a r a c t e r s
PCRQLP	Qualified Plan	Qualified Plan field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (0 = N o , 1 = Y e s)
PCRTMN	Minimum Rate	Minimum Rate field on the Deposits > Definitions > Product Codes screen	7 n u m e r i c c h a r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a c t e r s
PCRTMX	Maximum Rate	Maximum Rate field on the Deposits > Definitions > Product Codes screen	7 n u m e r i c c h a r a c t e r s
PCRTSC	Rtrmnt Svc Chrg	Code field on the Deposits > Definitions > Product Codes screen	4 n u m e r i c c h a r a c t e r s
PCSCFQ	Service Chg Freq	Service Charge Codes and Frequency field on the Deposits > Definitions > Product	3 n

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
		Codes screen	u m e r i c h a r a c t e r s
PCSCFY	Service Charge Freq		
PCSCYC	Statement Cycle	Statement Cycle field on the Deposits > Definitions > Product Codes screen	3 n u m e r i c h a r a c t e r s
PCSEMH	Skip E Ach Mon Holds	Skip E-ACH Holds field on the Deposits > Definitions > Product Codes screen	C h e c k b o x (

Mnemonic	Description	CIM GOLD Field Location	Details
			a c t e r s
GZTRNM	Terminal Name		
GZWDESC	FM Field Description		
GZWFLDNM	FM Field Name		
GZWNDTA	FM Field New Data		
GZWODTA	FM Field Old Data		
GZWREP	FM Field Repeat Count		
GZWRPTRNBR	Rate Pointer Number		

Batch Report Setup NR

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **Batch Report Setup NR** master record category. This master record can also be viewed by manually entering "FPNR" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

The following master records can be accessed underneath this record in the GOLDWriter Report Wizard tree view (see below):

- [Report Names ND](#)
- [Address NA](#)
- [Alternate Address NA](#)
- [Account NT](#)
- [Acct That Gets Checks NT](#)

Report Wizard Step 2: Select Fields - T

Field	Description
<input type="checkbox"/> NRAADE	Alt Address End Date
<input type="checkbox"/> NRAADS	Alt Address Start Dt
<input type="checkbox"/> NRADDR	Address Pointer
<input type="checkbox"/> NRADVVC	Advertising Code
<input type="checkbox"/> NRALTA	Alternate Address
<input type="checkbox"/> NRCIND	Acct That Gets Chks
<input type="checkbox"/> NRCJCD	Conjunction Code

These mnemonics have been imported over from the old CIF system in GOLDVision (function 43/44) to become the [Combined Statements](#) tab on the Customer Relationship Management > **Households** screen in CIM GOLD. This table is organized alphabetically by field **Mnemonic**.

Mnemonic	Description	CIM GOLD Field Location	Details
NRAADE	Alt Address End Date	Effective To field on the Customer Relationship Management > Households screen	6 numeric characters
NRAADS	Alt Address Start Dt	Effective From field on the Customer Relationship Management > Households screen	6 numeric characters
NRADDR	Address Pointer	Address field on the Customer Relationship Management > Households screen	3 numeric characters
NRADVC	Advertising Code	Advertising Code field on the Customer Relationship Management > Households screen	4 numeric characters
NRALTA	Alternate Address	Alternate Address field on the Customer Relationship Management > Households screen	3 numeric characters
NRCIND	Acct That Gets Chks	Account to Receive Checks field on the Customer Relationship Management > Households screen	3 numeric characters
NRCJCD	Conjunction Code	Conjunction Description field	3 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
		on the Customer Relationship Management > Households screen	
NRMEMO	Memo Information	Checks Memo field on the Customer Relationship Management > Households screen	40 alphanumeric characters
NRMLCD	Mail Code	Mail Code field on the Customer Relationship Management > Households screen	4 numeric characters
NRMSDT	Miscellaneous Data		
NRNAME	Name Sequence	Name field on the Customer Relationship Management > Households screen	3 numeric characters
NRODSC	Owner Description Cd	Account Ownership field on the Customer Relationship Management > Households screen	3 numeric characters
NRPOW1	Ownership 1 Print	Ownership field on the Customer Relationship Management > Households screen	Checkbox (0=No, 1=Yes)
NRPOW2	Ownership 2 Print	Ownership field on the Customer Relationship Management > Households screen	Checkbox (0=No, 1=Yes)
NRPOW3	Ownership 3 Print	Ownership field on the Customer Relationship	Checkbox (0=No, 1=Yes)

Mnemonic	Description	CIM GOLD Field Location	Details
		Management > Households screen	
NRPOW4	Ownership 4 Print	Ownership field on the Customer Relationship Management > Households screen	Checkbox (0=No, 1=Yes)
NRREPT	Report Number	Report Number field on the Customer Relationship Management > Households screen	4 numeric characters
NRSEIN	Household Number	Household field on the Customer Relationship Management > Households screen	12 numeric characters
NRSEQU	Sequence Counter		
NRSTA1	1st Status Flag		
NRSTMT	Statement Number	Statement Number field on the Customer Relationship Management > Households screen	4 numeric characters
NRTSEQ	Account Sequence	Accounts field on the Customer Relationship Management > Households screen	3 numeric characters

Loan User Def Flds UF

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **Loan User Def Flds UF** master record category. This master record can also be viewed by manually entering "FPUF" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

The Loan LN master record can be accessed underneath this record in the GOLDWriter **Report Wizard** tree view.

Field	Description
<input type="checkbox"/> UF4NBR	Loan Acct Nbr
<input type="checkbox"/> UFC01	CL7 C1
<input type="checkbox"/> UFC02	CL7 C2
<input type="checkbox"/> UFC03	CL7 C3
<input type="checkbox"/> UFC04	CL7 C4

This table is organized alphabetically by field **Mnemonic**. All fields in the **Loan User Def Flds UF** master record correspond to user-defined fields on the Loans > Account Information > [User Defined Fields](#) screen. The **User Defined Fields Tab and Field Number** column in the table indicates each field's tab location and field number on that screen.

Mnemonic	Description	User Defined Fields Tab and Field Number	Details
UF4NBR	Loan Acct Nbr

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			m e r i c h a r a c t e r
DLPDCK	Paid Via Check	Paid via Check field on the Dealer Setup > Dealers screen	1 n u m e r i c h a r a c t e r
DLPDEC	Process Decision		
DLPDOH	Process Decision During Off Hours	Only During Off-Hours field on the Dealer Setup > Dealers screen	C h e c k b o x (0 = N

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o , 1 = Y e s)
DLPEOD	Paid Sum Eod		
DLPEOM	Paid Sum Eom		
DLPHON	Telephone Number	Phone field on the Dealer Setup > Dealers screen	1 0 n u m e r i c h a r a c t e r s
DLPPR1	Approval Changed By	Changed By field on the Dealer Setup > Dealers screen	1 2 a l p h a b e t i c h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a r a c t e r s
DLPPR2	Approval Change Date	Changed On field on the Dealer Setup > Dealers screen	8 n u m e r i c c h a r a c t e r s
DLPPST	Approval Status	Approval Status field on the Dealer Setup > Dealers screen	1 a l p h a b e t i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DLPTAX	Personal Tax	Personal Tax Returns field on the Dealer Setup > Dealers screen	e r C h e c k b o x (0 = N o , 1 = Y e s)
DLQSID	Queue Id	Specific Queue field on the Dealer Setup > Dealers screen	4 n u m e r i c c h a r a c t e r s
DLRECO	Recourse	Recourse Dealer field on the Dealer Setup > Dealers screen	C h e c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			k b o x (0 = N o , 1 = Y e s)
DLREFR	Reference Line	Reference field on the Dealer Setup > Dealers screen	2 5 a l p h a n u m e r i c h a r a c t e r s
DLREVV	REVIEW	Review field on the Dealer Setup > Dealers screen	C h e c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			k b o x (0 = N o , 1 = Y e s)
DLRGST	Reg Approval Status		
DLRPID	Inactive Dt Owner		
DLSCHID	Schedule Date		
DLSCHG	Service Charge		
DLSLSA	Sales Area	Sales Area field on the Dealer Setup > Dealers screen	4 5 a l p h a n u m e r i c c h a r a c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DLSOOT	SOLD OUT OF TRUST	Sold out of Trust field on the Dealer Setup > Dealers screen	r s C h e c k b o x (0 = N o , 1 = Y e s)
DLSSN1	Ssn Ein Number	EIN field on the Dealer Setup > Dealers screen	1 0 n u m e r i c h a r a c t e r s
DLSTA1	1st Status		
DLSTAT	STATUS BYTE		

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DLSTRD	Plan Start Date	Approval Start Date field on the Dealer Setup > Dealers screen	8 n u m e r i c c h a r a c t e r s
DLSTTE	State	State field on the Dealer Setup > Dealers screen	2 a l p h a b e t i c c h a r a c t e r s
DLSYSS	System Approval Stat		
DLTBUS	Business Type		
DLTRDF	Trade Reference		

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DLTMTD	TERMINATED	Terminated field on the Dealer Setup > Dealers screen	C h e c k b o x (0 = N o , 1 = Y e s)
DLTNAM	Dba Trade Name	Other Name (Parent) field on the Dealer Setup > Dealers screen	9 9 a l p h a b e t i c c h a r a c t e r s
DLTRDS	Trade Style		
DLTRDV	Trade Ref Verified		

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DLTXTA	Want Text Alerts	Wants Text Alerts field on the Dealer Setup > Dealers screen	C h e c k b o x (0 = N o , 1 = Y e s)
DLUNQU	NO LONGER QUALIFIED	No Longer Qualified field on the Dealer Setup > Dealers screen	C h e c k b o x (0 = N o , 1 = Y e s)
DLUSR1	User Defined	User Fld 1 field on the Dealer Setup > Dealers screen	2 5 a l

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			p h a n u m e r i c h a r a c t e r s
DLUSR2	User Defined 2	User Fld 2 field on the Dealer Setup > Dealers screen	2 5 a l p h a n u m e r i c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DLVLID	Valid Id	Valid ID field on the Dealer Setup > Dealers screen	C h e c k b o x (0 = N o , 1 = Y e s)
DLVPST	Vice Pres Approve St		
DLWAR1	Warranty Type		
DLWAR2	Warranty Description		
DLWARR	Warranty		
DLWEBA	Web Address	Web Addr field on the Dealer Setup > Dealers screen	9 9 a l p h a n u m e r i c c h a r a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			t e r s
DLDIP1	Zip	Zip field on the Dealer Setup > Dealers screen	1 0 n u m e r i c h a r a c t e r s

Miscellaneous Func Security FS

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **Miscellaneous Func Security FS** master record category. This master record can also be viewed by manually entering "FPFS" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

Report Wizard Step 2: Select Fields - T

..... Miscellaneous Func Security FS [1]

Field	Description
<input type="checkbox"/> FSAS1A	Restrict Approved 1
<input type="checkbox"/> FSAS1D	Restrict Denied 1
<input type="checkbox"/> FSAS1T	Restrict Temp App 1
<input type="checkbox"/> FSAS1U	Restrict Unapprov 1
<input type="checkbox"/> FSAS2A	Restrict Approved 2
<input type="checkbox"/> FSAS2D	Restrict Denied 2

Many of these mnemonics act as field level security functions and can be seen in the [Miscellaneous Function Security](#) record type on the [Field Level Security](#) screen/tab.

This table is organized alphabetically by field **Mnemonic**.

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
FSAS1A	Restrict Approved 1		
FSAS1D	Restrict Denied 1		
FSAS1T	Restrict Temp App 1		
FSAS1U	Restrict Unnaprov 1		
FSAS2A	Restrict Approved 2		
FSAS2D	Restrict Denied 2		
FSAS2T	Restrict Temp App 2		
FSAS2U	Restrict Unnaprov 2		
FSAS3A	Restrict Approved 3		
FSAS3D	Restrict Denied 3		
FSAS3T	Restrict Temp App 3		
FSAS3U	Restrict Unnaprov 3		
FSAS4A	Restrict Approved 4		
FSAS4D	Restrict Denied 4		
FSAS4T	Restrict Temp App 4		
FSAS4U	Restrict Unnaprov 4		
FSAS5A	Restrict Approved 5		
FSAS5D	Restrict Denied 5		
FSAS5T	Restrict Temp App 5		
FSAS5U	Restrict Unnaprov 5		
FSASSQ	Assign Queue		
FSBKAT	Bankruptcy Attorney Trustee Link	Use this function to toggle the appearance of the Attorneys/Trustees link on the Loans > Bankruptcy and Foreclosure > Bankruptcy Detail screen. See help for that screen for more information.	C h e c k b o x (0 = N o

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			, 1 = Yes)
FSBKC2	Bankruptcy CP2 Link	Use this function to toggle the appearance of the CP2 link on the Loans > Bankruptcy and Foreclosure > Bankruptcy Detail screen. See help for that screen for more information.	C h e c k b o x (0 = No , 1 = Yes)
FSBKCI	Bankruptcy Claim Information Link	Use this function to toggle the appearance of the Claim Information link on the Loans > Bankruptcy and Foreclosure > Bankruptcy Detail screen. See help for that screen for more information.	C h e c k b o x (0 = No , 1 = Y

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e s)
FSBKCL	Bankruptcy Collateral Link	Use this function to toggle the appearance of the Collateral link on the Loans > Bankruptcy and Foreclosure > Bankruptcy Detail screen. See help for that screen for more information.	C h e c k b o x (0 = N o , 1 = Y e s)
FSBKCM	Bankruptcy Comments Link	Use this function to toggle the appearance of the Comments link on the Loans > Bankruptcy and Foreclosure > Bankruptcy Detail screen. See help for that screen for more information.	C h e c k b o x (0 = N o , 1 = Y e s)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
FSBKHI	Bankruptcy History Link	Use this function to toggle the appearance of the History link on the Loans > Bankruptcy and Foreclosure > Bankruptcy Detail screen. See help for that screen for more information.	C h e c k b o x (0 = N o , 1 = Y e s)
FSBKIB	Bankruptcy PC To IB Link	Use this function to toggle the appearance of the PC to IB link on the Loans > Bankruptcy and Foreclosure > Bankruptcy Detail screen. See help for that screen for more information.	C h e c k b o x (0 = N o , 1 = Y e s)
FSBKLI	Bankruptcy Loan Information Link	Use this function to toggle the appearance of the Loan Information link on the Loans > Bankruptcy and Foreclosure > Bankruptcy	C h e c k

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
		Detail screen. See help for that screen for more information.	k b o x (0 = N o , 1 = Y e s)
FSBKPC	Bankruptcy Proof Of Claim	Use this function to toggle the appearance of the Proof Of Claim link on the Loans > Bankruptcy and Foreclosure > Bankruptcy Detail screen. See help for that screen for more information.	C h e c k b o x (0 = N o , 1 = Y e s)
FSBKPI	Bankruptcy POC Itemization Link	Use this function to toggle the appearance of the POC Itemization link on the Loans > Bankruptcy and Foreclosure > Bankruptcy Detail screen. See help for that screen for more information.	C h e c k b o x

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			(0 = No, 1 = Yes)
FSBKRE	Bankruptcy Real Estate Link	Use this function to toggle the appearance of the Real Estate link on the Loans > Bankruptcy and Foreclosure > Bankruptcy Detail screen. See help for that screen for more information.	C h e c k b o x (0 = No, 1 = Yes)
FSBKTL	Bankruptcy Trade Line Link	Use this function to toggle the appearance of the Trade Line link on the Loans > Bankruptcy and Foreclosure > Bankruptcy Detail screen. See help for that screen for more information.	C h e c k b o x (0 = No)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s (o , 1 = Y e s)

Dealer Record DL

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **Dealer DL** master record category. This master record can also be viewed by manually entering "GTDL" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

Field	Description
<input type="checkbox"/> DLAAPV	Approve All Branches
<input type="checkbox"/> DLACH1	ACH Bank Name
<input type="checkbox"/> DLACHA	ACH Address
<input type="checkbox"/> DLACHB	ACH Account Number
<input type="checkbox"/> DLACHC	ACH City

This table is organized alphabetically by field **Mnemonic**.

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DLAAPV	Approve All Branches	All Branches field on the Dealer Setup > Dealers screen	C h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e c k b o x (0 = N o , 1 = Y e s)
DLACH1	ACH Bank Name	BankName field on the Dealer Setup > Dealers screen	6 0 a l p h a n u m e r i c c h a r a c t e r s
DLACHA	ACH Address	Address field on the Dealer Setup > Dealers screen	4 5

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a l p h a n u m e r i c h a r a c t e r s
DLACHB	ACH Account Number	Account # field on the Dealer Setup > Dealers screen	2 2 n u m e r i c h a r a c t e r s
DLACHC	ACH City	City field on the Dealer Setup > Dealers screen	2 2 a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			I p h a b e t i c h a r a c t e r s
DLACHE	Want ACH Emails	ACH Email field on the Dealer Setup > Dealers screen	C h e c k b o x (0 = N o , 1 = Y e s)
DLACHN	ACH Rout Trans Number	Routing Transit field on the Dealer Setup > Dealers screen	1 0 n u m

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r i c h a r a c t e r s
DLACHO	ACH Contact Name	Contact Name field on the Dealer Setup > Dealers screen	3 0 a l p h a b e t i c h a r a c t e r s

Dealer Option DO

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **Dealer Option DO** master record category. This master record can also be viewed by manually entering "GTDO" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

This table is organized alphabetically by field **Mnemonic**.

Mnemonic	Description	CIM GOLD Field Location	Details
DOAAAAB	Allow Approve for All Branches	Allow Approval for All Branches field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOALPH	List Dealers alphabetically	List Dealers alphabetically field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOANUM	Use Auto Numbering for Dealer System	Use Auto Numbering for Dealer System field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOAORD	Approve In Order	Approve in Order field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOAPCN	AP Client Number	AP Client field on the Dealer Setup > Options screen	4 numeric characters
DOAPST	Approval Status	Approve in Order field on the Dealer Setup > Options screen	80 alphanumeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
DOBNKR	Show Bank Reference Information Tab	Show Bank Reference Information Tab field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOCIMI	Check Message Interval Minutes	Check Msg Interval (Min) field on the Dealer Setup > Options screen	6 numeric characters
DOCLC1	Personal Property Collateral	Use Personal Property Collateral field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOCLC2	Use Vehicle Collateral	Use Vehicle Collateral field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOCLC3	Use Power Sports Collateral	Use Power Sports Collateral field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOCLC4	Use Outdoor Power Equipment Collateral	Use Outdoor Power Equipment Collateral field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOCURL	Credential URL		
DODA28	Use 28 Due Day	Use 28 Due Day field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DODPNI	Notify Popup Interval Seconds	Notification Popup Interval (sec) field on the Dealer Setup > Options screen	6 numeric characters
DODSPT	Show Distributor Participation Info	Show Distributor Participation Information field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DODSYS	Use Dealer System	Use New Dealer System field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOFIXP	Use Fixed Payment	Use Fixed Payment field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOGLAC	GL Account Number		
DOIFRE	Use Interest Free	Use Interest Free field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOINDF	Use Interest Deferred	Use Interest Deferred field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOINTO	Use Interest Only	Use Interest Only field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOLNRQ	Button to Send Loan Request to Dealer	Button to Send Loan Req to Dealer? field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOLNVF	Value to pass to LNVFVNO	Value to Pass to LNVFVNO field on the Dealer Setup > Options screen	30 alphabetic characters
DOLOCA	Show Location		
DOMAXF	MAX FEE AMOUNT	Max Fee Amount field on the Dealer Setup > Options screen	11 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
DOMMCT	Max Message Count	Max Message Count field on the Dealer Setup > Options screen	4 numeric characters
DOMNPT	Show Manufacturer Participation Info	Show Manufacturer Participation Information field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOMSAD	Message Web Service URL Address	Web Service URL field on the Dealer Setup > Options screen	99 alphanumeric characters
DOMTAB	Show Miscellaneous Tab	Show Misc Tab field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DONTAB	Show Note Tab	Show Note Tab field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOOTAB	Show Other Tab	Show Other Tab field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOOUDL	Only Use Dealers		
DOPLAN	Use Card Plan	Use Card Plan field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOPMDF	Use Payment Deferred	Use Payment Deferred field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOPRCP	Show Principal Information Tab	Show Principal Information Tab field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DORQAT	REQUIRE APP TYPES	Require Application Types field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOSAPS	Show Approval Status	Approve in Order field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOSEQB	Sequence Number		
DOSHQU	Use Custom Queue	Use Custom Queues field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOSINV	Show Inventory Information Tab	Show Inventory Information Tab field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOSMMC	Single Characters Max	Single Characters Max field on the Dealer Setup > Options screen	4 numeric characters
DOSMSS	Allow Messages to be Sent	Allow messages to be sent field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOSTA1	1ST STATUS		
DOSTA2	2ND STATUS		
DOSTAT	STATUS BYTE		
DOTDAY	Temporary Approval Days	Temporary Approval Days field on the Dealer Setup > Options screen	4 numeric characters
DOTMMC	Total Characters Max	Total Characters Max field on the Dealer Setup > Options screen	4 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
DOTRDR	Show Trade Reference Information Tab	Show Trade Reference Information Tab field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOUAPV	Update AP Vendors	Update AP Vendors field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOUCAT	Use Categories	Use Categories field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOUFID	Show Foreign Id	Show Foreign ID# field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOUGRP	Use Dealer Group	Use Dealer Group field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOUNAM	DealerTrack User Name	DealerTrack User Name field on the Dealer Setup > Options screen	30 alphanumeric characters
DOUNCN	UNC Folder Name	30 second Sync Now UNC Folder Name field on the Dealer Setup > Options screen	99 alphanumeric characters
DOUPAS	DealerTrack User Password	DealerTrack Password field on the Dealer Setup > Options screen	30 alphanumeric characters
DOUSAC	Use Same as Cash	Use Same as Cash field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOUSED	Use Distributors	Use Distributors field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOUSEM	Use Manufacturers	Use Manufacturers field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOUSEP	Use Products	Use Products field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)
DOUSNL	Use Seasonal Payments	Use Seasonal Payments field on the Dealer Setup > Options screen	Checkbox (0=No, 1=Yes)

LNIEF1	Investor Next Rate Eff Date 1	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNIEF2	Investor Next Rate Eff Date 2	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNIEF3	Investor Next Rate Eff Date 3	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNIEF4	Investor Next Rate Eff Date 4	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNIEF5	Investor Next Rate Eff Date 5	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNIEF6	Investor Next Rate Eff Date 6	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNIEF7	Investor Next Rate Eff Date 7	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNIEF8	Investor Next Rate Eff Date 8	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNIEF9	Investor Next Rate Eff Date 9	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNIEFA	Investor Next Rate Eff Date 10	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNIEFB	Investor Next Rate Eff Date 11	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNIEFC	Investor Next Rate Eff Date 12	Date field on the Loans > Investor Reporting > Loan Investor Fields screen	6 numeric characters
LNIFRQ	Investor Frequency Of Rate Chg	Guaranteed Rate Change Frequency field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	3 numeric characters
LNIGNX	Investor Next Guar Rate	Next Guaranteed Rate field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	7 numeric characters
LNIGOF	Investor Guar Rate Offset	Guaranteed Rate Offset field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	7 numeric characters
LNIGRP	Investor Group Number	Investor field on the Loans > Investor Reporting > Loan Investor Fields screen	4 numeric characters
LNIGRT	Investor Guaranteed Rate	Current Guaranteed Rate field on the Loans > Investor Reporting > Loan Investor Fields , Loans > Account Information > Signature Loan Details , Loans > Payoff , and Loans > Investor Reporting > Sell Loan To Investor screens	7 numeric characters
LNIICL	Investor Interest Calc Code	Interest field on the Loans > Investor Reporting > Loan Investor Fields screen	3 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNILCL	Investor Late Charge Calc Code	Late Charge field on the Loans > Investor Reporting > Loan Investor Fields screen	3 numeric characters
LNIMAX	Investor Guar Rate Ceiling	Guaranteed Rate Maximum field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	7 numeric characters
LNIMDF	Amort Def Fees By Interest Mthd		
LNIMIN	Investor Guar Rate Floor	Guaranteed Rate Minimum field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	7 numeric characters
LNIMPD	Impaired Loan	Impaired Loan field on the Loans > Account Information > Additional Loan Fields screen	Checkbox (0=No, 1=Yes)
LNIMST	Investor Master Number	Investor field on the Loans > Investor Reporting > Loan Investor Fields and Loans > Call Report Classifications screen	4 numeric characters
LNINAD	Stop Internet Advances		
LNINDU	Interest Due		
LNINNO	Installments Made	Installments Made field on the Loans > Account Information > Amortization Schedule, Payment Information, and Loans > Investor Reporting > Sell Loan To Investor screens	3 numeric characters
LNINR1	Investor Next Accrual Rate 1	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters
LNINR2	Investor Next Accrual Rate 2	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters
LNINR3	Investor Next Accrual Rate 3	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters
LNINR4	Investor Next Accrual Rate 4	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters
LNINR5	Investor Next Accrual Rate 5	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters
LNINR6	Investor Next Accrual Rate 6	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters
LNINR7	Investor Next Accrual Rate 7	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters
LNINR8	Investor Next Accrual Rate 8	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters
LNINR9	Investor Next Accrual Rate 9	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNINRA	Investor Next Accrual Rate 10	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters
LNINRB	Investor Next Accrual Rate 11	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters
LNINRC	Investor Next Accrual Rate 12	Rate field on the Loans > Investor Reporting > Loan Investor Fields screen	7 numeric characters
LNINS#	LIP Inspector Number		
LNINSU	Insurer Code	Insurer field on the Loans > Account Information > Additional Loan Fields and Loans > Investor Reporting > Sell Loan To Investor screens	2 numeric characters
LNINXF	Restrict Internet		
LNIPCL	Investor Principal Calc Code	Principal field on the Loans > Investor Reporting > Loan Investor Fields screen	3 numeric characters
LNIPIC	Interest PI Constant	Interest Only P/I field on the Loans > Account Information > ARM Information screen	11 numeric characters
LNIPLN	Investor Guar Rate Cap Prd	Length of Guaranteed Rate Cap Period field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	3 numeric characters
LNIPMN	Investor Guar Rate Prd Min	Guaranteed Maximum Points Down field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	7 numeric characters
LNIPMX	Investor Guar Rate Prd Max	Guaranteed Maximum Points Up field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	7 numeric characters
LNIPOF	Investor Payoff Calc Code	Payoff Interest field on the Loans > Investor Reporting > Loan Investor Fields screen	3 numeric characters
LNIPRE	Investor PrePayment Calc Code	Prepayment Code field on the Loans > Investor Reporting > Loan Investor Fields screen	1 numeric characters
LNIPSD	Investor Guar Rate At Period Start		
LNIPSR	Investor Guar Rate At Period Start	Guaranteed Rate at Period Start field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	7 numeric characters
LNIPTR	Investor Rate Pointer	Guaranteed Rate Pointer field on the Loans > Investor Reporting > Loan Investor Fields and Loans > Investor Reporting > Sell Loan To Investor screens	3 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNIR10	Investor Round Rate To Nearest 10th		
LNIRCL	Investor Reserve Calc Code	Reserve field on the Loans > Investor Reporting > Loan Investor Fields screen	3 numeric characters
LNIRDN	Investor Round Rate Down		
LNIRLS	Investor Recoup Lost Int On Guar Rate		
LNIRN8	Investor Round Guar Rate To Nearest 8th		
LNIRPT	Using Irregular Pmt		
LNIRRQ	Investor Round Rate To Nearest 4th		
LNIRRS	Investor Round Rate To Nearest 16th		
LNIRS1	Pay Interest On Reserve 1	Pay Interest on Reserve 1 field on the Loans > Account Information > Reserves > Account Reserve Detail screen	Checkbox (0=No, 1=Yes)
LNIRS2	Pay Interest On Reserve 2	Pay Interest on Reserve 1 field on the Loans > Account Information > Reserves > Account Reserve Detail screen	Checkbox (0=No, 1=Yes)
LNIRSC	IRS Statement Corrected	IRS Statement Corrected field on the Loans > Account Information > Account Detail screen	Checkbox (0=No, 1=Yes)
LNIRSI	Interest Adjustment Account	Amount of Interest Adjustment field on the Loans > Account Information > Account Detail screen	11 numeric characters
LNIRSY	Interest Adjustment Year	Year Interest Adjustment Was Reported field on the Loans > Account Information > Account Detail screen	4 numeric characters
LNIRUP	Investor Round Rate Up		
LNISCL	Investor Svc Fee Calc code	Service Fee field on the Loans > Investor Reporting > Loan Investor Fields screen	3 numeric characters
LNISFC	Investor Service Fee is a Constant	Service Fee Type field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	Checkbox (0=No, 1=Yes)
LNISFM	Investor Service Fee is a Minimum	Service Fee Type field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	Checkbox (0=No, 1=Yes)
LNISLD	Investor Percentage Sold	Portion Sold field on the Loans > Investor Reporting > Loan Investor Fields , Loans > Payoff , and Loans > Account Information > Call Report Classifications screens	10 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNISUB	Interest On Subsidy		
LNISVC	Investor Service Fee Rate	Service Fee Rate field on the Loans > Investor Reporting > Loan Investor Fields and Sell Loan To Investor screens	10 numeric characters
LNIUNU	Investor Guar Rate Unused Points		
LNIWWA	Use Internet		
LNLACC	LIP Accrued Interest		
LNLADT	Date Last Escrow Analysis	Last Analysis Date field on the Loans > Account Information > Reserves > Reserve Analysis screen	6 numeric characters
LNLAST	Last Occurrence in Month	Last Day field on the Loans > Account Information > Payment Information screen	Checkbox (0=No, 1=Yes)
LNLATE	Late Charges Due	Late Charges Due field on the Loans > Account Information > Account Detail, Payment Information, and Signature Loan Details screens	13 numeric characters
LNLBAL	LIP Undisbursed Funds Balance	LIP Disbursed Balance field on the Loans > Account Information > Account Detail, Amortization Schedule, Call Report Classifications , and Loans > Investor Reporting > Sell Loan To Investor screens	13 numeric characters
LNLCAP	LIP Periodic Rate Cap On LIP		
LNLCBS	Last Credit Bureau Status Rpt	Credit Bureau Status field on the Loans > Cards and Promotions screen	3 numeric characters
LNLCGA	LIP Charge Amount		
LNLGCR	LIP Charging Int By Fixed Amt		
LNLCHD	LIP Rate Change Date		
LNLCHG	LIP Interest Charge Bill Code		
LNLCPM	Stop Late Charge Past Orig Maturity Date	Stop Late Charge if Past Original Maturity field on the Loans > Account Information > Account Detail and Signature Loan Details screens	Checkbox (0=No, 1=Yes)
LNLCRT	LIP Billing Rate If Billed		
LNLDRC	Loan Dealer Reserve Capture	Dealer Reserve Capture field on the Loans > Account Information > Dealer Information screen	Checkbox (0=No, 1=Yes)
LNLDUE	LIP Due Date		

Mnemonic	Description	CIM GOLD Field Location	Details
LNLDYS	LIP Days Before Rate Change		
LNLFIX	Uses Fixed Rate Roll		
LNFRQ	Rate Change Frequency		
LNLGLS	Legal Status	Legal Status field on the Loans > Account Information > Actions, Holds and Event Letters screen	Checkbox (0=No, 1=Yes)
LNLHID	Header ID Image Count		
LNLHRT	LIP Uses High Rate		
LNLIND	LIP Inspection Date		
LNL LTC	LOL Late Charges Collected	Lifetime Late Charges Collected field on the Loans > Account Information > Account Detail, Payment Information, and Signature Loan Details screens	11 numeric characters
LNLMAX	LIP Lifetime Ceiling		
LNLMIN	LIP Lifetime Floor		
LNL MTH	LIP Method Code	LIP Method Code field on the Loans > Account Information > Account Detail, Call Report Classifications, and Loans > Payoff screens	3 numeric characters
LNLND1	Late Notice Days 1st		
LNLND2	Late Notice Days 2nd		
LNLND3	Late Notice Days 3rd		
LNLNPR	LIP Previous Index Rate		
LNLNXT	LIP Next Interest Rate		
LNLOFF	LIP Interest Rate Offset		
LNL PAD	Date of Last Payment Activity		
LNL PCC	LIP Percent Complete		
LNL PCG	LIP Prior Unpaid Billing		
LNL PEF	Penalty Rate Days	Penalty Days field on the Loans > Account Information > Account Detail screen	3 numeric characters
LNL PIN	LIP Previous Index Rate		
LNL PLN	LIP Rate Cap Period		
LNL PMA	Last Payment Amount	Last Payment Amount field on the Loans > Account Information > Account Detail, Payment Information, Signature Loan Details, Loans > Purchase Disclosure, and Original Loan Disclosure screens	11 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNLPMN	LIP Periodic Rate Minimum		
LNLPMX	LIP Periodic Rate Maximum		
LNLPRT	Penalty Rate	Penalty Rate field on the Loans > Account Information > Account Detail and Cards and Promotions screens	7 numeric characters
LNLPSD	LIP Rate Period Start Date		
LNLPSR	LIP Periodic Starting Rate		
LNLPTR	LIP Rate Pointer		
LNLR10	LIP Round Rate To Nearest 10th		
LNL RAT	LIP Interest Rate	LIP Interest Rate field on the Loans > Account Information > Account Detail screen	7 numeric characters
LNL RDN	LIP Round Rate Down		
LNL RDT	Date Last Rate Change		
LNL RET	LIP Retention Amount		
LNL RIN	Reserved For Interest Of LIP		
LNL RLS	LIP Recoup Lost Int		
LNL RN8	LIP Round Rate To Nearest 8th		
LNL RRQ	LIP Round Rate To Nearest 4th		
LNL RRS	LIP Round Rate To Nearest 16th		
LNL RSV	LIP Use Reserves On Statement		
LNL RUP	LIP Round Rate Up		
LNL STB	Last Billed Amount		
LNL T10	Days Late 10 To 29	Grace Days fields on the Loans > Account Information > Signature Loan Details screens	3 numeric characters
LNL T30	Days Late 30 To 59	Grace Days fields on the Loans > Account Information > Signature Loan Details screens	3 numeric characters
LNL T60	Days Late 60 To 89	Grace Days fields on the Loans > Account Information > Signature Loan Details screens	3 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNL90	Days Late 90 Or More	Grace Days fields on the Loans > Account Information > Signature Loan Details screens	3 numeric characters
LNLCC	Collect Late Charge when Current	Collect Late Charges When Current field on the Loans > Account Information > Account Detail screen	Checkbox (0=No, 1=Yes)
LNLCD	Late Charge Code	Late Code field on the Loans > Account Information > Account Detail and Signature Loan Detail screens	2 numeric characters
LNLDT	Late Charge Date Assessed	Date of Last Late Assessment field on the Loans > Account Information > Signature Loan Details screen	6 numeric characters
LNLGR	Late Charge Grace Days	Grace Days field on the Loans > Account Information > Account Detail and Signature Loan Detail screens	3 numeric characters
LNLTMN	Late Charge Minimum	Charge Minimum Fee of field on the Loans > Account Information > Account Detail screen	5 numeric characters
LNLTMX	Late Charge Maximum	Charge Maximum Fee of field on the Loans > Account Information > Account Detail screen	5 numeric characters
LNLNO	Times Late Life Of Loan	Times Late field on the Loans > Account Information > Signature Loan Details screen	3 numeric characters
LNLTP1	Late Notice Type 1	Notice 1,2,3 Type/Days field on the Loans > Account Information > Account Detail screen	3 numeric characters
LNLTP2	Late Notice Type 2	Notice 1,2,3 Type/Days field on the Loans > Account Information > Account Detail screen	3 numeric characters
LNLTP3	Late Notice Type 3	Notice 1,2,3 Type/Days field on the Loans > Account Information > Account Detail screen	3 numeric characters
LNLTRT	Late Charge Rate	Late Charge Rate Fee field on the Loans > Account Information > Account Detail and Signature Loan Detail screens	4 numeric characters
LNLWV	Late Charge Times Waived	Times Waived field on the Loans > Account Information > Signature Loan Details screen	3 numeric characters
LNLTYD	LIP YTD Interest	Year-to-Date LIP Interest Paid field on the Loans > Account Information > Account Detail screen	13 numeric characters
LNLTYL	LIP Previous Year YTD Interest	LIP Interest field on the Loans > Account Information > Account Detail screen	11 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNMATD	Maturity Date	Maturity Date field on the Loans > Account Information > Account Detail, Additional Loan Fields, Amortization Schedule, Amortizing Fees and Costs, Payment Information, Signature Loan Details, Call Report Classifications, Precomputed Loans , Loans > Account Adjustment, Marketing and Collections , and Loans > Investor Reporting > Sell Loan To Investor screens	6 numeric characters

LNPRT1	Premium Rate 1	Rate field on the Loans > Account Information > Deferred Fees screen	5 numeric characters
LNPRT2	Premium Rate 2	Rate field on the Loans > Account Information > Deferred Fees screen	5 numeric characters
LNPRT3	Premium Rate 3	Rate field on the Loans > Account Information > Deferred Fees screen	5 numeric characters
LNPRTL	Partial Pmts Amount	Applied to Payment field on the Loans > Account Information > Account Detail, Payment Information, Signature Loan Details , and Loans > Bankruptcy and Foreclosure > Bankruptcy screens	13 numeric characters
LNPSHI	Prime High Limit	Prime Upper Limit field on the Loans > Account Information > Account Detail screen	7 numeric characters
LNPSLO	Prime Low Limit	Prime Lower Limit field on the Loans > Account Information > Account Detail and Cards and Promotions screens	7 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNPT99	Create 1099 PTL		
LNPTM1	Premium Term 1	Term field on the Loans > Account Information > Deferred Fees screen	3 numeric characters
LNPTM2	Premium Term 2	Term field on the Loans > Account Information > Deferred Fees screen	3 numeric characters
LNPTM3	Premium Term 3	Term field on the Loans > Account Information > Deferred Fees screen	3 numeric characters
LNPTST	Pmt Test Applies	Payment Stops Notice field on the Loans > Account Information > Account Detail screen	Checkbox (0=No, 1=Yes)
LNPUDT	Date Purchased	Purchase Date field on the Loans > Account Information > Additional Loan Fields screen	6 numeric characters
LNPWOA	Partial Write Off Amount	Written Off Amt field on the Loans > Account Information > Actions, Holds and Event Letters screen	11 numeric characters
LNPYTD	Previous Year YTD Interest	Last Year's Interest field on the Loans > Cards and Promotions screen	13 numeric characters
LNPYTR	Previous Year YTD Int On Reserves	Reserve Interest field on the Loans > Account Information > Account Detail screen	13 numeric characters
LNPYTS	Previous YTD Deferment Interest		
LNPYTT	Previous Year YTD Taxes	Taxes field on the Loans > Account Information > Account Detail screen	13 numeric characters
LNR1AI	Accrued Interest On Reserve 1	Accrued Interest field on the Loans > Account Information > Reserves > Account Reserve Detail screen	13 numeric characters
LNR1BL	Reserve 1 Balance	Reserve Balance field on the Loans > Account Information > Reserves > Account Reserve Detail screen	13 numeric characters
LNR1C2	2nd Reserve One Constant	Third Reserve Constant field on the Loans > Account Information > Reserves > Account Reserve Detail screen	11 numeric characters
LNR1CN	Reserve 1 Constant	Reserve Constant field on the Loans > Account Information > Reserves > Account Reserve Detail screen	13 numeric characters
LNR1D2	2nd Reserve One Effective		
LNR1EF	Next Reserve 1 Effective Date	Effective Date field on the Loans > Account Information > Reserves > Account Reserve Detail screen	6 numeric characters
LNR1IN	Charge Interest On Neg Reserve 1		

Mnemonic	Description	CIM GOLD Field Location	Details
LNR1IR	Interest Rate For Reserve 1	Rate field on the Loans > Account Information > Reserves > Account Reserve Detail screen	5 numeric characters
LNR1LA	Date Last Accrued Reserve 1	Last Accrued field on the Loans > Account Information > Reserves > Account Reserve Detail screen	6 numeric characters
LNR1NX	Next Reserve 1 Constant	Second Reserve Constant field on the Loans > Account Information > Reserves > Account Reserve Detail screen	13 numeric characters
LNR1OF	Rate Offset Reserve 1	Rate Offset field on the Loans > Account Information > Reserves > Account Reserve Detail screen	5 numeric characters
LNR1RP	Rate Pointer For Reserve 1	Rate Pointer field on the Loans > Account Information > Reserves > Account Reserve Detail screen	3 numeric characters
LNR2AI	Reserve 2 Accrued Interest	Accrued Interest field on the Loans > Account Information > Reserves > Account Reserve Detail screen	13 numeric characters
LNR2BL	Reserve 2 Balance	Reserve Balance field on the Loans > Account Information > Reserves > Account Reserve Detail screen	13 numeric characters
LNR2C2	2nd Reserve Two Constant	Third Reserve Constant field on the Loans > Account Information > Reserves > Account Reserve Detail screen	11 numeric characters
LNR2CN	Reserve 2 Constant	Reserve Constant field on the Loans > Account Information > Reserves > Account Reserve Detail screen	13 numeric characters
LNR2D2	2nd Reserve Two Effective		
LNR2EF	Second Rsv Effective Date	Effective Date field on the Loans > Account Information > Reserves > Account Reserve Detail screen	6 numeric characters
LNR2IN	Charge Interest On Neg Reserve 2		
LNR2IR	Interest Rate For Reserve 2	Rate field on the Loans > Account Information > Reserves > Account Reserve Detail screen	5 numeric characters
LNR2LA	Date Last Accrued Reserve 2	Last Accrued field on the Loans > Account Information > Reserves > Account Reserve Detail screen	6 numeric characters
LNR2NX	Next Reserve 2 Constant	Second Reserve Constant field on the Loans > Account Information > Reserves > Account Reserve Detail screen	13 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNR2OF	Rate Offset For Reserve 2	Rate Offset field on the Loans > Account Information > Reserves > Account Reserve Detail screen	5 numeric characters
LNR2RP	Rate Pointer For Reserve 2	Rate Pointer field on the Loans > Account Information > Reserves > Account Reserve Detail screen	3 numeric characters
LNRAMT	LIP Fee Rate		
LNRATE	Interest Rate	Interest Rate field on the Loans > Account Information > Account Detail, Amortization Schedule, Amortizing Fees and Costs, Payment Information, Precomputed Loans, Deferred Fees, ARM Information , Loans > Statistics and Summaries > Summary , Loans > Loan Assumption, Account Adjustment, Payoff , Loans > Bankruptcy and Foreclosure > Bankruptcy Detail , and Customer Relationship Management > Households screens	7 numeric characters
LNRCAP	AML Periodic Rate Cap Used	Use Rate Cap field on the Loans > Account Information > Amortization Schedule, ARM Information and Loans > Investor Reporting > Sell Loan To Investor screens	Checkbox (0=No, 1=Yes)
LNRRDDN	AML Round Rate Down	Round Rate field on the Loans > Account Information > ARM Information screen	Checkbox (0=No, 1=Yes)
LNRDEX	Escrow Deficiency At Last Analysis	Deficit Amount field on the Loans > Account Information > Reserves > Reserve Analysis screen	9 numeric characters
LNRRDUP	AML Round Rate Up	Round Rate field on the Loans > Account Information > Amortization Schedule, ARM Information , and Account Detail screens	Checkbox (0=No, 1=Yes)
LNRECP	Recoup Lost Int		
LNREFA	Refinanced Amount	Refinanced Amount field on the Loans > Account Information > Additional Loan Fields screen	13 numeric characters
LNREPR	Repricing Date	Repricing Date field on the Loans > Account Information > Additional Loan Fields screen	6 numeric characters
LNRINF	Last Rate Info		
LNRIRS	Previous Year Int Reported	Interest Reported to IRS field on the Loans > Account Information > Account Detail screen	13 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNRLAD	Date Of Last Advance	Date Of Last Advance field on the Loans > Line-of-Credit Loans screen	6 numeric characters
LNRLAV	Average Balance For Period	Average Balance For Period field on the Loans > Line-of-Credit Loans and Cards and Promotions screens	13 numeric characters
LNRLCC	Current Finance Charge Due	Current Finance Charge field on the Loans > Line-of-Credit Loans and Cards and Promotions screens	13 numeric characters
LNRLCL	Credit Limit	LOC Limit field on the Loans > Account Information > Account Detail screen	13 numeric characters
LNRLCR	PM5 Credit Reduced		
LNRLCU	Credit Used	Total Amount Used field on the Loans > Line-of-Credit Loans screen	11 numeric characters
LNRLDP	Daily or Periodic Interest	Interest Collected With Payment field on the Loans > Line-of-Credit Loans and Loans > Account Information > Consumer Line-of-Credit screens	Checkbox (0=No, 1=Yes)
LNRLDS	Stop Advances If Delinquent	Stop All Advance If Delinquent? field on the Loans > Line-of-Credit Loans and Loans > Account Information > Consumer Line-of-Credit screens	Checkbox (0=No, 1=Yes)
LNRLFC	Finance Charge Code	Finance Charge Code field on the Loans > Line-of-Credit Loans, Cards and Promotions , and Loans > Account Information > Consumer Line-of-Credit screens	3 numeric characters
LNRLFD	Date Of Last Finance Charge	Date Last Finance Charge field on the Loans > Line-of-Credit Loans and Cards and Promotions screens	6 numeric characters
LNRLFP	Secured Pledge	Secured By Floating Pledge? field on the Loans > Line-of-Credit Loans screen	Checkbox (0=No, 1=Yes)
LNRLHB	LOC Highest Balance Ever		
LNRLHG	High Balance For Period	High Balance For Period field on the Loans > Line-of-Credit Loans and Cards and Promotions screens	13 numeric characters
LNRLI1	Pmth 5 Billed PI 1		
LNRLI2	Pmth 5 Billed PI 2		
LNRLI3	Pmth 5 Billed PI 3		
LNRLI4	Pmth 5 Billed PI 4		
LNRLI5	Method 5 Billed PI 5		
LNRLLI	Lending Inventory Allowed	Lending Inventory? field on the Loans > Line-of-Credit Loans and Loans >	Checkbox (0=No, 1=Yes)

Mnemonic	Description	CIM GOLD Field Location	Details
		Account Information > Consumer Line-of-Credit screens	
LNRLW	Low Balance For Period	Low Balance For Period field on the Loans > Line-of-Credit Loans and Cards and Promotions screens	13 numeric characters
LNRLMA	Minimum Check Amount	Minimum Advance Amount field on the Loans > Line-of-Credit Loans and Loans > Account Information > Consumer Line-of-Credit screens	13 numeric characters
LNRLMD	Minimum Payment Due	Minimum Payment Due field on the Loans > Line-of-Credit Loans, Cards and Promotions , and Loans > Account Information > Consumer Line-of-Credit screens	13 numeric characters
LNRLND	Raw Land	Raw Land field on the Loans > Account Information > Additional Loan Fields screen	Checkbox (0=No, 1=Yes)
LNRLNO	Send Notice Of Overdraft Advance		
LNRLLOC	Allow Balance Over Credit Limit	Allow Balance Over Credit Limit? field on the Loans > Line-of-Credit Loans and Loans > Account Information > Consumer Line-of-Credit screens	Checkbox (0=No, 1=Yes)
LNRLPOP	Opt Out of Term Changes	Opt Out of Term Changes field on the Loans > Cards and Promotions screen	Checkbox (0=No, 1=Yes)
LNRLP1	Method 5 Remaining Unpaid 1		
LNRLP2	Method 5 Remaining Unpaid 2		
LNRLP3	Method 5 Remaining Unpaid 3		
LNRLP4	Method 5 Remaining Unpaid 4		
LNRLP5	Method 5 Remaining Unpaid 5		
LNRLPA	Pledged Percent Available	Pledge Percent Available field on the Loans > Line-of-Credit Loans screen	7 numeric characters
LNRLPB	Payment Percentage Of Balance	Payment Percent of Balance field on the Loans > Line-of-Credit Loans, Cards and Promotions , and Loans > Account Information > Consumer Line-of-Credit screens	5 numeric characters
LNRLPC	Prior Finance Charge Due	Prior Finance Charge field on the Loans > Line-of-Credit Loans , Loans > Account	13 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
		Information > Consumer Line-of-Credit , and Call Report Classifications screens	
LNRLPD	In Pending Default Period		
LNRLPT	Payment Type Code	Payment Type field on the Loans > Line-of-Credit Loans, Cards and Promotions , and Loans > Account Information > Consumer Line-of-Credit screens	3 numeric characters
LNRLRA	Automatic Repayment Amount	Repay Amount field on the Loans > Line-of-Credit Loans screen	3 numeric characters
LNRLRC	Automatic Repayment Code	Repay Code field on the Loans > Line-of-Credit Loans screen	3 numeric characters
LNRLRP	Automatic Repayment Percent	Repay Percent field on the Loans > Line-of-Credit Loans screen	5 numeric characters
LNRLRS	Use rate change schedule	Use Scheduled Rate Changes field on the Loans > Line-of-Credit Loans screen	Checkbox (0=No, 1=Yes)
LNRLSA	Service Fee Amount	Fee Amount field on the Loans > Cards and Promotions and Line-of-Credit Loans screens	13 numeric characters
LNRLSC	Security Acct Number		
LNRLSD	Servicing Released		
LNRLSF	Secured Account Stmt Freq		
LNRLSH	Principal Short Amount		
LNRLSM	Service Fee Method Code	Method And Frequency field on the Loans > Cards and Promotions and Line-of-Credit Loans screens	3 numeric characters
LNRLSP	Service Fee Percent	Percent field on the Loans > Line-of-Credit Loans screen	7 numeric characters
LNRLST	Stop Advances	Stop All Advance? field on the Loans > Line-of-Credit Loans and Loans > Account Information > Consumer Line-of-Credit screens	Checkbox (0=No, 1=Yes)
LNRLTA	Transfer Acct		
LNRLUR	Use Large LOC Rate		
LNRLWC	Write Checks Against Loan	Write Checks Against Loan? field on the Loans > Line-of-Credit Loans and Loans > Account Information > Consumer Line-of-Credit screens	Checkbox (0=No, 1=Yes)
LNRNST	Closed Due to Reinstatement		
LNROFF	Interest Rate Offset	Payment/Interest Offset/Margin field on the Loans > Account Information > Account	7 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
		Detail , Loans > Line-of-Credit Loans , and Cards and Promotions screens	
LNROLL	Date Due Date Rolled	Due Date Last Rolled field on the Loans > Account Information > Account Detail and Payment Information screens	8 numeric characters
LNRPDU	Remaining Portion Due	Remaining Portion Due field on the Loans > Account Information > Account Detail , Additional Loan Fields , and Payment Information screens	11 numeric characters
LNRPMT	Rounded Payment	Round Payment to Nearest Dollar field on the Loans > Account Information > Reserves > Account Reserve Detail screen	Checkbox (0=No, 1=Yes)
LNRPTR	Interest Rate Pointer	Interest Rate Pointer field on the Loans > Account Information > Account Detail , Loans > Line-of-Credit Loans , and Cards and Promotions screens	3 numeric characters
LNRR10	Rate Rounded To Nearest 10th	Round Rate field on the Loans > Account Information > ARM Information and Loans > Investor Reporting > Sell Loan To Investor screens	Checkbox (0=No, 1=Yes)
LNRRND	Rate Rounded To Nearest 8th	Round Rate field on the Loans > Account Information > ARM Information and Loans > Investor Reporting > Sell Loan To Investor screens	Checkbox (0=No, 1=Yes)
LNRRTQ	Rate Rounded To Nearest 4th	Round Rate field on the Loans > Account Information > ARM Information and Loans > Investor Reporting > Sell Loan To Investor screens	Checkbox (0=No, 1=Yes)
LNRSAD	Opt Out of Auto Defaulting	Opt Out of Auto Default field on the Loans > Cards and Promotions screen	Checkbox (0=No, 1=Yes)
LNRSBM	Rate Starts Below Min	Start Rate Below the Minimum Rate field on the Loans > Account Information > ARM Information screen	Checkbox (0=No, 1=Yes)
LNRSDT	Date Debt Restructured	Debt Restructured Date field on the Loans > Account Information > Additional Loan Fields and Call Report Classifications screens	6 numeric characters
LNRSK1	Credit Risk Score 1	Credit Risk Score field on the Loans > Misc Secured F/M Data screen	3 numeric characters
LNRSK2	Credit Risk Score 2	Credit Risk Score field on the Loans > Misc Secured F/M Data screen	3 numeric characters
LNRSK3	Credit Risk Score 3	Credit Risk Score field on the Loans > Misc Secured F/M Data screen	3 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
LNRSK4	Credit Risk Score 4	Credit Risk Score field on the Loans > Misc Secured F/M Data screen	3 numeric characters
LNRSK5	Credit Risk Score 5	Credit Risk Score field on the Loans > Misc Secured F/M Data screen	3 numeric characters
LNRSTM	Date Of Last Statement Pmth 5		
LNRTRW	Reported To TRW		
LNRTSN	Use AML Fields	Use ARM Fields field on the Loans > Account Information > Account Detail, Payment Information, and ARM Information screens	Checkbox (0=No, 1=Yes)
LNSACI	Subsidy Accrued Interest		
LNSADV	Advertising Code	Advertising field on the Loans > Account Information > Additional Loan Fields and Loans > Marketing and Collections screens	3 numeric characters
LNSB1M	SBA Under 1 Million	SBA-Gross Uner 1 Million field on the Loans > Account Information > Additional Loan Fields screen	Checkbox (0=No, 1=Yes)
LNSBAL	Subsidy Balance	Subsidy Balance field on the Loans > Bankruptcy and Foreclosure > Bankruptcy screen	13 numeric characters
LNSBYR	Subsidized By Rate		
LNSCON	Subsidy Constant		
LNSCOP	Special Charge off Processing	Special Charge-Off Processing field on the Loans > Account Information > Additional Loan Fields screen	Checkbox (0=No, 1=Yes)
LNSCYC	Statement Cycle Code	Do Not Send Statements for This Account field on the Loans > Account Information > Additional Loan Fields, Loans > Marketing and Collections, and Loans > Statistics and Summaries > Summary screens	3 numeric characters

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r a c t e r s
DMLRT	Blended Rate	Blended Rate field on the Deposits > Account Information > Interest Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMBNDT	Bonus Exp Date	Bonus Expiration field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c c h a r a c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r s
DMBNRT	Bonus Rate	Bonus Rate field on the Deposits > Account Information > Interest Fields screen	7 n u m e r i c h a r a c t e r s
DMBPAY	Bill Payer Access	Bill Payer Customer Directed Transfers field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMBPFT	Billpayer First Access Date	Bill Payer Service Charge Start Date field on the Deposits > Account Information > Additional Fields screen	8 n u m

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r i c h a r a c t e r s
DMBSRT	Base Rate	Base Rate field on the Deposits > Account Information > Interest Fields screen	7 n u m e r i c h a r a c t e r s
DMCARD	Card Number	Credit Card field on the Deposits > Account Information > Overdraft & Secured Loans screen	2 0 n u m e r i c h a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r a c t e r s
DMCDDC	CTD Debit Card Tran	Debit Card Used field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c c h a r a c t e r s
DMCDDT	Date Card Expires	Expiration Date field on the Deposits > Account Information > Overdraft & Secured Loans screen	4 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMCDRN	Renewable Acct	Renew at Maturity field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMCKCY	Cks This Cycle	Checks field on the Deposits > Account Information > Activity Information screen	3 n u m e r i c c h a r a c t e r s
DMCKDG	Check Digit	Account Number field on the Customer Relationship Management > Callback screen	2 n u m e r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			i c c h a r a c t e r s
DMCKRT	Return Actual Check		
DMCLIM	Card Limit	Card Transaction Limit field on the Deposits > Account Information > Overdraft & Secured Loans screen	1 1 n u m e r i c c h a r a c t e r s
DMCLSD	Acct Closed		
DMCNCL	Contr Curr For Last	YYYY Contribution for YYYY field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			h a r a c t e r s
DMCNCY	Current Yr Contrib	Contribution field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMCNLD	Contrib LTD		
DMCNLY	Last Year Contrib	Prior Year Contribution field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			t e r s
DMCNOF	Conditional Offset	Conditional Offset field on the Deposits > Account Information > Interest Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMCNPL	Last Yr For Prev Yr	YYYY Prior Year Contribution for YYYY field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMCOND	Conduit IRA	Conduit/Rollover IRA field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMCPRD	Current Period		
DMCRBL	Current Balance	Current Balance field on the Deposits > Account Information > Account Information, Additional Fields, Overdraft & Secured Loans , and Funds Holds , Customer Relationship Management > Households , and GOLD Services > Audit Confirmations > Deposit Audit Confirmation screens	1 1 n u m e r i c c h a r a c t e r s
DMCRSN	Reason For Close	Reason Closed field on the Deposits > Account Information > Account Information screen	2 0 a l

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			p h a n u m e r i c h a r a c t e r s
DMCSMG	Cash Management	Allow Cash Management? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMCTDA	CTD Accrued		
DMCTDD	CDT Deposits		
DMCTLR	Closing Teller Nbr		

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMCTRM	Term	Term/Type field on the Deposits > Account Information > Account Information screen	4 a l p h a b e t i c h a r a c t e r s
DMCYCD	CDT Chk Deps		
DMCYDP	Calendar YTD Deposit	Year-to-Date Deposits field on the Deposits > Account Information > Activity Information screen	1 1 n u m e r i c h a r a c t e r s
DMCYDT	Cyc Start Date	Cycle Start Date field on the Deposits > Account Information > Additional Fields screen	8 n u

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			m e r i c h a r a c t e r s
DMCYWD	Calendar YTD Wthdrl	Year-to-Date Withdrawals field on the Deposits > Account Information > Activity Information screen	1 1 n u m e r i c h a r a c t e r s
DMDAC2	Nbr ACH Dp 2 Months Ago		
DMDACC	Nbr ACH Dep In Cycle		
DMDACH	Date Of Last ACH	Last ACH Activity field on the Deposits > Account Information > Activity Information screen	8 n u m e r i

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c c h a r a c t e r s
DMDACL	Nbr ACh Dep Last Month		
DMDATM	Date Of Last ATM	Last ATM Activity field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMDCON	Deconvert Account	Convert Account field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o ,

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			1 = Y e s)
DMDDAM	Dep Delay Local Amt	Grand Totals field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c h a r a c t e r s
DMDDEP	Delay Deposit	Deposit Delay field on the Deposits > Account Information > Funds Holds screen	C h e c k b o x (0 = N o , 1 = Y e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			s)
DMDEAD	Account Owner Dead		
DMDEFL	Analysis Default Nbr	Analysis Default field on the Deposits > Account Information > Additional Fields and Commercial Account Analysis screens	4 n u m e r i c c h a r a c t e r s
DMDEMP	Employee Account	Employee Account? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMDFCA	Club Account Feature	Club Account field on the Deposits > Account Information > Account Information screen	C h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e c k b o x (0 = N o , 1 = Y e s)
DMDFCD	Certificate Feature	Certificate field on the Deposits > Account Information > Account Information screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDFCK	Checking Feature	Checking field on the Deposits > Account Information > Account Information screen	C h e c k b

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o x (0 = N o , 1 = Y e s)
DMDFIN	Interest Feature	Interest field on the Deposits > Account Information > Account Information screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDFOD	Overdraft Feature	Overdraft field on the Deposits > Account Information > Account Information screen	C h e c k b o x (0

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			= N o , 1 = Y e s)
DMDFRT	Retirement Feature	Retirement field on the Deposits > Account Information > Account Information screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDICY	Nbr Dep Items In Cycle	Deposit Items Count field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c c h a r a c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			t e r s
DMDILP	Date Int Last Paid	Date Interest Last Paid field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c c h a r a c t e r s
DMDMEM	Memo Post	Memo Post Account field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDNEG	Can Acct Go Neg	Can Account Go Negative field on the Deposits > Account Information > Additional Fields screen	C h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e c k b o x (0 = N o , 1 = Y e s)
DMDORM	Dormant Account		
DMDPCY	Nbr Deposits In Cycle	Deposits Count field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c c h a r a c t e r s
DMDPTP	Deposit Type Code	Account Type field on the Deposits > Account Information > Account Information screen	2 n u m e r i

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c c h a r a c t e r s
DMDROP	Drop Record		
DMDSCA	Distrib Category	Code field on the Deposits > Account Information > Additional Fields screen	2 a l p h a n u m e r i c c h a r a c t e r s
DMDSEH	Use Extended UCF Hold	Extend Uncollected Funds Holds field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			0 = N o , 1 = Y e s)
DMDSFH	Enforce UCF lopts	Enforce Uncollected Funds Holds field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDSL	Distrib LTD		
DMDSNH	New Acct UCF Holds	New Account Uncollected Funds Holds field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o , 1 = Y e s)
DMDSPY	Prior YTD Distributions	Distributions field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMDSTS	Term Until Dormant	Term Until Dormant field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c c h a r a c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r s
DMDSTT	Type Till Dorm MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	1 n u m e r i c h a r a c t e r
DMDSUT	Unspec Hold Exp Today	Unspecified Hold Expires Today field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDSYD	Distrib YTD		
DMDTAC	Date Last Accrued	Date Interest Accrued to field on the Deposits > Account Information > Interest Fields screen	8 n u

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			m e r i c h a r a c t e r s
DMDTCC	Dt Last Cust Contact	Unspecified Hold Expires Today field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c h a r a c t e r s
DMDTCL	Date Closed	Date Closed field on the Deposits > Account Information > Account Information and Activity Information screen	8 n u m e r i c h a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r a c t e r s
DMBTCV	Conversion Date	Conversion Date field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTD	Date Of Dormancy	Date Dormant field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMDTHR	High Rate Renewal Dt	High Rate Date field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTLA	Date Of Last Activity	Last Active field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMDTLD	Date Last Deposit	Last Deposit field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c h a r a c t e r s
DMDTLR	Date Of Last Return		
DMDTLT	Date Last Transaction	Last Transaction field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMDTLW	Date Last Withdrawal	Last Withdrawal field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r s
DMDTNG	Date Acct Went Neg	Last Date Acct Went Neg field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTOD	Date Last Overdraft	Date of Last Overdraft field on the Deposits > Account Information > Overdraft & Secured Loans screen	8 n u m e r i c c h a r a c t e r s
DMDTOP	Date Opened	Date Opened field on the Deposits > Account Information > Account Information, Activity Information , and Customer Relationship Management > General Information screens	8 n u m e r e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r i c c h a r a c t e r s
DMDTPB	Date Last Item In Bk	Date of Last Item in Passbook field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTSV	Date Last Srcv Chrgd	Date Last Service Charge field on the Deposits > Account Information > Service Charge Fields screen	8 n u m e r i c c h a r a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c t e r s
DMDTW4	Date Last W4 Notif	Last W4P Notification Date field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTW8	W8 Exp Date	W8 Form Expiration Date field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c c h a r a c t e r s
DMDUCF	Uses Uncol Funds	Account Uses Uncollected Funds field on the Deposits > Account Information > Additional Fields and Funds Holds screen	C h e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c k b o x (0 = N o , 1 = Y e s)
DMDUFC	Nbr Draws On UCF cycle	Uncollected Funds Drawn field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c c h a r a c t e r s
DMDYME	Days Before ME Int	Days to Pay Interest Before Month-end/Anniversary field on the Deposits > Account Information > Interest Fields screen	2 n u m e r i c c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			h a r a c t e r s
DMDYMT	Days Before Mat Int	Days to Pay Interest Before Maturity field on the Deposits > Account Information > Interest Fields screen	2 n u m e r i c c h a r a c t e r s
DMEDUC	Esa	ESA field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e s)
DMEFBL	Fiscal Yr End Bal		
DMEMCY	Emp Curr Yr Contrib	Employer Contribution field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMEMLY	Emp Prev Yr Contrib	Previous Year Employer Contribution field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMEMPX	Employee Number		

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMEYBL	End Of Yr Balance	Year-End Balance field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c h a r a c t e r s
DMFDWH	Federal Withhold Amt	Year-to-Date Amount Withheld Federal field on the Deposits > Account Information > Interest Fields screen	1 1 n u m e r i c h a r a c t e r s
DMFPTR	Use Tmp As Flat Rt	Grace Flat Rate field on the Deposits > Account Information > Additional Fields screen	C h e c k b

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o x (0 = N o , 1 = Y e s)
DMFRBK	Images Front back		
DMFSTS	Keep FM Hist Term	Term to Keep F/M History field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c c h a r a c t e r s
DMFSTT	Keep FM Type MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	
DMFWHA	Fed W h Fixed Amt	Withholding Fixed Amount Federal field on the Deposits > Account Information > Interest Fields screen	7 n u m e r i c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c h a r a c t e r s
DMFWHD	Fed W hi Distrib	Federal Withholding field on the Deposits > Account Information > Additional Fields screen	7 n u m e r i c c h a r a c t e r s
DMFWHP	Fed W h Percentage	Withholding Percentage Federal field on the Deposits > Account Information > Interest Fields screen	5 n u m e r i c c h a r a c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMGBNK	GOLD Phone Active	GOLDPhone? field on the Deposits > Account Information > Account Information and Additional Fields screens	r s C h e c k b o x (0 = N o , 1 = Y e s)
DMGDFP	Force Pin Change	Force Remote Banking PIN Change field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMGDIN	Restrict Internet	Restrict GOLD HomeBanker field on the Deposits > Account Information > Additional	C h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
		Fields screen	e c k b o x (0 = N o , 1 = Y e s)
DMGDPC	Nbr Invalid Pin Tries		
DMGDPH	Restrict GOLDPhone	Restrict GOLDPhone field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMGENL	General Category	General Category field on the Deposits > Account Information > Account Information screen	2 n u m e r e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r i c c h a r a c t e r s
DMGLPF	Misc Posting Field	G/L Miscellaneous Posting Field field on the Deposits > Account Information > Additional Fields screen	4 n u m e r i c c h a r a c t e r s
DMGPTN	Nbr GOLDPhone Trans	Remote Banking field on the Deposits > Account Information > Activity Information screen	3 n u m e r i c c h a r a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c t e r s
DMGPXF	Restrict GP Xfers	Restrict Remote Banking Transfers? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMGRAC	Renewal Grace Days	Use Grace Days field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			s)
DMGSTS	Keep Image Term	Term to Keep Images field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c h a r a c t e r s
DMGSTT	Keep Image Type MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	1 n u m e r i c h a r a c t e r
DMHACC	Hold Action Code	Code field on the Deposits > Account Information > Restrictions & Warnings screen	4 n u m e r i

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c c h a r a c t e r s
DMHACF	Hold Action Eff Date	Effective Date field on the Deposits > Account Information > Restrictions & Warnings screen	8 n u m e r i c c h a r a c t e r s
DMHACV	Hold Action Event	Document field on the Deposits > Account Information > Restrictions & Warnings screen	4 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r s
DMHACX	Hold Action Exp Date	Expiration Date field on the Deposits > Account Information > Restrictions & Warnings screen	8 n u m e r i c c h a r a c t e r s
DMHIBL	Cycle High Balance	High Balance/Cycle field on the Deposits > Account Information > Account Information screen	1 1 n u m e r i c c h a r a c t e r s
DMHIGR	High Rate In Renewal	Renew at High Rate field on the Deposits > Account Information > Additional Fields screen	C h e c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			k b o x (0 = N o , 1 = Y e s)
DMHSTS	Keep History Term	Term to Keep History field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c c h a r a c t e r s
DMHSTT	Keep Hist Type MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	1 n u m e r i c c h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a r a c t e r
DMHVEC	Have ec Record		
DMHVOD	Have Overdraft Accts		
DMIACH	Nbr Of Internal ACH		
DMIANV	Anniversary Int	Anniversary Interest field on the Deposits > Account Information > Interest Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMICTD	CDT Interest	Interest This Term field on the Deposits > Account Information > Interest Fields screen	1 1 n u m e r i c c h a r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a c t e r s
DMIDST	Interest Destination	Interest Destination field on the Deposits > Account Information > Interest Fields and Account Information and Deposits > Account Information> Customer Directed Transfers > Customer Directed Transfers and Interest Fields screens	2 n u m e r i c c h a r a c t e r s
DMIFTD	Fiscal YTD Interest		
DMIMAG	Image Account	Imaged Account? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMIMAT	Interest At Mat	Pay Interest at Maturity field on the Deposits > Account Information > Additional Fields and Interest Fields screens	s) C h e c k b o x (0 = N o , 1 = Y e s)
DMINAC	Inactive Account		
DMINBC	Interest Bal Code	Interest Balance Code field on the Deposits > Account Information > Interest Fields screen	2 n u m e r i c h a r a c t e r s
DMINFO	User Information	User Information field on the Deposits > Account Information > Account Information and Interest	4 0

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
		Fields screens	a l p h a n u m e r i c h a r a c t e r s
DMINFQ	Interest Frequency	Frequency field on the Deposits > Account Information > Account Information and Interest Fields screens	3 n u m e r i c h a r a c t e r s
DMINGR	Int During Grace	Pay Interest During Grace field on the Deposits > Account Information > Additional Fields screen	C h e c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			k b o x (0 = N o , 1 = Y e s)
DMINMT	Interest Method	Method field on the Deposits > Account Information > Account Information and Interest Fields screens	2 n u m e r i c h a r a c t e r s
DMINPD	In Periodic Distrib	In Periodic Distribution field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			= N o , 1 = Y e s)
DMINTT	Interest This Term		
DMISTS	Term Until Inactive	Term Until Inactive field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			t e r s
DMMHDS	Money Hold Desc	Description field on the Deposits > Account Information > Restrictions & Warnings screen	2 0 a l p h a n u m e r i c c h a r a c t e r s
DMMHEX	Money Hold Exp	Expiration Date field on the Deposits > Account Information > Restrictions & Warnings screen	8 n u m e r i c c h a r a c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMMNBL	Minimum Bal Limit	Minimum Balance Limit field on the Deposits > Account Information > Additional Fields screen	r s 1 1 n u m e r i c c h a r a c t e r s
DMMNCA	Minimum Check Amount	Minimum Check Amount field on the Deposits > Account Information > Activity Information screen	7 n u m e r i c c h a r a c t e r s
DMMTDT	Maturity Date	Maturity Date field on the Deposits > Account Information > Account Information, Additional Fields, and Overdraft & Loan Accounts screens	8 n u m e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r i c c h a r a c t e r s
DMMTDW	MTD Withholding		
DMMXBL	Maximum Bal Limit	Maximum Sweep Limit field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMNACL	Never Auto Close Account	Never Automatically Close Account field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 =

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			N o , 1 = Y e s)
DMNAPY	Do Not Calculate APY	Do Not Calculate APY field on the Deposits > Account Information > Interest Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMNCDT	Next Cyc Start Date	Next Cycle Start Date field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r s
DMNGIN	Allow Negative Int	Allow Negative Interest field on the Deposits > Account Information > Interest Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMNGLD	Negative Limit Date	Negative Fee Last Charged field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMNGLM	Limit To Go Negative	Negative Limit field on the Deposits > Account Information > Additional Fields screen	1 1 n

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			u m e r i c h a r a c t e r s
DMNODN	No Overdraft Notice	No Overdraft Notice? field on the Deposits > Account Information > Overdraft & Secured Loans screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMNRAG	Rate After Renewal	Renewal Rate field on the Deposits > Account Information > Additional Fields screen	7 n u m e r i c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c h a r a c t e r s
DMNWAG	New Mat If Dp Grace	New Maturity Date if Deposit During Grace field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMNWMT	New Mat From Hi Dt	New Maturity Date as of High Rate Date field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o ,

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			1 = Y e s)
DMNWWG	New Mat If Wd Grace	New Maturity Date if Withdrawal During Grace field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMNxef	Next Prod Eff Date	Next Effective Date field on the Deposits > Account Information > Roll Schedules screen	8 n u m e r i c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMNXP	Next Product Code	Next Product Code field on the Deposits > Account Information > Roll Schedules screen	4 n u m e r i c h a r a c t e r s
DMOACH	Nbr Of Outbound ACH		
DMOCAM	OTC Amount	Over the Counter field on the Deposits > Account Information > Account Information screen	1 1 n u m e r i c h a r a c t e r s
DMODA7	OD Inc Amt For CD 7		
DMODAM	OD Increment Amount	Overdraft Incremental Amount field on the Deposits > Account Information > Overdraft & Secured Loans screen	5 n u m

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r i c h a r a c t e r s
DMODCY	OD Ctd	Cycle-to-Date Overdrafts field on the Deposits > Account Information > Interest Fields screen	5 n u m e r i c h a r a c t e r s
DMODEP	Images Of Deps Only		
DMODFA	OD Last Failed	Date Overdraft Failed field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c h a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r a c t e r s
DMODFC	OD Fee Code	Fee Code field on the Deposits > Account Information > Overdraft & Secured Loans screen	2 n u m e r i c h a r a c t e r s
DMODFF	OD Flat Fee	Overdraft Flat Fee field on the Deposits > Account Information > Overdraft & Secured Loans screen	1 1 n u m e r i c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMODLA	OD Acct Nbr	Account Number field on the Deposits > Account Information > Overdraft & Secured Loans screen	1 0 n u m e r i c h a r a c t e r s
DMODLC	OD Ck Digit	Account Number field on the Deposits > Account Information > Overdraft & Secured Loans screen	2 n u m e r i c h a r a c t e r s
DMODLD	OD Ltd	Life-to-Date Overdrafts field on the Deposits > Account Information > Interest Fields screen	5 n u m e r i

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c c h a r a c t e r s
DMODLO	OD Offc Nbr	Account Number field on the Deposits > Account Information > Overdraft & Secured Loans screen	4 n u m e r i c c h a r a c t e r s
DMODPR	OD Fee Percentage Of Xfer	Overdraft Fee % of Transfer field on the Deposits > Account Information > Overdraft & Secured Loans screen	5 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r s
DMODTP	Overdraft Type	Account Type field on the Deposits > Account Information > Overdraft & Secured Loans screen	1 a l p h a b e t i c h a r a c t e r
DMODYD	OD Ytd	Year-to-Date Overdrafts field on the Deposits > Account Information > Interest Fields screen	5 n u m e r i c h a r a c t e r s
DMOFAC	Officer director	Officer Director? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c k b o x (0 = N o , 1 = Y e s)
DMOFCD	Officer Code	Account Representative field on the Deposits > Account Information > Account Information and Additional Fields screens	4 n u m e r i c c h a r a c t e r s
DMOLD#	Old Account Number	Old Account Number field on the Deposits > Account Information > Additional Fields screen	1 4 n u m e r i c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c h a r a c t e r s
DMOPBL	Opening Balance	Opening Balance field on the Deposits > Account Information > Additional Fields screen	1 n u m e r i c c h a r a c t e r s
DMOTCL	Limit OTC Cks In Cyc	Over the Counter Checks Limit field on the Deposits > Account Information > Activity Information screen	3 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r s
DMOTCY	OTC Checks In Cycle	Over the Counter Checks field on the Deposits > Account Information > Activity Information screen	3 n u m e r i c h a r a c t e r s
DMOTLR	Opening Teller Nbr		
DMOVDC	OD Amt Code	Amount Code field on the Deposits > Account Information > Overdraft & Secured Loans screen	2 n u m e r i c h a r a c t e r s
DMPDCD	Product Code		
DMPDDS	Product Code Descr		

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMPERS	Personal Account	Personal Account? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMPINE	Pin Expiration	Remote Banking PIN Expiration field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMPLAN	Plan Number	Plan Number field on the Deposits > Account Information > Account Information and Additional Fields screens	4 n u m e r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			i c c h a r a c t e r s
DMPNCD	Penalty Code	Penalty Code field on the Deposits > Account Information > Account Information screen	2 n u m e r i c c h a r a c t e r s
DMPNIC	Pending Inclearings	Showing Pending? field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o ,

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			1 = Y e s)
DMPNID	Pin Identification		
DMPODT	Date Of Payout	Next Payout Date field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMPOFQ	Frequency Of Payout	Payout Frequency field on the Deposits > Account Information > Activity Information screen	2 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMPOKP	Club Amount To Not Payout	Payout Holdback field on the Deposits > Account Information > Activity Information screen	1 1 n u m e r i c h a r a c t e r s
DMPRCR	Prior year Rechar	Previous Year Recharacterization Rollover field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c h a r a c t e r s
DMPSBK	Passbook Account	Passbook Account field on the Deposits > Account Information > Additional Fields screen	C h e c k b

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o x (0 = N o , 1 = Y e s)
DMPSPY	Positive Pay Acct	Positive Pay field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMPT99	Print 1099 Forms		
DMPWRN	Positive Pay Warning		
DMPYRA	Prev Yr Rollover Amt	Previous Year Rollover Amount field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			i c c h a r a c t e r s
DMPYRC	Prior Year Roth Conv	YYYY Contribution for YYYY field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMQCTA	Qualifying Account	Account Number field on the Deposits > Account Information > Account Information screen	1 0 n u m e r i c c h a r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a c t e r s
DMQCTO	Qualifying Office	Account Number field on the Deposits > Account Information > Account Information screen	4 n u m e r i c c h a r a c t e r s
DMQKDG	Qualifying Chk Digit	Account Number field on the Deposits > Account Information > Account Information screen	2 n u m e r i c c h a r a c t e r s
DMQWDP	QTD WD With Penalty	Quarter-to-Date Withdrawal with Penalty field on the Deposits > Account Information > Activity	1 1

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
		Information screen	n u m e r i c h a r a c t e r s
DMRACY	Returned ACH In Cycle	Returned ACH field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c h a r a c t e r s
DMRAIM	Returned Avail Int at Maturity	Retain Available Interest at Maturity field on the Deposits > Account Information > Interest Fields screen	C h e c k b o x (

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			0 = N o , 1 = Y e s)
DMRALD	Returned ACD LTD	Returned ACH field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c c h a r a c t e r s
DMRATE	Interest Rate	Rate field on the Deposits > Account Information > Account Information, Additional Fields, Interest Fields, and Overdraft & Loan Accounts and Customer Relationship Management > Households screens	7 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r s
DMRAYD	Returned ACH YTD	Returned ACH field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c c h a r a c t e r s
DMRBFT	Remote Bank First Time	Remote Banking First Access field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMRCCY	Returned Cks Cycle	Returned Checks field on the Deposits > Account Information > Activity Information screen	5 n u m e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r i c h a r a c t e r s
DMRCLD	Returned Cks LTD	Returned Checks field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c h a r a c t e r s
DMRCVA	Roth Conversion Amount	Roth Conversion Amount YYYY field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c h a r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a c t e r s
DMRCYD	Returned Cks YTD	Returned Checks field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c c h a r a c t e r s
DMRDYD	Returned Dep YTD	Returned Deposits field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c c h a r a c t e r s
DMRECH	Recharacterized Amount	Recharacterization Rollover field on the Deposits > Account Information > Additional Fields	1 1

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
		screen	n u m e r i c h a r a c t e r s
DMRESN	Reason	Reason Waived field on the Deposits > Account Information > Service Charge Fields screen	2 0 a l p h a n u m e r i c h a r a c t e r s
DMRHSA	Health Savings Account	HSA field on the Deposits > Account Information > Additional Fields screen	C h e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c k b o x (0 = N o , 1 = Y e s)
DMRIRA	Traditional IRA	Traditional field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMROAM	YTD Rollover Amount	Rollover Amount field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			i c c h a r a c t e r s
DMROCV	Roth Conversion		
DMROFF	Rate Offset	Rate Offset field on the Deposits > Account Information > Interest Fields screen	7 n u m e r i c c h a r a c t e r s
DMROTH	Roth IRA	Roth Account field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			, 1 = Yes)
DMRPTR	Rate Pointer	Rate Pointer field on the Deposits > Account Information > Interest Fields screen	3 numeric characters
DMRQLC	Qualified Plan Code	Plan Description Code field on the Deposits > Account Information > Additional Fields screen	2 numeric characters

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMRQLP	Qualified Plan	Qualified Plan field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMRTL	Referring Teller	Referring Teller field on the Deposits > Account Information > Additional Fields screen	1 0 n u m e r i c c h a r a c t e r s
DMRTMN	Minimum Rate	Minimum Rate field on the Deposits > Account Information > Interest Fields screen	7 n u m e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r i c c h a r a c t e r s
DMRTMX	Maximum Rate	Maximum Rate field on the Deposits > Account Information > Interest Fields screen	7 n u m e r i c c h a r a c t e r s
DMS142	1042s Form Required	1042S Form Required field on the Deposits > Account Information > Interest Fields screen	C h e c k b o x (0 = N o

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			, 1 = Yes)
DMSBOR	Suppress Bal On Rcpt	Suppress Balance on Receipt? field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = No , 1 = Yes)
DMSCB1	Serv Chrg Both Cd 1	Waive Fee/Show on Statement field on the Deposits > Account Information > Service Charge Fields screen	C h e c k b o x (0 = No , 1 = Y

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e s)
DMSCB2	Serv Chrg Both Cd 2	Waive Fee/Show on Statement field on the Deposits > Account Information > Service Charge Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMSCB3	Serv Chrg Both Cd 3	Waive Fee/Show on Statement field on the Deposits > Account Information > Service Charge Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMSCB4	Serv Chrg Both Cd 4	Waive Fee/Show on Statement field on the Deposits > Account Information > Service Charge Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMSCB5	Serv Chrg Both Cd 5	Waive Fee/Show on Statement field on the Deposits > Account Information > Service Charge Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMSCB6	Serv Chrg Both Cd 6	Waive Fee/Show on Statement field on the Deposits > Account Information > Service Charge Fields screen	C h e c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			k b o x (0 = N o , 1 = Y e s)
DMSCFQ	Service Chg Freq	Service Charge Frequency field on the Deposits > Account Information > Service Charge Fields screen	3 n u m e r i c c h a r a c t e r s
DMSCFY	End of Day Service Charge Freq	Service Charge Frequency field on the Deposits > Account Information > Service Charge Fields screen	3 n u m e r i c c h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a r a c t e r s
DMSCLA	Secured Ln Acct Nbr		
DMSCLC	Secured Ln Ck Digit

Acct Analysis AA

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for all GOLDWriter field mnemonics within the **Acct Analysis AA** master record category. This master record can also be viewed by manually entering "FPAA" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

The [Deposit Master DM](#) and [Name and Address MN](#) master records can be accessed underneath this record in the GOLDWriter **Report Wizard** tree view.

This table is organized alphabetically by field **Mnemonic**.

Mnemonic	Description	CIM GOLD Field Location	Details
AA ACTA	Account Number	This is the account number for the account that is set up with Commercial Account Analysis .	10 numeric characters
AA ACTO	Office Number	This is the office number of the account that is set up with Commercial Account Analysis .	4 numeric characters
AA CHGS	Set When Fee Charges	Charge Fees field on the Deposits > Account Information > Commercial Account Analysis screen	Checkbox (0=No, 1=Yes)
AA CITM	Cost Per Item	Cost field on the Deposits > Account Information > Commercial Account Analysis screen	7 numeric characters
AA DTEX	Expiration Date	This is the expiration date of the Account Analysis printed from the Commercial Account Analysis screen.	8 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
AADTLU	Date Last Updated	This is the date the Commercial Account Analysis record for the account was last updated by an employee at your institution.	8 numeric characters
AAFBAL	Forwarded Balance	Forwarded Credit field on the Deposits > Account Information > Commercial Account Analysis screen	11 numeric characters
AAFCYC	Forwarding Cycle Cd	Credit Clear Cycle field on the Deposits > Account Information > Commercial Account Analysis screen	3 numeric characters
AAFFCT	Float Factor	Float Factor field on the Deposits > Account Information > Commercial Account Analysis screen	5 numeric characters
AAFOPT	Float Option	Float Method field on the Deposits > Account Information > Commercial Account Analysis screen	3 numeric characters
AAFPPT	Federal Reserve Ptr	Federal Reserve Rate Pointer field on the Deposits > Account Information > Commercial Account Analysis screen	3 numeric characters
AAICNT	Item Count	This is the number of times this particular costed item was assessed to this deposit account during the analysis statement date. This number is pulled from the Commercial Account Analysis screen and can be seen on the Deposits > Definitions > Commercial Analysis Estimate screen.	7 numeric characters

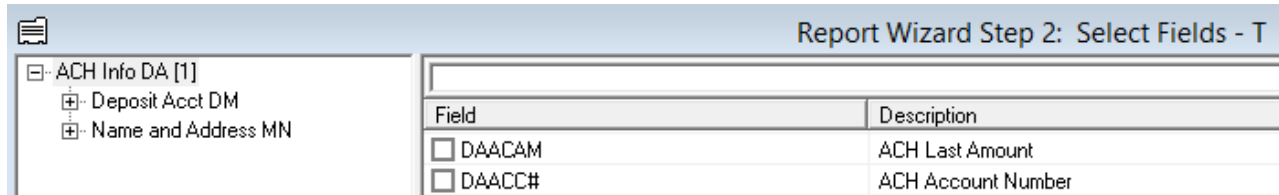

Mnemonic	Description	CIM GOLD Field Location	Details
AAINPT	Insurance Pointer	FDIC Insurance Rate Pointer field on the Deposits > Account Information > Commercial Account Analysis screen	3 numeric characters
AAINSK	Analysis Skip Intr	Exclude Interest field on the Deposits > Account Information > Commercial Account Analysis screen	Checkbox (0=No, 1=Yes)
AAIPPT	Inst Reserve Ptr	Institution Reserve Rate Pointer field on the Deposits > Account Information > Commercial Account Analysis screen	3 numeric characters
AANGPT	Negative Amt Rt Ptr	Negative Balance Rate Pointer field on the Deposits > Account Information > Commercial Account Analysis screen	3 numeric characters
AARPTR	Rate Pointer	Positive Balance Rate Pointer field on the Deposits > Account Information > Commercial Account Analysis screen	3 numeric characters
AASKCR	Skp Cr Analysis Stmt	Skip Credit Statement field on the Deposits > Account Information > Commercial Account Analysis screen	Checkbox (0=No, 1=Yes)
AASTPT	State Sales Tax Ptr	State Sales Tax field on the Deposits > Account Information > Commercial Account Analysis screen	3 numeric characters
AASVDT	Svc Chrg Eff Date	Charge Effective Date field on the Deposits > Account Information > Commercial Account Analysis screen	8 numeric characters

Mnemonic	Description	CIM GOLD Field Location	Details
AATIM1	Work Time	This is the time of day when the Commercial Account Analysis record for the account was last updated by an employee at your institution. See also: Date Last Updated (AADTLU) above.	6 numeric characters
AATPTR	Tier Pointer	Tier Pointer field on the Deposits > Account Information > Commercial Account Analysis screen	3 numeric characters
AAUPDF	No Default Update	Ignore Service Updates field on the Deposits > Account Information > Commercial Account Analysis screen	Checkbox (0=No, 1=Yes)
AAUSEC	Use Calc Avg Bal	Balance To Use field on the Deposits > Account Information > Commercial Account Analysis screen	Checkbox (0=No, 1=Yes)
AAUSEH	Use High Balance	Balance To Use field on the Deposits > Account Information > Commercial Account Analysis screen	Checkbox (0=No, 1=Yes)
AAUSEL	Use Low Balance	Balance To Use field on the Deposits > Account Information > Commercial Account Analysis screen	Checkbox (0=No, 1=Yes)
AAWAVE	Wave Costed Service	Waive field on the Deposits > Account Information > Commercial Account Analysis screen	Checkbox (0=No, 1=Yes)

ACH Info DA

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **ACH Info DA** master record category. This master record can also be viewed by manually entering "FPDA" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

The [Deposit Master DM](#) and [CIF Name and Address MN](#) master records can be accessed underneath this record in the GOLDWriter **Report Wizard** tree view.

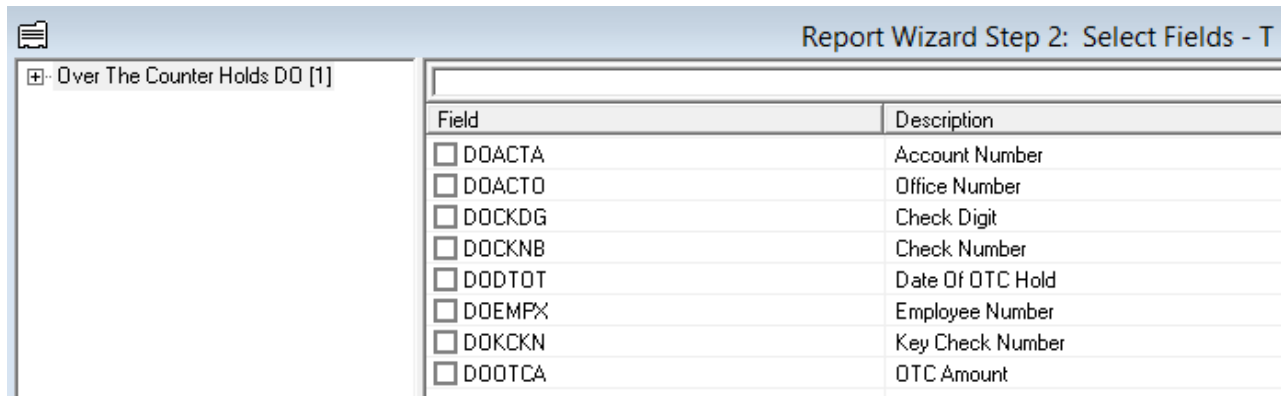

This table is organized alphabetically by field **Mnemonic**.

Mnemonic	Description	CIM GOLD Field Location	Details
DAACAM	ACH Last Amount	Amount Last Received field on the Incoming ACH tab	11 numeric characters
DAACC#	ACH Account Number	Original ACH Account Number field on the Incoming ACH tab	17 numeric characters
DAACHH	ACH Stop Has Hit	Stop was hit field on the Incoming ACH tab	Checkbox (0=No, 1=Yes)
DAACR	Credit Item	Credit Item field on the Incoming ACH tab	Checkbox (0=No, 1=Yes)
DAACRT	ACH Return Code	ACH Return Code field on the Incoming ACH tab	2 numeric characters
DAACTA	Account Number		
DAACTO	Office Number		
DAADDT	Discretionary Data	Discretionary Data field on the Incoming ACH tab	2 numeric characters
DAAIID	Individual ID	Individual ID field on the Incoming ACH tab	15 numeric characters
DAAINM	Individual Name	Individual Name field on the Incoming ACH tab	15 alphabetic characters
DAAPCC	Standard Entry Class	Standard Entry Class field on the Incoming ACH tab	3 alphabetic characters
DAAPNM	Prenote Seq		
DAAPRN	Auto Pre Notification	Created by GOLDPoint Systems field on the Incoming ACH tab	Checkbox (0=No, 1=Yes)

Mnemonic	Description	CIM GOLD Field Location	Details
DAATRN	ACH Tran Code	ACH Transaction Code field on the Incoming ACH tab	2 numeric characters
DACDSR	Company Discretionary Data	Company Data field on the Incoming ACH tab	20 alphanumeric characters
DACKDG	Check Digit		
DACPAG	Company Aggregate	Company Aggregate field on the Incoming ACH tab	Checkbox (0=No, 1=Yes)
DACPID	Originator Company ID	Company ID field on the Incoming ACH tab	10 numeric characters
DACPNM	Originator Name	Originator Name field on the Incoming ACH tab	16 alphabetic characters
DADLAR	Date Last Recvd	Date Last Received field on the Incoming ACH tab	8 numeric characters
DADLPA	Date To Purge ACH	Purge Date field on the Incoming ACH tab	8 numeric characters
DADTAP	ACH Prenote Date	Prenote Date field on the Incoming ACH tab	8 numeric characters
DADTAS	Date Of ACH Stop	Stop Date field on the Incoming ACH tab	8 numeric characters
DADTDT	Date Of Death	Death Date field on the Incoming ACH tab	8 numeric characters
DAFEE	Fee Was Assessed	Fee was Assessed field on the Incoming ACH tab	Checkbox (0=No, 1=Yes)
DAITVL	Incoming ACH Interval	Last Six Intervals field on the Incoming ACH tab	5 numeric characters
DAOSPA	Original Stop Payment Amount	Original Amount field on the Incoming ACH tab	11 numeric characters
DARTNM	Originator Routing Transit	Routing Transit Number field on the Incoming ACH tab	9 numeric characters
DASKOF	Skip OFAC Testing	Skip OFAC Testing? field on the Incoming ACH tab	Checkbox (0=No, 1=Yes)
DASTA1	1st Status Flag		
DASTPA	Stop This ACH Item	Stop this item field on the Incoming ACH tab	Checkbox (0=No, 1=Yes)
DATIMA	Time Handled		
DATRC#	Trace Number		

OTC Holds DO

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **OTC Holds DO** record. This record can also be viewed by manually entering "FPDO" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

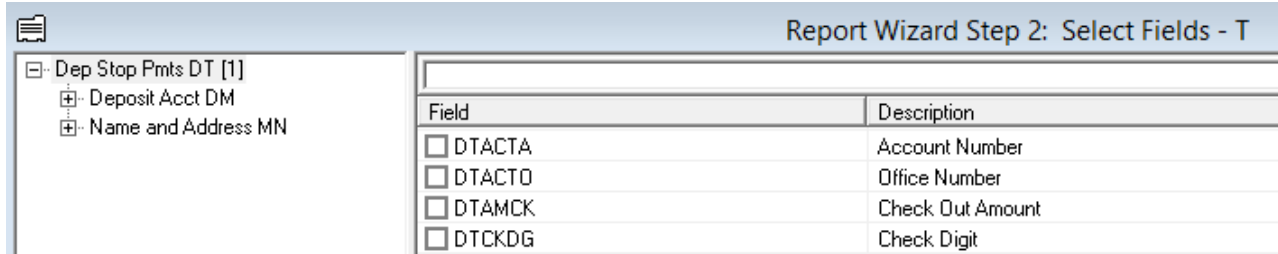

The [Deposit Master DM](#) master record can be accessed underneath this record in the GOLDWriter **Report Wizard** tree view.

Mnemonic	Description	CIM GOLD Field Location	Details
DOACTA	Account Number	The account number of where OTC hold record was found.	6 numeric characters
DOACTO	Office Number	The office number where the account resides for this OTC hold record.	2 or 4 numeric characters
DOCKDG	Check Digit	The check number associated with the account number for this OTC hold record.	2 numeric characters
DOCKNB	Check Number	Check Number field on the Deposits > Account Information > Restrictions & Warnings screen > Over the Counter Holds tab	10 numeric characters
DODTOT	Date Of OTC Hold	Date Entered field on the Deposits > Account Information > Restrictions & Warnings screen > Over the Counter Holds tab	Date entered in MM/DD/YYYY format
DOEMPX	Employee Number	Entered By field on the Deposits > Account Information > Restrictions & Warnings screen > Over the Counter Holds tab	Up to 10 numeric characters
DOKCKN	Key Check Number		
DOOTCA	OTC Amount	Amount field on the Deposits > Account Information > Restrictions & Warnings screen	11 numeric characters

Stop Pmts DT

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **Dep Stop Pmts DT** master record category. This master record can also be viewed by manually entering "FPDT" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

The [Deposit Master DM](#) and [CIF Name and Address MN](#) master records can be accessed underneath this record in the GOLDWriter **Report Wizard** tree view.

Match and Hold MH

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **POS Match and Hold MH** master record category. This master record can also be viewed by manually entering "FPMH" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

The [Deposit Master DM](#) master record can be accessed underneath this record in the GOLDWriter **Report Wizard** tree view:

Field	Description
<input type="checkbox"/> MHACTA	Account Number
<input type="checkbox"/> MHACTO	Office Number
<input type="checkbox"/> MHDESC	Description
<input type="checkbox"/> MHHADT	Hold Add Date

This table is organized alphabetically by field **Mnemonic**.

Mnemonic	Description	CIM GOLD Field Location	Details
MHACTA	Account Number		
MHACTO	Office Number		
MHDESC	Description	Description field on the Deposits > Account Information > Restrictions & Warnings screen	26 alphanumeric characters
MHHADT	Hold Add Date		
MHHAMT	Hold Amount	Hold Amount field on the Deposits > Account Information > Restrictions & Warnings screen	11 numeric characters
MHHEDT	Hold Expiration Date		
MHHKEY	Hold Key Information		
MHHTYP	Hold Type		
MHSEQU	Sequence Counter		

Exception Counters EC

This section of the [GOLDWriter Mnemonic Dictionary](#) provides the CIM GOLD source location and entry details for GOLDWriter field mnemonics within the **Exception Counters EC** record. This master record can also be viewed by manually entering "XMEC" in the text portion of the **Master Record** field (as explained in the [first step](#) of the GOLDWriter **Report Wizard** process).

DMDNEG	Can Acct Go Neg	Can Account Go Negative field on the Deposits > Account Information > Additional Fields screen	C h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e c k b o x (0 = N o , 1 = Y e s)
DMDORM	Dormant Account		
DMDPCY	Nbr Deposits In Cycle	Deposits Count field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c c h a r a c t e r s
DMDPTP	Deposit Type Code	Account Type field on the Deposits > Account Information > Account Information screen	2 n u m e r i

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c c h a r a c t e r s
DMDROP	Drop Record		
DMDSCA	Distrib Category	Code field on the Deposits > Account Information > Additional Fields screen	2 a l p h a n u m e r i c c h a r a c t e r s
DMDSEH	Use Extended UCF Hold	Extend Uncollected Funds Holds field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			0 = N o , 1 = Y e s)
DMDSFH	Enforce UCF lopts	Enforce Uncollected Funds Holds field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDSL	Distrib LTD		
DMDSNH	New Acct UCF Holds	New Account Uncollected Funds Holds field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o , 1 = Y e s)
DMDSPY	Prior YTD Distributions	Distributions field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMDSTS	Term Until Dormant	Term Until Dormant field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c c h a r a c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r s
DMDSTT	Type Till Dorm MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	1 n u m e r i c h a r a c t e r
DMDSUT	Unspec Hold Exp Today	Unspecified Hold Expires Today field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMDSYD	Distrib YTD		
DMDTAC	Date Last Accrued	Date Interest Accrued to field on the Deposits > Account Information > Interest Fields screen	8 n u

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			m e r i c h a r a c t e r s
DMDTCC	Dt Last Cust Contact	Unspecified Hold Expires Today field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTCL	Date Closed	Date Closed field on the Deposits > Account Information > Account Information and Activity Information screen	8 n u m e r i c c h a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r a c t e r s
DMBTCV	Conversion Date	Conversion Date field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTDM	Date Of Dormancy	Date Dormant field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMDTHR	High Rate Renewal Dt	High Rate Date field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTLA	Date Of Last Activity	Last Active field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMDTLD	Date Last Deposit	Last Deposit field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c h a r a c t e r s
DMDTLR	Date Of Last Return		
DMDTLT	Date Last Transaction	Last Transaction field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t e r s
DMDTLW	Date Last Withdrawal	Last Withdrawal field on the Deposits > Account Information > Activity Information screen	8 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r s
DMDTNG	Date Acct Went Neg	Last Date Acct Went Neg field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTOD	Date Last Overdraft	Date of Last Overdraft field on the Deposits > Account Information > Overdraft & Secured Loans screen	8 n u m e r i c c h a r a c t e r s
DMDTOP	Date Opened	Date Opened field on the Deposits > Account Information > Account Information, Activity Information , and Customer Relationship Management > General Information screens	8 n u m e r i c c h a r a c t e r s

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r i c c h a r a c t e r s
DMDTPB	Date Last Item In Bk	Date of Last Item in Passbook field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTSV	Date Last Svc Chrgd	Date Last Service Charge field on the Deposits > Account Information > Service Charge Fields screen	8 n u m e r i c c h a r a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c t e r s
DMDTW4	Date Last W4 Notif	Last W4P Notification Date field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c c h a r a c t e r s
DMDTW8	W8 Exp Date	W8 Form Expiration Date field on the Deposits > Account Information > Interest Fields screen	8 n u m e r i c c h a r a c t e r s
DMDUCF	Uses Uncol Funds	Account Uses Uncollected Funds field on the Deposits > Account Information > Additional Fields and Funds Holds screen	C h e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c k b o x (0 = N o , 1 = Y e s)
DMDUFC	Nbr Draws On UCF cycle	Uncollected Funds Drawn field on the Deposits > Account Information > Activity Information screen	5 n u m e r i c c h a r a c t e r s
DMDYME	Days Before ME Int	Days to Pay Interest Before Month-end/Anniversary field on the Deposits > Account Information > Interest Fields screen	2 n u m e r i c c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			h a r a c t e r s
DMDYMT	Days Before Mat Int	Days to Pay Interest Before Maturity field on the Deposits > Account Information > Interest Fields screen	2 n u m e r i c c h a r a c t e r s
DMEDUC	Esa	ESA field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e s)
DMEFBL	Fiscal Yr End Bal		
DMEMCY	Emp Curr Yr Contrib	Employer Contribution field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMEMLY	Emp Prev Yr Contrib	Previous Year Employer Contribution field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c c h a r a c t e r s
DMEMPX	Employee Number		

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMEYBL	End Of Yr Balance	Year-End Balance field on the Deposits > Account Information > Additional Fields screen	1 1 n u m e r i c h a r a c t e r s
DMFDWH	Federal Withhold Amt	Year-to-Date Amount Withheld Federal field on the Deposits > Account Information > Interest Fields screen	1 1 n u m e r i c h a r a c t e r s
DMFPTR	Use Tmp As Flat Rt	Grace Flat Rate field on the Deposits > Account Information > Additional Fields screen	C h e c k b

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			o x (0 = N o , 1 = Y e s)
DMFRBK	Images Front back		
DMFSTS	Keep FM Hist Term	Term to Keep F/M History field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c h a r a c t e r s
DMFSTT	Keep FM Type MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	
DMFWHA	Fed W h Fixed Amt	Withholding Fixed Amount Federal field on the Deposits > Account Information > Interest Fields screen	7 n u m e r i c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c h a r a c t e r s
DMFWHD	Fed W hi Distrib	Federal Withholding field on the Deposits > Account Information > Additional Fields screen	7 n u m e r i c c h a r a c t e r s
DMFWHP	Fed W h Percentage	Withholding Percentage Federal field on the Deposits > Account Information > Interest Fields screen	5 n u m e r i c c h a r a c t e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
DMGBNK	GOLD Phone Active	GOLDPhone? field on the Deposits > Account Information > Account Information and Additional Fields screens	r s C h e c k b o x (0 = N o , 1 = Y e s)
DMGDFP	Force Pin Change	Force Remote Banking PIN Change field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMGDIN	Restrict Internet	Restrict GOLD HomeBanker field on the Deposits > Account Information > Additional	C h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
		Fields screen	e c k b o x (0 = N o , 1 = Y e s)
DMGDPC	Nbr Invalid Pin Tries		
DMGDPH	Restrict GOLDPhone	Restrict GOLDPhone field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMGENL	General Category	General Category field on the Deposits > Account Information > Account Information screen	2 n u m e r e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			r i c c h a r a c t e r s
DMGLPF	Misc Posting Field	G/L Miscellaneous Posting Field field on the Deposits > Account Information > Additional Fields screen	4 n u m e r i c c h a r a c t e r s
DMGPTN	Nbr GOLDPhone Trans	Remote Banking field on the Deposits > Account Information > Activity Information screen	3 n u m e r i c c h a r a

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c t e r s
DMGPXF	Restrict GP Xfers	Restrict Remote Banking Transfers? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMGRAC	Renewal Grace Days	Use Grace Days field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0 = N o , 1 = Y e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			s)
DMGSTS	Keep Image Term	Term to Keep Images field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c h a r a c t e r s
DMGSTT	Keep Image Type MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	1 n u m e r i c h a r a c t e r
DMHACC	Hold Action Code	Code field on the Deposits > Account Information > Restrictions & Warnings screen	4 n u m e r i

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			c c h a r a c t e r s
DMHACF	Hold Action Eff Date	Effective Date field on the Deposits > Account Information > Restrictions & Warnings screen	8 n u m e r i c c h a r a c t e r s
DMHACV	Hold Action Event	Document field on the Deposits > Account Information > Restrictions & Warnings screen	4 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r s
DMHACX	Hold Action Exp Date	Expiration Date field on the Deposits > Account Information > Restrictions & Warnings screen	8 n u m e r i c c h a r a c t e r s
DMHIBL	Cycle High Balance	High Balance/Cycle field on the Deposits > Account Information > Account Information screen	1 1 n u m e r i c c h a r a c t e r s
DMHIGR	High Rate In Renewal	Renew at High Rate field on the Deposits > Account Information > Additional Fields screen	C h e c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			k b o x (0 = N o , 1 = Y e s)
DMHSTS	Keep History Term	Term to Keep History field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c c h a r a c t e r s
DMHSTT	Keep Hist Type MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	1 n u m e r i c c h

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a r a c t e r
DMHVEC	Have ec Record		
DMHVOD	Have Overdraft Accts		
DMIACH	Nbr Of Internal ACH		
DMIANV	Anniversary Int	Anniversary Interest field on the Deposits > Account Information > Interest Fields screen	C h e c k b o x (0 = N o , 1 = Y e s)
DMICTD	CDT Interest	Interest This Term field on the Deposits > Account Information > Interest Fields screen	1 1 n u m e r i c c h a r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			a c t e r s
DMIDST	Interest Destination	Interest Destination field on the Deposits > Account Information > Interest Fields and Account Information and Deposits > Account Information> Customer Directed Transfers > Customer Directed Transfers and Interest Fields screens	2 n u m e r i c c h a r a c t e r s
DMIFTD	Fiscal YTD Interest		
DMIMAG	Image Account	Imaged Account? field on the Deposits > Account Information > Account Information and Additional Fields screens	C h e c k b o x (0 = N o , 1 = Y e

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			s)
DMIMAT	Interest At Mat	Pay Interest at Maturity field on the Deposits > Account Information > Additional Fields and Interest Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMINAC	Inactive Account		
DMINBC	Interest Bal Code	Interest Balance Code field on the Deposits > Account Information > Interest Fields screen	2 n u m e r i c h a r a c t e r s
DMINFO	User Information	User Information field on the Deposits > Account Information > Account Information and Interest	4 0

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
		Fields screens	a l p h a n u m e r i c h a r a c t e r s
DMINFQ	Interest Frequency	Frequency field on the Deposits > Account Information > Account Information and Interest Fields screens	3 n u m e r i c h a r a c t e r s
DMINGR	Int During Grace	Pay Interest During Grace field on the Deposits > Account Information > Additional Fields screen	C h e c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			k b o x (0 = N o , 1 = Y e s)
DMINMT	Interest Method	Method field on the Deposits > Account Information > Account Information and Interest Fields screens	2 n u m e r i c h a r a c t e r s
DMINPD	In Periodic Distrib	In Periodic Distribution field on the Deposits > Account Information > Additional Fields screen	C h e c k b o x (0

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			= N o , 1 = Y e s)
DMINTT	Interest This Term		
DMISTS	Term Until Inactive	Term Until Inactive field on the Deposits > Account Information > Additional Fields screen	2 n u m e r i c c h a r a c t e r s
DMISTT	Type Till Inact MMDDYY	Term Type field on the Deposits > Account Information > Additional Fields screen	1 n u m e r i c c h a r a c t

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			e r
DMIUCF	Pay Int On UCF	Pay Interest On Uncollected Funds field on the Deposits > Account Information > Additional Fields and Interest Fields screens	C h e c k b o x (0 = N o , 1 = Y e s)
DMIYTD	Interest YTD	Year-to-Date Interest field on the Deposits > Account Information > Interest Fields and Activity Information screens	1 1 n u m e r i c h a r a c t e r s
DMKTDT	Kiting Check Date	Ignore Kiting Date field on the Deposits > Account Information > Additional Fields screen	8 n u

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			m e r i c h a r a c t e r s
DMLAND	Images Landscape		
DMLCEB	Last Cyc End Balance		
DMLCWH	Local Withhold Amt		
DMLDAM	Amount Last Deposit	Last Deposit Amount field on the Deposits > Account Information > Activity Information screen	1 1 n u m e r i c h a r a c t e r s
DMLDDC	Nbr LTD Debit Card Tran	Debit Card Used field on the Deposits > Account Information > Activity Information screen	5 n u m e r

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			i c c h a r a c t e r s
DMLDGP	Last Day Grace Period	Grace End Date field on the Deposits > Account Information > Additional Fields screen	8 n u m e r i c c h a r a c t e r s
DMLDPC	Limit Deps In Cycle	Deposits Count field on the Deposits > Account Information > Activity Information screen	3 n u m e r i c c h a r a c

Mnemonic	Description	CIM GOLD Field Location	D e t a i l s
			t e r s
DMLIAM	Amt Of Int Last Pd		
DMLMCK	Limit Nbr Cks In Cycle	Checks Limit field on the Deposits > Account Information > Activity Information screen	3 n u m e r i c c h a r a c t e r s

Support

When you encounter problems using GOLDWriter, your institution's liaison should contact your institution's GOLDPoint Systems account specialist.

Before contacting GOLDPoint Systems, have the following information ready:

- Your computer VTAM identification number.
- Your institution number.
- Your location.
- A description of the error or problem.
- A description of what you were doing when the error/problem occurred.
- Your teller number and/or account number.

Telephone Numbers
